The 1985
50¢ Parliament Buildings Booklet

Are you aware there are four different booklets to end 1985, not just two as hitherto described? One of these is very good indeed and two others are scarce. All four are sharply distinctive. Also there are some attractive varieties worth 6 to 80 times the face value (that is what I’ll pay for them, offering to take unlimited quantities).

Find out what it is all about. I offer for $10.00 all four varieties, displayed in one of my mounts, plus full information on these and all variations. If you have any of these booklets you will need this lot to properly classify what you have. If you don’t collect Canadian stamps by all means get this $10 lot. It will introduce you to the most unusual single unit stamp issue in Canadian philatelic history.

Two very useful catalogues:

2. Van Dam Canada Revenue Cat. new edition--$7.50 postpaid

HAPPY NEW YEAR

As I write this, 1988 is just a few days away. To all Royal members, may this be the year that all those elusive items are found. A happy new year and happy stamping!

POST OFFICE HELPS

Elsewhere in this edition (Society Reports, pages 67-70) is a lengthy list of new Royal Philatelic Society of Canada members. Many of those new members are the result of a large scale distribution of R.P.S.C. membership application forms with a recent Canada Post publicity mailing. Due to the limited resources of The Royal’s National Office, there may be some delays in processing of some of those applications. As membership dates from the date of processing of an application form and since the process is computerized, no member will miss any journals. (The Royal does not have a set annual date for renewal of memberships. Renewals are always based on the date the member joins the Society.)

We would like to pass on our thanks to Canada Post Corp. for including the membership forms in their mailing. As a volunteer organization with limited financial resources, the cooperation of the Crown postal corporation in providing this method of reaching many potential R.P.S.C. members is greatly appreciated.

FOR LIONS

Dr. Ian W. Taylor, a longtime member of the R.P.S.C. (membership no 9487), BNAPS and the Canadian Philatelic Society of Great Britain, recently received a unique honor from his Lions Club, a worldwide service organization. Dr. Taylor has been named the Arlington Heights, Ill., Lions Club official Goodwill Ambassador and in that capacity will be visiting Lions Clubs across the continent and around the world during his annual overseas vacation. Over the years he has attended Lions meetings in 57 of the 162 nations in which Lions Clubs exists, a record he hopes to be adding to in the next few years. He’d also like to contact via mail R.P.S.C. members who are also Lions to discuss mutual service club matters. Dr. Taylor, who was born in Canada and is a former Hamilton, Ont. resident, can be contacted at 769 South Milwaukee Dr. Wheeling, Ill. 60090 U.S.A.

PAPAL VISIT

During Pope John Paul II’s 1984 visit to Canada (commemorated with two Canadian stamps, a 32-cent and a 64-cent – Scott 1030-31), poor flying weather cancelled the pontiff’s scheduled visit to Fort Simpson, N.W.T. on Sept. 18 that year. The pontiff, however, vowed he would make the visit to the isolated northern settlement at a later date. In 1987, he was able to make good on that pledge. The pope took a day from his tour of the U.S. and flew north to Fort Simpson where he was greeted by native and Metis leaders, churchmen, politicians and hundreds of citizens, young and old, of Canada’s northern territory. While no stamp was issued for this brief visit, a special cancellation, illustrated here, was available on Sept. 20, 1987 to mark the occasion.

CAPEX 87 – THE FINAL REPORT

How well did Canada do at its own World Philatelic Exhibition? We did very well, perhaps the best this country’s philatelists have ever done in international competition.
Canadians garnered 116 medals in all at CAPEX *87. This included a strong junior section and very strong literature entries.

Our juniors took 14 medals and in the Literature category, Canadian entries took home 29 medals. As well, philatelists from other countries — U.S.A., Britain, Australia, Switzerland, Netherlands and Argentina — garnered another 29 medals for exhibits of Canadian and/or British North American materials. One might say never have Canadian stamps been so prominent at an international exhibition.

Heading the awards was Gerald Wellburn of Victoria, B.C., winning a large Gold and the Grand Prix National for his splendid collection of British Columbia.

There were three other large Golds including a Nova Scotia exhibit and a collection of Canadian Small Queens shown under the nom de plumes of ‘Joffre’ and ‘Willson’ respectively.

Canadians also won six Gold medals, including two with Felicitations from the Jury — Arthur Leggett (1859 issue of Canada) and S.C.L. Queen, another nom de plume (the six-cent Large Queen).

One of the gold medal winners also took home a special prize. The recipient was Allan Steinhart (Pre-stamp and stampless mailings to and from British North America, 1685-1865).

Ten outstanding Canadian exhibits received large Vermeil medals. Nine other received Vermeil, including one with felicitations to Michael Madesker for his collection of German postal parcel cards.

Of the 21 Large Silver medals awarded to Canadians, a superb exhibit of Imperial Russian Censorship marks, 1914-17, by Mieczyslaw Lubinski of Toronto receive the jury’s felicitations. Of the remaining medals won by Canadians, 13 were silver, seven silver-bronze and one bronze. Since there were 63 bronze medals awarded at CAPEX, all the Canadian entries must have been of high quality.

The American Philatelist, in its review of the show, gave the CAPEX show high marks for its layout, its location and especially for the design of its dealer and postal administration booths which seemed to have the comfort of purchaser and seller in mind. About the only negatives, according to AP, were the hard concrete floors and high standards of the jury — several major award winners at Ameripex the previous year received lower ratings at CAPEX.

Sophie Drolet, with an exhibit entitled La Mathematique Pure, received a large Silver, the highest award given to a Canadian junior entry, Drs. H.E. and H.W. Duckworth of Winnipeg, Man. received a Gold medal for their book, Large Queen Stamps of Canada. Dr. J.C. McDonald, Antigonish, N.S., was awarded a Large Vermeil for his book, Nova Scotia Posts.

Leading the Canadian exhibits by philatelists of other countries was Col. Robert H. Pratt of Milwaukee, Wis. with a superb showing of Newfoundland. Col. Pratt won a Large Gold with special prize and was runner-up in the Grand Prix National.

Following are the chief awards for exceptional collections of Canada/BNA materials entered by philatelists of the U.S.A. and Britain:

Gold with Special Prize — Henry Lubke Jr. (Canada four-ring numerals), Horace W. Harrison (Canada’s registry system)

Gold — Susan M. McDonald (BNA cross-border mail), Dr. Robert V.C. Carr (Prince Edward Island), Dr. Robert V.C. Carr (British Columbia)

Large Vermeil with Felicitations — Harry Lussey (Canadian registered letter stamps), George B. Arrfken (Canadian small queen era)

Large Vermeil with Special Prize — Harry Lussey (Canadian federal revenue stamps)

Large Vermeil — Jonathan W. Rose (Canadian issues of the provinces)

Vermeil plus Felicitations — Gary S. Ryan (BNA law stamps), Dorothy Sanderson (Cross-border mail, Canada-U.S.)

CAPEX MAJOR AWARDS

The jury results for the three CAPEX 87 Grand Prix awards in which 33 jurors took part were very interesting. The results were as follows:

PHILEXFRANCE '89
A major philatelic event of 1989 will be
Philexfrance '89 in Paris, France, July 7-17,
1989. The exhibition, an F.I.P. international
one, is being held in conjunction with the
celebrations marking the bicentenary of the
French revolution. Slated for the Parc des Ex-
positions, a hall of 50,000 square metres, the
exhibition will include 6,000 frames. Dealers
and postal administrations from around the
world will participate. For additional informa-
tion, write to the Canadian Commissioner,
James E. Kraemer, 17 Commanche Dr.,

DEADLINES
While your humble editor has not met his
deadlines the previous two issues because of a
move to Lethbridge, Alberta (for which we
again apologize to members and our adver-
tisers), we’re nearly back on track this issue.
And we would like to remind members and
potential authors of The Canadian Philatelist’s
deadlines. Briefly, they are the 20th of the

month two months prior to publication, eg. Jan.
20, 1988 for the March-April edition, March
20 for the May-June edition and so on.

This is especially important for those all-
important coming events notices for club ex-
hibitions and bourses. Please get them to me
as early as possible to ensure maximum ex-
posure in the pages of The Canadian Philatelist.
And please note my new address: It is 23 Seneca
Place W., Lethbridge, AB T1K 4M7.

All advertising items (including paid for
Chapter Meetings), should be sent ot CP’s
advertising manager, Paul M. Burega,
PO Box 15765, Station F, Ottawa, Ont.

UN SUPPORT
Some of the world’s best-know artists are
helping to support the work of the World
Federation of United Nations Association by
contributing designs used on first day covers
that are prepared for new issues of United
Nations Postal Administrations stamps in New
York, Geneva and Vienna.

Since 1966, works by artists such as Salvador
Dali, Andy Warhol, and Norman Rockwell and
by personalities as diverse as boxer Muham-
med Ali, actresses Sophia Loren and Gloria
Swanson and Princess Grace of Monaco have
been used on the covers. A 77-year-old Inuit
artist, Jessie Oonark, of Canada’s Northwest
Territories, created the design used on the UN
habitats first day cover.

Proceeds from the sale of the covers are
used by WFUNA to promote its work – raising
public understanding of the UN – in 80 coun-
tries around the world, including Canada.

In addition to the first day covers, WFUNA
also sells lithographic prints made from the
artist’s original work.

For information on the WFUNA first day
covers and lithographs, write WFUNA, Room
DC 1-1177, United Nations, New York, N.Y.
10017. The United Nations Association in
Canada is headquartered at 808-63 Sparks St.

CORRECTION
In the annual financial statement of the
R.P.S.C., carried in the September-October
edition, wording concerning advertising income
for The Canadian Philatelist was inadvertently
left out from the 1986 financial statement on
Under expense relating to the CP magazine the wording "Receipt from Advertising in the CP should be added to correlate with the values of $12,767.00 for 1986, and $11,033.00 for 1985. The contributions of the advertisers in the CP are most significant to the reduction of the costs of producing and distributing the CP to the members of the RPSC.

FIGHTING BACK
A Mississauga, Ont. collector, tired of flipping back and forth between Scott and Gibbons catalogues, thought he had an answer when he put together his Kwik Sort Stamp Finder in time for the CAPEX 87 show.

Douglas Tracy believed his idea of a small handbook listing stamps by their Scott and Gibbons numbers would save collectors hours of time when they wanted to consult one catalogue or the other. His handbook lists Canadian and U.S. stamps by denomination and their Scott and Gibbons numbers.

The Scott Catalogue people gave Mr. Tracy their permission to use their numbers in his handbook but, despite several attempts, the Gibbons firm was downright unco-operative, according to the author. No permission was ever granted to reproduce the Gibbons numbers.

Mr. Tracy went ahead with the publication of his handbook anyway, giving due credit. The Gibbons firm was not amused and slapped on a cease-and-desist order on sale and distribution of the Kwik Sort handbook.

Although Mr. Tracy argues that the Gibbons numbering system is in the public domain since more than 50 years has passed since the death of its originator and that his handbook would promote rather than damage Gibbons business since any user would still have to consult (and buy) a Gibbons catalogue, the British firm has remained adamant that it will not give its permission to use the Gibbons numbers to anyone for commercial gain or for a competing product.

Mr. Tracy hasn’t given up quite yet.

He’s asking that collectors who feel it is unfair to deny the Gibbons numbering system to collectors who wish to use it to voice their protest to Stanley Gibbons Ltd., 391 The Strand, London England WC2R OLX or to Kwick Sort, 916-50 Miss. Vly., Mississauga, Ont. L5A 3S2.

While we may not necessarily support his methods, we’ve long believed that a handbook of the type produced by Mr. Tracy would be invaluable to collectors who use both the major English language catalogues.

We understand, too the Gibbons reluctance to grant permission to use their numbering system for commercial gains of someone else.

Among catalogues available in Canada for Canadian stamps, there are at least four numbering systems - Scott, Gibbons, Canadian Specialized and Darnell. It was considered a bit of a breakthrough when the new Canada precancel catalogue shifted to Scott numbers, albeit the new publisher of the catalogue also publishes Scott’s Canada Specialized.

Mr. Tracy’s experience suggests that when it comes to the catalogue publishing business, it still is a business first, despite probable advantages to collectors, dealers and the catalogue publishing firms themselves. And it suggests that the sometimes bewildering array of numbering systems for Canadian and other stamps will remain with collectors despite the advantages of a uniform system.

NEW PORTRAIT
Jan. 1, 1988 brings a new round of postal rate increases to Canadians and with them, new definitive stamps.

The first to be issued are a new 37-cent Queen stamp and a new 37-cent Parliament stamp, both issued on Dec. 30, 1987 in anticipation of the new first-class domestic rate which goes up one cent.

The Queen stamp, the first new design with her Majesty’s features in several years, is based on a 1984 photograph taken by famed Canadian photographer Yousef Karsh.

Letters to the Editor

MORE PLEASE, VINNIE

Thank you for giving us Vincent G. Green's magnificent article on, "Some Great Canadian Philatelists of the Past". I wish to refer to page 355 and add my voice to those thousands of members of the society who want to read "Vinnie's" history of the famous Jephcott envelope with the block of 12 and the singe 6 pence on it. Name withheld on request.

ADD A ZERO

I refer to my article, Some Great Canadian Philatelists of the Past, Sept./Oct. issue. Somewhere along the line an error has crept into the text. Lichtenstein bought George Worthington's collection for $500,000, not the much less significant figure given in the article.

EXPO PEN FRIENDS

Australia Post are asking for a worldwide list of Pen Friends for EXPO '88 to be held in Brisbane, Australia. Visitors to EXPO '88 can then select one or more pen friends whom they can contact.

If any R.P.S.C. Chapter members are interested, please assemble a list of names, addresses, age, and two or three interests, (not necessarily stamps).

Since there is insufficient time for the National Office to collect and forward the names and addresses of those interested to Australia Post, we ask that your Chapter collect and forward your list direct to:

EXCHANGES WANTED

Since the Royal Philatelic Society of Canada is the national society of philatelists in Canada, many requests for exchange partners are referred to us. As a service to our members, we are pleased to present these names so that those who wish to do so can make overseas contacts. We have no way of checking the credentials of the individuals who write to us asking that their name be published, therefore we urge that caution be taken when answering these requests.

DEMANDES D’ÉCHANGE

La Royal Philatelic Society ne s’occupe pas normalement des échanges entre philatélistes, mais comme elle est la société philatélique nationale du Canada, on lui transmet de nombreuses demandes de philatélistes désireux de trouver des correspondants pour échanger des timbres. Ainsi a-t-elle décidé, pour rendre service à ses membres, de publier les noms des intéressés d’outre-mer, afin que ceux qui désirent établir des rapports avec eux puissent le faire. Je vous signale toutefois que nous ne savons rien des personnes qui nous demandent de publier leur nom, c’est pourquoi je vous conseille d’être prudent en répondant à ces demandes d’échange.

STAMP COLLECTING MONTH

Stamp Collecting Month has generally always been October. Most countries, including the U.S.A., set aside the month of October to promote stamp collecting. During this month stamp clubs hold exhibitions, make announcements about their meeting dates and invite new members to join the local club. Much is done in Canada to acquaint the public about the pleasure of collecting stamps. However the chief thrust by Canada Post Corporation, the Royal Philatelic Society of Canada and the various R.P.S.C. Chapters across the continent has been to interest juniors in collecting stamps.

Special assistance is given to juniors by setting up programmes in schools, helping out at junior stamp club meetings and showing juniors how to handle and mount stamps, assist them in acquiring stamps, etc. In order to better serve the beginner of junior collector particularly those in organized school clubs, Stamp Collecting Month will be February.

As part of the Royal Philatelic Society of Canada's promotion of stamp collecting for juniors, we have just held a very successful National Philatelic Exhibition for Youth. This was held in Toronto, Nov. 27-29, 1987. As a result of this Exhibition's success, plans are underway to hold an annual Youth Exhibition in Canada every year. A National Exhibition means that the exhibits are of a high quality with the better exhibits being eligible for international competition.

A STAMP FOR PHILATELY

The U.S.A. and most countries of Europe have issued stamps to honour philately and promote an interest in stamp collecting. Canada has never done so. With the growing interest in stamp collecting as an educational tool, a stamp by Canada to mark Stamp Collecting Month would be enthusiastically received by all philatelists. In response to the many letters I received from our members, your Board of Directors has decided to ask Canada Post Corporation to consider designing and issuing such a stamp for 1989 or 1990. If you would like to see such a stamp, we suggest that you add your support to this project by writing a letter to: Canada Post Corporation, Stamp Advisory Committee, Ottawa, Ontario, K1A 0B1. In the Province of Quebec, the Ministry of Culture generously supports the activities of philately particularly where it involves youth. It would please philatelists very much if similar support were received from the other provinces.

THE R.P.S.C. LOGO

Frequently we receive requests to use our Logo for various purposes. In order that there is no misunderstanding we wish to advise that any R.P.S.C. member in good standing is free to use the society logo, and his membership number on address labels, on rubber stamps, on his memo pads and letterheads if he so desires. It is not permitted to use the logo on a stamp company's letterhead nor in its advertising. We do not accept company memberships and therefore, they are not members. We do accept individual memberships from dealers and from members of a stamp company. If a stamp company lists an individual who is a member of the R.P.S.C. in an advertisement or on their letterhead and they wish to indicate that this person is a member of our society they may do so. We suggest that a copy should be sent to our national office for approval.

R.P.S.C. FELLOW ELECTED TO F.I.P. BOARD

Congratulations to Bernard A. (Bud) Hennig of Chicago, a long time member and a Fellow of the R.P.S.C. who was elected a Vice-President of the F.I.P. (Federation Internationals de Philatiele) at the recent F.I.P. Board meeting held in Copenhagen, Denmark in conjunction with Hafnia '87. Mr. Hennig has served philately well. He has been a Director of the American Philatelic Society, a president and director of the Germany Philatelic Society and
was Chairman of the Board for Ameripex '86, the International Philatelic Exhibition held in Chicago in 1986.

ROYAL '87 - OUR 60th ANNUAL CONVENTION

Have you made reservations for the "Royals 60th convention and exhibition, ROYAL '88", to be held in Winnipeg June 16-18, 1988. Indications are that this will be an outstanding event. Don't miss it. The exhibition is the only National Class exhibition scheduled for Canada during the first half of 1988. A large number of outstanding exhibits have already been entered. This will be a great time to see your favourite dealer. He will likely be in the dealer bourse. Make your plans to attend now. See you in Winnipeg at ROYAL '88.

SHORT TAKES

This bust of demure young was presented to the Royal Philatelic Society of Canada at CAPEX '87. It was given by the Federation des Sociétés Philatéliques Françaises in honor of the 100th anniversary of organized collecting in Canada. The national federation of France has over 400 member clubs and its current president is Gabriel Gourin, F.S.P.F., of Paris, France, a former university professor who is a member of F.I.P. board of directors. PROOF NOTES

The new catalogue of duplex handstamps brings to mind a few odd items from the proof books which may be of interest.

The last circular type "A" handstamp was proofed Jan. 23, 1909, for Huntingdon, Que.

The first oval type "B", with some space between the killer and town mark, was proofed for Montreal, Canada, on July 23, 1908. This was probably a test piece since the second handstamp was Nov. 3, 1908 for Carstairs, Alberta.

In later years the number of killer bars were reduced to 9 or 10.

The last B9 was for Banff, Alberta, on Sept. 16, 1929.

The last B11 was for St. George de Beauce, Que., on Sept. 12, 1929.

The first wavy bars was apparently a test hammer for Ottawa, Ont. proofed on Aug. 10, 1929, with 8 bars. Follow a successful test a second hammer was proofed for Lachute, Que. on Sept. 29, 1929, with 10 bars. The typical 7-bar arrangement was decided on Oct. 2, 1929, three were proofed: Canning, N.S., Rosetown, Sask., and Red Willow, Alberta.

NEW POST

Richard Gratton, The Canadian Philatelist’s French-language editor, has recently been elected president of the Quebec philatelic federation, a main stamp-collecting organization in that province.

The new duties haven’t slowed him down though. He’s contributing his final article in his series on stamp papers for use in the March-April edition of The Canadian Philatelist and continues to hunt for French-language articles for the Royal’s francophone members for CP.

A chemist by profession, employed by Rolland Paper, Richard is an expert in stamp papers, printings and forgeries. He has published articles and essays on such things as Nova Scotia stamp forgeries and his expertise was used in exposing alterations to modern Canadian stamps that made them appear like rare missing ink varieties.

Our congratulations to Richard in his new position.

Canada Post Reveals
It's 1988 Stamp Program

Canada's culture, technology, history and wildlife are the dominant themes in Canada Post's 1988 stamp program, starting with an issue commemorating a major sporting event: the 1988 Calgary Winter Olympics. The stamps - depicting curling, alpine skiing, figure skating and luge - will be issued on Friday Feb. 12, the day before the Games begin.

The Exploration of Canada series continues on Thursday, March 17 with the issue of four stamps commemorating Anthony Henday, George Vancouver, Simon Fraser, and John Palliser.

Le Petit Liseur, a painting by Ozius Leduc, will be featured on a stamp Friday May 20, starting off the new Masterpieces in Canadian Art stamp series. The issue is one day in advance of the planned opening of the new National Gallery building in Ottawa.

Coinciding with Environment Week (May 30 - June 5), Canada Post will issue two stamps: Wildlife and Habitat Conservation, on Wednesday June first. The timing of the stamps is also appropriate as 1988 marks the 100th anniversary of the birth of Grey Owl, a famous Canadian conservationist, and the 50th anniversary in Canada of the conservation group, Ducks Unlimited.

The final set of stamps in the Science and Technology series will commemorate the development of kerosene, marquis wheat, the electron microscope, and cobalt cancer therapy. The stamps will be issued on Friday, June 17 in advance of Canada Day to coincide with the opening of the American Topical Association Stamp Show being held in Toronto.

The wildlife theme will continue on Monday, July 4 with the issue of four stamps featuring butterflies native to Canada: the Canadian tiger swallowtail, Macoun's Arctic, northern blue, and short-tailed swallowtail. These will be issued during the International Entomology Congress in Vancouver.

A stamp commemorating the city of St. John's Newfoundland centennial will be issued on Friday, July 22, followed by a stamp on Friday, Aug. 5 celebrating the 75th anniversary of the 4-H Club's arrival in Canada.

The furnace at Les Forges du Saint-Maurice was first fired on Aug. 20, 1738. Now a national historic park, its 250th anniversary will be commemorated with a stamp on Friday August 19.

Four dogs native to Canada, the Canadian Eskimo dog, Newfoundland, Nova Scotia duck tolling retriever, and Tahlton bear dog, will be featured on stamps on Friday Aug. 26, coinciding with the centennial of the Canadian Kennel Club. The date also falls during the World Congress of Kennel Clubs, being held in Toronto, Aug. 27-30.

The 150th anniversary of the playing of baseball in Canada will be commemorated with a stamp on Friday, Sept. 9, followed on Monday, Oct. 3 by a set of low-value definitive stamps showing mammals commonly found in Canada.

The traditional Christmas issue next year will feature religious icons. It will go on sale Thursday Oct. 27.

Stamps featuring important individuals will close out the 1988 program, starting with a stamp Tuesday, Nov. 1 honoring Bishop Charles Inglis. The date coincides with the 200th anniversary of the King's Edgehill School, which he founded in 1788.

The last issue of the year will be a two-stamp set on Friday, Nov. 18 honoring Frances Ann Hopkins, a painter of voyageur scenes, and Angus Walters, captain of the Bluenose.

The ‘Inverted Seaway’ of 1959
by Larry McInnis

This article was published in the Spring 1987 edition of Opus, the annual compendium of studies presented to the Académi québécoise d'études philatéliques.

It was the first English-language article to be published by the Académie.

Since the article’s publication, a few more facts have been learned, such as the inventory of inverts held by the National Postal Museum. The text has, therefore, been modified slightly to reflect this.

This is not intended as a “learned” presentation, but rather something that may arouse the curiosity of some philatelist who can and will devote the time and effort in tracking down the rest of the story of Canada’s only invert error.

For example, a half-pane of stamps, dry-mounted, was stolen at gunpoint in Montreal in 1980. Is the other half of the pane really in the Royal collection? The postal museum came into existence long after the 1959 error to the Royal collection. A thorough search of Resource Group 3 in the National Archives might provide some more information.

I hope you enjoy this tale of Canada’s most famous error.

The ‘Inverted Seaway’ of 1959 is Canada’s best-known error stamp.

The first Canada-United States joint stamp issue was the modest 5-cent Canadian two-color stamp to mark the June 26, 1959 official opening of the St. Lawrence Seaway. A 4-cent stamp with an identical design was issued the same day by the United States.

There were differences, of course, but outside the design.

• The Canadian stamp is perf 12. The U.S. stamp is perf 11.
• The inscription (in red) at the top of the Canadian stamp is St. Lawrence Seaway-Voie
The Seaway invert saga started Aug. 20, 1959 when an office boy for a Winnipeg firm was sent out to buy 30 5-cent stamps. He went to the nearby sub-post office at the T. Eaton department store. On his return to his office, three of the 30 stamps were placed on envelopes and put into the mail immediately.
As more were to be placed on envelopes, a secretary noticed that no matter which way they were handled, part of the stamp design was upside down.

Every office has at least one stamp collector. The collector noticed the error and went to Eaton's to see if more inverts were available. None were.

In the meantime, the secretary had sent off a fourth envelope franked with an invert, leaving a balance of 26.

The stamps were printed in sheets of 200, divided into four panes of 50.

The “Winnipeg find” now accounted for four mailed and 26 saved, for a total of 30. It must be presumed that the other 20 in the pane were sold in singles or small quantities over the Eaton’s counter and went out, the error unnoticed, on regular mail.

On Sept. 11, 1959, a pane of 5 was discovered in postal stock at Winnipeg. H.R. Yorke, director of postal services in Winnipeg, reported it was returned to Ottawa.

This could well be the pane that was broken in two, either in Winnipeg or, more likely, in Ottawa, one half being drymounted for display and the other half reportedly donated to the royal collection.

**PETERBOROUGH PANE**

On Sept. 12, 1959, the Canadian Press newsgathering service reported that a pane of 50 inverts had been discovered at Peterborough, Ont., by a postal clerk, Melvin Deschamps. It was returned to Ottawa.

This full pane remains intact, marked “Peterborough” on the back. It is the pane that was on display in the Court of Honor of CAPEX 87.

That would account for the two panes that came into the possession of the national postal museum, about which you'll hear more later.

K.E. Eastman, Canadian Bank Note's assistant plant superintendent, said in 1959 that a full sheet of 200 stamps would be in error.

So let's now look at one sheet of 200.

Two panes totalling 100 stamps were discovered in Winnipeg. That leaves 100 more. A pane of 50 was discovered in Peterborough and sent to Ottawa. That leaves 50.

**PICTON DISCOVERY**

In early August 1959, the inverts turned up in Picton, Ont., and, in fact, may have been the first discovery.

An invert on a postcard an another on an envelope show a cancellation of Aug. 10, 1959. These are included in calculations below.

It indicated at least a pane at Picton.

It's believed that 25 of the inverts were used on Aug. 10, to send out mail from the local Bank of Nova Scotia.

Of the other 25 in the pane, here's what seems to have happened:

The 'finder’ kept a mint single, gave away a mint single and kept a dated used single.

That's three, leaving 22.

Of the remainder, a mint block of 12, a mint block of 4, a pair and two singles, plus two used — for a total of 22 — were sold for $21,250 by J.N. Sissons Ltd. of Toronto to Bileski.

Let's add up. That's 30 accounted for in Winnipeg and 20 out there somewhere, for a pane of 50. Another pane of 50 was sent to Winnipeg to Ottawa. That makes up half the sheet of 200.

There was a pane in Picton, 25 sent out on bank mail, 22 sold through Sissons to Bileski and three kept by the finder, which accounts for a total pane of 50.

And there was the pane returned from Peterborough. That's a sheet, for a total of 200 errors accounted for.

On Sept. 15, 1959, the head of the Ottawa philatelic bureau, J.R. Carpenter, reported that an Ottawa collector had brought him a block of six of the inverts.

Nothing more is known about this. It should, perhaps, be discounted. Think about it: How many collectors, finding a major error such as an invert, would run to a postal official and turn it in? It's not plausible.

What is curious, too, is PMG Hamilton's Oct. 8 statement that only 300 copies of the invert got out to the public.

Was he considering the two panes of 50 each returned to Ottawa, one from Winnipeg, one from Peterborough, meaning 300 were out there somewhere for the public?

We've only accounted for one sheet so far, including the two panes returned to Ottawa.

It was curious arithmetic, but pure politics.

If, indeed, some naive collector turned in six inverts, there was clear indication of yet another pane, and therefore another sheet.

Personally, I doubt that six were turned in.

The postal museum has two blocks of 4, a strip of 10 (2 strips of 5) and 7 mint singles, for a total of 25, which we'll examine later. In
any case, there is no block of 6.
That should have been the end of the accounting. Hamilton was in error and only one sheet got out, half of which went to the public and half returned to Ottawa.
But it’s not the end of the story.
The 25 stamps held by the postal museum do not make up a single pane; they don’t seem to fit together, according to a museum official.
Following an article I wrote on the Seaway invert in mid-1985, I received a letter from the well-known American philatelic writer, Herman “Pat” Herst, Jr. He had been a dealer for years and played an important role in the “Saga of the Seaway Invert.”

JOLIETTE MYSTERY
Herst wrote to me to ask why no one had ever written about the “Joliette find” of the invert.
Herst was a New York dealer and auctioneer who often came on buying trips to Montreal from the 1930s to the 1960s.
Not long after discovery of the inverts became known, a collector in Joliette wrote to Herst, stating he had received a bill from a local utility company that had an invert on it.
Herst told me he wrote to the utility company to determine if they had any left, or where they got them. He admits that his American English was no match for the utility’s French, and he wrote to the Joliette collector to say so when he got nowhere.
Herst’s story from that time is interesting, but some-what confused by the memory of a person, aged, and ill at the time of writing to me.
Herst told me he met his collector contact in 1961 at North Hatley, during the annual meeting of the British North America Postal Society, which he had just joined.
Herst reported his contact had a vertical strip of 10, which he wouldn’t sell. What he had to sell was 20 envelopes, each with an invert affixed. They had been placed on the utility company’s bills, but had been “liberated” before mailing.
Herst told me he bought the 20 covers for $900 each and offered them for sale at $1,000 each at the BNAPS convention. There were no takers, so he took them back to New York.
Herst figured that since he hadn’t been able to sell the uncancelled stamps on cover, he’d remove them. He told me he used Stampil.
He then advertised them for sale in Stamps Magazine. He took a single ad.

A dealer in New Jersey bought them all at $1,250 each.
As an interesting aside, Herst said that although he had “sweated” the stamps off envelopes, never once has he seen a Seaway invert offered for sale by a dealer or at auction with a comment about no gum or disturbed gum.
Calculations at this stage showed the “Joliette find” with a strip of 10 retained by the finder, the one received on cover, and 20 on envelopes sold to Herst.
That left 19 unaccounted for, using Herst’s calculations.
An article of mine, in the May 19, 1986 edition of Linn’s Stamp News brought a quick response from Jean Lépine, proprietor of La Boutique philatélique, in Joliette.
On June 16, he wrote to tell me that he had read the article, and he could provide the epilogue, at least about the “Joliette find”.
Here is the story.
Rolland Perreault, accounting clerk for Donat Piette Ltee of Joliette, bought a pane of 50 Seaway stamps at Jollett’s main post office to use for mailing his monthly statements to customers,” Lépine said, “two friends came in – Bertrand Vanasse and Henri Lafontaine.”
One, or both, realized something was wrong with the stamps.
On June 16, 1986, Perreault told Lépine the story: Three stamps had already been used on mail that had been posted when the error was discovered, 17 stamps were on window envelopes ready for the mail and 30 were left.
It was Vanasse who sold the stamps on cover to Herst in North Hatley, at $900 each. Herst was out by three in his recollection when he said he had bought 20.
It’s interesting that Herst bought 17 inverts attached to envelopes at $900 each, which he couldn’t sell in Canada, yet managed to sell them in one lot at $1,250 each with one ad.
The others involved in the Joliette find were not such astute businessmen.
Perreault sold his 10 stamps in New York at $880 each, U.S. funds ($912 Canadian).
Lafontaine literally gave away his 20 stamps to Bileski at a mere $525 (Canadian) each.
That accounts for the full pane of 50.
One of them, obviously not Lafontaine, wrote to Bileski on June 13, 1961, “I read in your advertisement of Mekeel’s, June 2 (1961) that you bought almost 90 per cent of all the inverted
Seaway stamps. Did you ever know that a sheet is supposed to have been found here in Joliette? I think that most of it has not been put into the market. I never saw that sheet mentioned anywhere."

Whoever wrote the letter complained to Herst that he never received a reply.

Now we know why. Bileski bought nearly half the Joliette find at half the price the others were getting.

So, it's time to recap again.

Canadian Bank Note's assistant plant superintendent, K.E. Eastman, knew errors would affect full sheets of 200.

We've accounted for 200, in Winnipeg, Picton and Peterborough.

Now we know of 50 in Joliette.

And what of the 17 stamps sweated from envelopes by Herst? He told me, "There is little doubt in my mind that the ones I got off cover were regummed and sold as mint, for I have never seen any offered with tampered gum."

So what of the 100 we've been told were returned to Ottawa, 50 from Winnipeg and 50 from Peterborough?

The Peterborough pane plus the odd lots (except for a single on display at the Laurier Ave. postal museum) are stored in a museum vault.

And that adds a new dimension. It has generally been assumed that two full panes were in Ottawa's possession, one from Winnipeg and one from Peterborough.

Since we know the Peterborough pane is intact, why not assume that the Winnipeg pane was broken into two, as I've already suggested, half for the Royal collection and half for display?

So what about the odd-lot 25 the museum holds?

IN ADDITION

The museum's Roger Baird told me he does not believe they were obtained at auction or through any purchase, so should be considered as an addition to the numbers already known.

The dry-mounted half-pane was put on display at Le Salon de la philatélie, a show sponsored by La Fédération Québécoise de Philatélie, held at complexe Desjardins Jan. 23 to 26, 1980, a Wednesday to Saturday schedule.

Early Saturday morning, Jan. 26, the half-pane was stolen by armed robbers.

Official reports, confirmed by postal officials, indicted that two men wearing ski masks to cover their identity, one of them armed with
a shotgun, approached the exhibit about 1 a.m. Jan. 16.

There had been much publicity about the display, setting the value of the half-pane at $500,000, which was not at all unrealistic at the time. It was the grand era of philatelic investment. During the day, there was one security guard for the exhibit. After hours, there were two guards. Neither was armed.

The postal official who was involved in the 1980 show recently recalled the event.

He said the unarmed security people were quickly intimidated by the armed robbers. One produced a screwdriver and attempted to dismantle the frame where the half-pane was displayed. The screwdriver proved to be too little for such a job.

He then produced a hammer from a jacket pocket and proceeded to break the glass of the frame.

The exhibit was then removed and the pair escaped.

The escape was interesting, according to my informant. By the time the robbery was complete, not only the special guards, but other guards had assembled. For every advance they made, they were confronted with the masked bandit and his shotgun.

The robbery was a complete success.

Was it ordered by a collector who could afford to hire professionals, much like stealing a famous painting? Does the collector look at it today and gloat, as Midas did with his gold?

One postal official told me he thought the robbery might have taken place after the publicity surrounding the highly-valued Seaway inverts, probably by "some kids who thought they could sell it quickly."

I don't subscribe to that theory. The invert pane might have been the most valuable item on display, but it would be the hardest to sell.

NEARLY WORTHLESS

The half-pane was mounted on some material that would make a true philatelist cry. It was, in effect, stuck to a surface that made it a permanent museum display and worthless for the philatelic market.

"Even Pat Herst couldn't do anything with this block," was the way one museum official put it.

There is no doubt there were two sheets of the Seaway invert, 400 stamps. The "Joliette find" proves there was more than one sheet of 200, not to mention the 25 museum stamps.

Now for the final counting: 100 to Ottawa in panes; 25 that got there somehow from somewhere; 50 in the "Winnipeg find"; 50 in the "Picton find"; 50 in the "Joliette find" for a total of 275 of two sheets totalling 400.

Where are the other 125?

There are more than those missing, of course. Of the "Winnipeg find" some 20 are unaccounted for. Of the "Picton find" there are the 25 believed sent through the mail by the bank. Since the "Joliette find" went unreported until 1985, are there others we haven't heard of yet?

MOST INTRIGUING

It's Canada's most intriguing stamp. It's not the most valuable, but it's the most intriguing.

In the best of times, at the top of the speculation boom of the late 1970s and early 1980s, a copy of the invert would easily fetch $14,000 or more.

It's different today.

But how about this?

An invert on cover, describer in the Kaufmann catalogue as having its estimated value based as a used copy off cover, brought $11,550.

I found this interesting because such a prestigious auction firm had chosen to ignore the fact the stamp was on cover and instead valued it as just a used copy. The high price realized was, no doubt, because it was on cover.

At the Feb. 14-17, 1961 auction of Harmer, Rooke & Co., auctioneer Ezra Cole (now a high-class dealer and agent in his own right), got $2,800 for a "superb, on cover, lightly cancelled copy" of the invert.

This was near the time Herst was paying $900 on cover, uncancelled. He couldn't get $1,000 on cover and so sold them at $1,250 as singles.

He should have left them on covers and had his Joliette contact have them cancelled there.

It is surprising that no Canadian specialist has done a study on the Seaway invert. Awards are given at shows to those who exhibit a replating of the one-penny rose of Britain in 1858, but on one has been able to track down the missing, or unaccounted for, 125 Seaway invert stamps.
From the Chicago collection formed by the late Dr. Clarence Hennan, to be offered in March 1988.

Those old Stamp Journals Can be Entertaining to Read

by Allen Sterinhart

A lot of fun can be had from reading old copies of philatelic magazines, here are some excerpts from a few:

Some excerpts from his own advertisements:

"Packet #6 - contains 50 varieties of choice Canadian stamps, including issues of 1851, 1859, 1868 to date, nearly all varieties; Registration 2¢, 5¢ and 8 cent; a choice line of Provincial stamps, including Nova Scotia cent and pence issues on and off original envelope; Prince Edward Island, a fine lot of cent and pence issues; New Brunswick 1, 2, 5 and 17 cent, and many other fine stamps — $5.00 sent postpaid by registered mail."

Staebler, in an advertisement for wholesale stamps:

Canada
1859 - 10¢ $1.60 per 10, $15.00 per 100
- 12½¢ 1.60 per 10, $15.00 per 100
1868 - 1¢ brown red 1.15 per 10, $11.00 per 100
- 6¢ brown .50 per 10, $4.50 per 100
- 5¢ & 6¢ small queen assorted .07 per 10
- .50 per 100
- ½¢ small queen .05 per 10, .45 per 100
- 2¢ Registration .05 per 10, .45 per 100
- 5¢ Registration .05 per 10, .45 per 100
- 2¢ Carmine Registration .10 per 10, .65 per 100
- 1¢ 1859 issue .25 per 10, 2.45 per 100
- 5¢ 1859 issue .16 per 10, 1.50 per 100
- 3d wove 1.60 per 10, 15.00 per 100

The 5-cent 1859 Beaver was also available at $16.00 per 1,000 or $75.00 per 5,000 and 1-cent 1859 at $25.00 per 1,000. The 5-cent green registered was advertised at $3.50 per 1,000, $15.00 per 5,000 and $275 for 100,000 copies. The New Brunswick 5-cent green was $20 per 1,000 and $98 per 5,000; the 2-cent orange $40 per 1,000 and $190 per 5,000. Unused New Brunswick 1, 2, 5, 10 and 17 cent were $3.25 per 10 sets.

In the same issue, under the exchange department, a collector offered a fine Nova Scotia 1d to sell for $3 and a 10-cent New Brunswick cut in two and used for a 5-cent, on original envelope at $7 or exchange for a 7½d green Canada.

W.J. Beatty of the Post Office Department in Ottawa desired to exchange a 10-cent mint Nesbitt entire for a 7½d issue.

R.F. McRae of Montreal offered a large lot of specials such as: 1857 ½d used $1.30; 1858 ½d used perforated $4; 1851 3d wove pair used .50; 1851 6d laid paper used $4; 1855 10d blue used $4; 1869 3c red laid paper used $1.60; 1868 2c watermarked $2.75; 1875 3c Registered unused .90; New Brunswick 3d used on envelope $2.50, Connell proof $4; 1857 ½d unused $3; 1851 3d laid paper used .65; 1851 3d ribbed paper used $1; 1857 7½d used $7; 1868 1c red brown laid paper $12; 1868 1c red brown watermarked $1.75; 1868 3c watermarked $1.50; one-half of 10c on envelope $8; 3d on envelope $1; one half of 6d used as 3d on envelope $8.

A copy of Clark's Second Auction Sale in Belleville, Ont., dated April 12, 1892, lists a number of interesting items:

Lot#1 - 1851 3d laid paper pair on original cover, reserve $1.50

#7 - 1852 3d ribbed paper on entire cover, reserve $1.50

#14 - 1857 ½d on entire cover, reserve $2.50
#23 - 1859 1¢ pink, 50 on original covers, reserve $2.50
#33 - 1870 1¢ red brown laid paper, reserve $13.00
#26 - 1859 10¢, three shades, one almost black, reserve $1.00
#37 - 1875 8¢ registered, unused, reserve .60
#222 - Nfld. 1855 5d brown, used on cover, cut close, heavily cancelled, reserve $1.00
#224 - Nfld. 1863 8d block of 12 unused watermarked, reserve .15
#229 - Nfld. 1876 2¢ green roulette strip of 3, unused with imprint, reserve $1.25
#233 - N.S. 1d red brown pair on original envelope, good margins, reserve $9.00
#234 - N.S. 3d, three shades on three envelopes, reserve $4.00
#238 - N.S. 3d strip of three unused & part gum, reserve $6.00
#263 - Canada 1888 10¢ carmine red, 100 copies, reserve $1.00
#265 - Canada 5¢ Registration stamps, 500, reserve $2.00
#297 - 1877 15¢ slotted block of 25, reserve $1.00
#299 - 1877 15¢ slate block of 12, reserve .45

In Vol. II, No. 11 of The Canadian Philatelist, L.M. Staebler advertised "Nova Scotia, Provincial 7½d (6d and ½ of 3d) on original envelope, fine cancellation, a very fine copy of this rare provincial at $16.50."

Also advertised was a Barnard's Cariboo Express "Collect and Canada 12½¢ 1859 unsevered pair used on original envelope" at $12.50 and a Prince Edward Island 2d rose on cover, perf 9, at $1.75 and also a 3d perf 9 at $1.75.

The 25-cent rate cover to British Columbia with Barnards Express Collect label is unknown today but would be a absolutely fabulous cover in any 1859 collection or British Columbia collection.

In the February 1893 Canadian Philatelist, Vol. II No. 6, published by Staebler, it was noted under the auction department that C.H. Holden in his January sale at Muskegon, Mich. on Jan. 25, 1893 sold a pair of new Brunswick shillings for $85 US. Albrecht and Company's 10th sale on Jan. 25, 1893 had a British Columbia 1¢ green unused, perf 12½, which sold for $12.40 US. Scott's Stamp and Coin company reported that a New Brunswick one shilling, used and fine, sold for $40.50, a Newfoundland one shilling scarlet at $48, a Nova Scotia one shilling violet unused at $37.50 and a Newfoundland 6½ pence scarlet vermilion on original letter went for $27.50 at their Jan. 26, 1893 auction.

In the same edition, Staebler advertised "Wanted to purchase at once 100,000 5-cent Registration Stamps of Canada at $1.75 per 1,000 cash."

T.S. Clark, in his fourth public auction at Belleville on Jan. 27, 1893, had some interesting lots for sale. The prices listed are the reserves.

#62 - 3d laid paper, pen cancelled, very fine, .60
#64 - 3d laid paper, pair, pen cancelled, cut close one side, $1.00
#74 - 6d laid paper on cover, good margins, $3.35
#75 - 6d laid paper on cover, good margins, lighter cancel, $3.25
#83 - 6d wove on cover, 1858, purplish shade, large margins, $3.25
#86 - 6d purple, thick spongy wove paper on half of cover, 1858, cut close at bottom, $4.00
#88 - 6d purple, thick spongy wove paper on cover 1858, good margins, $5.00
#99 - 3d perforated on cover, very good, $1.25
#105 - 2¢ 1868 watermarked pair, very fine, $5.00
#108 - 15¢ lilac 1868, watermarked, good, $6.00
#114 - 1888, 10¢ pink on ribbed paper 2 copies, good and fine, $2.00
#117 - proofs on thin paper, 3d black and red, 6d orange, 7½d orange and green, 10d blue (6 pieces), $3.00
#592 - 1869 1¢ yellow large 25 copies, $1.25
#593 - 1870 1¢ yellow small 5,000 copies, $2.50
#594 - 3¢ small queens, 10,000 copies, $3.00

Clark also had some unusual items in his first sale on Dec. 25, 1891 which was held at the St. Lawrence Hall in Montreal.

#47f - 3d hard ribbed paper, strip of three, lovely condition, $3.50
#47h - 3d wove paper, very fine and brilliant, .40
#48 - 6d wove block of four, unused, original gum, $32.00
#58 - 6d perforated, well-centred, light cancel, $20.00
#205 - New Brunswick 6d yellow cut diagonally and used as 3d on entire cover, $3.00
#205 - N.B. 6d on entire cover, good margins, $6.00
#209 - N.B. 5¢ brown Connell original, unused, stained slightly by acid on upper left hand corner and on right side but nevertheless a very fine stamp. $85.00
unpriced Connell stamp was now listed at $100. In P.E.I., the different sizes of perforations were now catalogued as were the compound perfs of 1865.

In the June 1893 issue of Staebler's *The Canadian Philatelist*, a list of "new post office rules" was included, such as:
- "Persons are earnestly requested not to send postal cards with money orders enclosed..."
- "Nitro-glycerine must be forwarded at the risk of the sender..."
- "When letters are received bearing no directions, their persons for whom they are intended will please signify the fact to the postmaster..."
- "As all postmasters are expert linguists, the address may be written in Chinese or Cree..."
- "Ducks cannot be sent through the mail when alive. The quacking would disturb the slumber of the clerks on the postal cars..."
- "The placing of stamps upside down on letters is prohibited. Several postmasters have recently been injured while trying to stand on their heads to cancel such stamps..."

Much of interest can be gleaned from older journals.

It is said the Helio Courvoisier S.A., of La Chaux-de-fonds, Switzerland, prints stamps for more countries than any other company in the world.

Mr. André Tripet who was a Counsellor with the Swiss Embassy in Ottawa in the late 1940’s and during the 1950’s and later Courvoisier’s Director of Marketing would have dearly loved to have his famous company produce a stamp for Canada.

Perhaps the closest Courvoisier ever came to designing and printing a stamp for Canada was in 1976. The Olympiad for Physically Disabled was held in Toronto that year. Among other, Courvoisier was asked to design and submit quotations for a stamp for Canada. They produced eight designs. We are please to be able to reproduce these eight design essays in our journal for the interest of our members. Whether Courvoisier’s price was too high or whether Canada Post was too concerned with adverse criticism if they placed an order outside Canada, we do not know.

The stamp for the Handicapped Olympics showing an archer in a wheelchair was issued on Aug. 3, 1976. The designer was Tom Bjarnason, an internationally known illustrator from Toronto, Ont. He produced a multimixed media painting for use in the design. The Canadian Banknote Company, Ottawa, Ont., printed 12,400,000 of these stamps by five colour lithography.
The design by Tom Bjarnason of Toronto, Ont. that was eventually chosen by the Canadian post office to commemorate the 1976 Disabled Olympiad.

Crash Covers

by Major R.K. Malott, Rtd.

The development of air mail services in Canada, as in the U.S.A. and other parts of the world, has been marred by aircraft crashes of various types in which crew and/or passengers have been killed and the mail destroyed or delayed. The Canada Post Office has made a conscientious effort to get the salvaged mail to the addressee. The collection of these interrupted or crash covers makes an interesting addition to the collection of Canadian air mail flight covers.

There is a listing of known crash covers from aircraft crashes relating to Canada in the American Air Mail catalogue, volume I, Fifth Edition, 1974. There is also a list of Canadian crashes from which no known crash covers have been reported. In addition I am adding covers from aircraft crashes in Canada and Newfoundland that exist but have not been listed. Any readers that have crash covers from any of these three lists are invited to contact me, Major R.K. Malott (Retired), 16 Harwick Cres., Nepean, Ont. Canada, K2H 6R1 to compile an inventory count of these items.

Guthrie as well as the balance of the crew and all passengers were killed. A Harvard Aircraft flown by a student pilot collided with the four-engine North Star at 2,000 feet altitude, causing it to crash in flames. Canadian officials state that a half ton of mail was aboard. Many pieces of recovered mail show much damage and were endorsed “SALVAGED FROM T.C.A. WRECK”, or “DELAYED OR DAMAGED, M.JAW. PLANE WRECK”, applied in several different colours. The quantity of bags of mail by destination was: Calgary (29), Edmonton (28), Lethbridge (3), Vancouver (44), and Victoria (10).

1956
14. 56.4 December 9. VANCOUVER, B.C. - Trans-Canada Air Lines. 6:00 p.m. Capt. Allen J. Clark, pilot, and all crew and passengers lost. Reported as the worst Canadian air line disaster in history. The 4 engined North Star left Vancouver, B.C. at 6:00 p.m. and the last radio contact with the pilot was at 7:09 p.m., reporting that the port engine was afire. On May 13, 1957, airline spokesman reported that pieces of wreckage had been found on the 8,200 foot Mount Sleese, 70 miles east of Vancouver. Under date of June 18, 1957, the District Director of Post Service at Vancouver reported that “only a few letters have been salvaged” and these were forwarded wherever possible after having been endorsed “Salvaged from Plane Wreck”.

1959
15. 59.2 February 23. BADDECK, N.S. CANADA - First flight of “Silver Dart” replica plane from Baddeck N.S. Shortly after take-off the plane, piloted by W/C Paul Hartman, crash-landed. Plane carried about 300 pieces of mail, mostly from high Canadian officials. Letters were franked with the new 5¢ Canadian Stamp, issued the same day, and had a printed and a hand-stamped cachet. Mail was undamaged.

1970
16. July 5. TORONTO, ONTARIO, Air Canada DC-8 Jetliner Flight 621. The Air Canada DC-8 jetliner flight 621 crashed at the Toronto International Airport after an abortive attempt to land. The Captain, Peter Hamilton and the Co-pilot, First Officer Donald Rowland, were killed as well as 107 other passengers and crew. There were 1,100 pounds of mail aboard the aircraft composed of 43 bags of first and third class mail and 126 registered letters. About 600 pounds of mail were salvaged and 650 pounds lost. All salvaged mail received a black cachet in one of two sizes “SALVAGED FROM/AIR CRASH JULY 5”.

C. Canadian Crash Covers Known From Interrupted Flights or From Crashes Not Listed

Several pioneer and semi-official flights in Canada, including Newfoundland, ended in crashes or forced landings, thus delaying or preventing the delivery of mail. Many of the Newfoundland flights are the pioneer attempts to cross the Atlantic, non-stop. The inclusion
of these additional covers, or data about the flights, adds considerable interest and depth to the crash cover collection.

The following covers are listed numerically by date of the delay of the mail:

1919

1. 1919, May 18 - First Trans-Atlantic Air Mail Attempt. Harry Hawker and Maj. K. MacKenzie Grieve, in a Sopwith biplane, took off from St. John's, Newfoundland, on a flight to Ireland. After flying about 1100 miles they were forced down in the sea near the Danish tramp steamer "Mary" whose crew rescued them. Postmaster J.A. Robinson of St. John's overprinted 200 copies of the 3c brown "Caribou" issue of Newfoundland with the inscription "First Trans-Atlantic Airpost, June 1919". These were initialed by him in manuscript on the back "J.A.R." 95 copies were used for postage. The bag of mail was immersed with the plane and some of the stamps were washed off the covers, but usually replaced.

2. 1919, May 18 - Second Trans-Atlantic Airplane Attempt. Capts. Raynham and Morgan in a Martinsyde plane attempted a flight later the same day, but crashed on take off. About 20 covers were aboard, which bear the 3c Caribou issue. These covers exist with manuscript overprint by Postmaster Robinson "Aerial Mail, J.A.E."

3. 1919, June 14 - Trans-Atlantic Flight, Newfoundland to Ireland. Capt. John Alcock and Lieut. Arthur Whitten Brown were the first to make a flight across the Atlantic, thereby winning the "Daily Mail" prize of 10,000. They flew a converted Vickers-Vimy bomber to Clifden, Ireland, a distance of 1,960 miles in 16 hours - 12 minutes. The Newfoundland government over-printed the 15c scarlet, regular issue, with a surcharge reading "Trans-Atlantic Air Post, 1919 One Dollar". Covers bear Airpost stamps and are cancelled St. John's June 10-13, and some are backstamped at London, England, June 17.

4. 1919, July 4 - Flight to the United States by Handley Page Bomber. The Handley Page crew abandoned the idea of a trans-Atlantic attempt when news of Alcock and Brown's success was received. Three pounds of mail for the expected trans-Atlantic attempt had been allotted to the plane in June and on July 3 a small supplementary mail was put aboard at Harbour Grace; some letters bear the $1 "Alcock stamp", sometimes uncancelled. The plane left on July 4 but crashed at Parrsboro, Nova Scotia. After repairs, Admiral Mark Kerr and Major Brackley continued the flight to the United States, leaving Parrsboro, October 9. The original Handley Page mail is postmarked St. John's, June 9, 5 p.m. and Harbour Grace, June 14, 1919.

5. 1919, July 12 - Attempted Trans-Atlantic Flight, Newfoundland to England. After the unfortunate crash on May 18th, the "Martinsyde" was rebuilt and on July 12th another Trans Atlantic attempt was made, but the plane again crashed and the flight finally was abandoned. 85 covers were aboard of which 25 were added for this second flight. The additional covers bear $1 "Alcock" stamps and are cancelled St. John's, Newfoundland, July 12, 1919 and backstamped January 7, 1920.

6. 1919 August 7-11 - Vancouver-Calgary and Return, Capt. Ernest C. Hoy flew a Curtiss JN-4 from Vancouver to Calgary with stops at Vernon, Grand Forks, Cranbrook, and Lethbridge. Mail and newspapers were delivered at each point. Mail for the return trip was picked up at Lethbridge. This was the first flight over the Rocky Mountains. Cachet reads "FIRST B.C. - Alberta Aerial Post." He arrived in Calgary the evening of the 7th. The return flight was to be by way of Banff, Field, Golden, Revelstoke, and Vernon, to Vancouver. A very few letters for the return flight were marked "By First Aerial Mail", and a few newspapers also carried. Bad weather delayed the flight until August 11th. Shortly after noon, Hoy landed at Golden, B.C. where 3 letters and a few newspapers were put on board. The plane crashed on take-off but Hoy escaped injury. He completed the trip to Vancouver by train where the letters were backstamped on August 13th. Almost all the mail was of an official nature and very little has survived.

- August 7, Vancouver-Calgary (45 covers, papers)
- August 7, Vancouver-Vernon (4 covers, papers)
- August 7, Vancouver-Grand Forks (2-6 covers, papers)
- August 7, Vancouver-Cranbrook (at least 1 cover, paper)
- August 7, Vancouver-Lethbridge (2 covers, papers)
- August 7, Lethbridge-Vancouver (2 covers, papers)
- August 11, Calgary-Golden (3 covers, papers)
- August 11, Calgary-Vernon* (1 cover, paper)
- August 11, Calgary-Vancouver* (4 covers, papers)
- August 11, Golden-Vancouver* (3 covers, papers)

My dearest Anson:

Your Nov. 18th letter came in yesterday, just Ten days enroute, an Air Mail. So sorree that my Airgraph was such a long time getting to you, well of course I never did like the bally things anyway, only reason I used it was because I did not have another form.

Of course you won't think me Nuts if again I mention the fact that you have not received any of my Sept parcels, which is strange to say the least. Have you an explanation about it. Wonder if that is your punishment for telling me in one of your letters 'Not to send so many parcels', could be! If by chance you should ever receive them, hope you shan't neglect to mention the fact somewhere along the line.

In your yesterday's letter you appeared to be in a whole thing, of course I mean you cannot give up hope of your getting your old activities???? Your Father in law must have a really nut feature

This salvaged letter and envelope dated 29 November 1944 to a Canadian airman overseas has the familiar two-line crash cachet applied to the envelope, “Salvaged From/Air Crash.”
A crash cover, addressed to Lancaster, New Brunswick, from the British Overseas Airways Comet crash near Calcutta, India on 2 May 1953. The envelope bears the three-line blue cachet of explanation.

7. 1919, October 9 - Parrsboro, N.S. - Greenport, N.Y. On July 4th, 1919 the Handley Page Bomber "The Atlantic" en route from Newfoundland made a forced landing at Parrsboro, and was badly damaged. The mail was forwarded from Parrsboro. The plane was repaired and on October 9th took off for Greenport, Long Island. A small amount of mail was taken on at Parrsboro, postmarked Parrsboro Oct. 9, with a new two line black cachet "Handley Page Aerial Mail from Parrsboro N.S.". The special mail was mailed the next day at Greenport and received the cancellation of Greenport, Long Island, New York.

1921

8. 1921 March 24-April 26 - Peace River-Ft. Vermillion-Hay River-Ft. Providence-Ft. Simpson and return. The Imperial Oil Co. wanted to reach its Discovery well on Bear Island north of Ft. Norman for purposes of supply, further mapping and exploration of the Northwest Territory. Two Junkers planes "Rene" and "Vic" were piloted by Elmer G. Fullerton and George W. Gorman. The flights met with mishap at Ft. Simpson and the "Vic" was flown back to Peace River while the "Rene" was left behind for repairs. It is questionable if any mail survived.

April 8, 1954.

Dear Sir or Madam:

The enclosed item of mail addressed to you was salvaged from T.C.A. Plane which crashed at Moose Jaw, Sask., on the 8th April, 1954.

In sending this item on to you, the Post Office Department expresses sincere regret for the unfortunate occurrence resulting in the damage and delay to this mail.

Yours very truly,

R.J. Goodman
A/District Director of Postal Service.

on a raft for the last 50 miles to the oil site at Bear Island. The pontoon was repaired. The “Vic” returned to Ft. Simpson on August 6, and finally on August 21st, both the “Vic” and the “Rene” returned to Peace River. The success of these flights, despite the great difficulties, was to have a great influence on the development of the Far North. No mail is believed to exist.

10. 1921, December 10 - Attempted Flight, Botwood, Halifax. A number of the pioneer air mail flights of Canada and Newfoundland never made their destination due to interrupted flights caused by storms or mechanical failure. One such Newfoundland flight was that scheduled between Botwood, Newfoundland and Halifax, Nova Scotia. A special stamp was over-printed and mail was accepted at St. John's, Newfoundland and cancelled up to 26 November 1921. The flight in the de Havilland 9 aircraft No. G-EADP of Major F. Sidney Cotton attempted to leave Botwood on 30 November but defective floats and then a severe ice storm delayed departure until 10 December 1921. Engine trouble at Deer Lake, 95 miles from

This Moose Jaw crash cover mailed from Windsor, Ontario on 7 April 1954 bears the smaller crash cachet in red, "Salvaged From/T.C.A. Wreck" which occurred at Moose Jaw, Saskatchewan on 8 April 1954.

A Christmas card from Bangkok, Thailand to Toronto, Ontario was salvaged from the BOAC crash at Prestwick, Scotland on 25 December 1954. It received the boxed, three-line purple cachet, "Salvaged Mail/Aircraft Crash/Prestwick 25-12-54"."
Botwood and then later a crash at Cassandra, near Grand Falls, finished the attempted flight. The mail was sent on by surface and eventually arrived at Halifax on 4 February 1922. There were no crash cachets but the various postal data cancellations substantiate the long time for delivery. Fortunately the pilot who took over the flight from Major Cotton, Captain V. Sydney Benett, was not injured in the crash.

1922

10a. 1922, January ? - Mail cacheted "First Airmail Halifax to St. John, January 1922" reported to have been on crashed aircraft. No further data available.

11. 1922, February 25-26 - St. John’s-Botwood. On February 25, Cotton started on a flight to Botwood but was forced down at Caronear. It is possible that some mail was taken on there for St. John’s although none has been reported. On the following day, having returned to St. John’s, Cotton completed the attempt of February 25, carrying mail for Fogo, Botwood, Twillingate and St. Anthony. One cover with violet “per AREIAL MAIL”, and postmarked at St. John’s on February 23, 7 p.m. is known to exist. It was backstamped at Botwood on February 26.

12. 1922, June 22 - Lethbridge-Ottawa, Pilot Lieut. “Jock” Palmer and Lt. Hugh H. Fitzsimmons flew the mail which comprised 993 covers, of which only slightly over 150 exist today. As the plane was landing at Minot, No. Dakota, a woman drove a car in front of the machine. In trying to avoid a collision, the plane was badly damaged and could not continue. Letters were forwarded by train. Covers bear Post Office slogan reading “Register all letters of value”. Most covers were cancelled 3:30 p.m. June 21. Special envelopes were sold at $1.00 each. Three different types of envelopes are known: Type 1; “Greetings via the First Canadian Air Mail Plane from Lethbridge, Alta. The Little City with the Big Future”. Type 2; Similar to above with “Southern Alberta, the Land of Irrigation and Sunshine, Greets You”. Type 3; Similar to Type 1 with “From the Crow’s Nest Pass” added. This is on a yellow envelope, Covers were not backstamped.

13. 1927, May 23 - Commander Francesco DePinedo. In an attempted flight from Newfoundland to Rome in his seaplane, an SS5 Flying Boat - “Santa Maria II”, the plane developed engine trouble near the Azores and was forced down at sea, rescued and towed to shore. He later resumed his flight and reached Rome on June 16, 1927. The Newfoundland government issued a special stamp for this flight, overprinting the 60c black “Cabot issue” with a surcharge “Air Mail, DePinedo, 1927”. 225 surcharged stamps were used for mail and
This envelope was flown on the replica Silver Dart at Baddeck, Nova Scotia on the 50th anniversary of flight 23 February 1959. The replica crashed on landing but no crash cachet was applied as these envelopes were souvenir mail only.

25 covers were mailed with unsurcharged stamp. Covers were cancelled at St. John's with circular obliterator ST. JOHN'S N'FLD MAY 20 10-AM 1927. The mail also received an additional local postmark when arriving at TREPASSEY MY 21 27 NEWF'D. The covers are backstamped Rome June 22, 1927, but some are dated June 16, and other with both dates.

14. 1927, August 29 - 1927-London, Ontario-London, England Sponsored by the Carling Brewery of London, Ontario, offering a $25,000 prize for any Canadian or British pilot who could make a non-stop flight from London, Ontario to London, England. Carling bought a Stinson Monoplane and selected Capt. Terrance B. Tully as pilot and Lt. James Victor Medcalf as navigator to make the attempt in the "Sir John Carling". A special stamp was authorized and printed and about 90 covers were prepared and postmarked at 4:00 a.m. August 29th. The plane took off around 6:00 a.m., but ran into very bad fog at Kingston, Ontario. It was forced to return to London. The rules were revised and it was decided to land at Harbour Grace, Nfld., to refuel before making the long hop to England. When the mail for the flight was postmarked again and taken to the plane, one cover was either left out or removed. The plane took off on Sept. 1, and got as far as Caribou, Maine where it was forced down. On Sept. 5, Tully and Medcalf succeeded in reaching Harbour Grace. Early Sept. 7, they took off for England and were never seen again. Despite a lengthy search, no trace of the plane was ever found. All mail on board was lost. The cover removed from the bag bore stamp No. S-35.

Aboard the Air Canada DC-8 aircraft that crashed at the Toronto International Airport was a package of wedding invitations destined for Winnipeg, Manitoba. The package eventually received by the worried bride-to-be was marked “Damaged Flt. 189 Crash 26/78.”

A.D. Cruickshank, due to extreme weather conditions, the plane a Ryan Monoplane, a sister ship of Lindberg’s, was forced down, when found the mail was taken to its intended destination by dog teams arriving Mayo, Dec. 4, Wernecke, Dec. 5, Keno Hill, Dec. 6 and Dawson, Dec. 8. The plane was subsequently repaired and took off again weeks later.

16. British Columbia Airways, Limited operated between July 23 and August 25, 1928 only. It lost its plane and crew on the latter date. 1928, July 23 – Experimental Service, Victoria-Vancouver and Return. An experimental flight was made on the above date. As the company’s semi-official stamps were not ready, covers bear only regular postage, either 2c or 7c. They have a three line cachet in black reading “First Flight-Air Mail-Victoria-Vancouver, B.C.”

Pilot was Harold Walker.

Victoria-Vancouver ... (396 pieces)
No mail was salvaged from the crash of 25 August, 1928 but an envelope from the first flight of the company pays tribute to the lost crew and passengers.

1929
17. Yukon Airways and Exploration, Limited 1929, April 2-5 – Dawson-Mayo-Aklavik. The “Queen of The Yukon” A Ryan Monoplane crashed & was wrecked at Mayo on April 5, thus bringing this attempted flight to Aklavik to an end. A very small mail was aboard.

1930
18. 1930, August, 3 – Harbour Grace J.H. Mears and H.J. Brown in their Lockheed-Vega monoplane attempted to fly around the world to break the Graf Zeppelin’s 21-day record. Plane crashed, after take off in dark, at Harbour Grace, without serious injury to the aviators. Official mail prepared at Harbour Grace used the 5c Caribou stamp postmarked August 3.
miles the "Columbia" was forced down to the beach at Tresco Island, 25 miles from Lands End, England. Taking off from Tresco Island the "Columbia" continued to Croydon Airport. Covers are backstamped London, October 13, 1930. The Newfoundland government overprinted 300 copies of the 36c "Caribou Issue" with overprint "Trans-Atlantic Air Mail. By B.M. "Columbia", September 1930, Fifty Cents." Some letters were carried bearing regular postage stamps. Some letters bearing Canadian postage and cancelled at Montreal on September 12, were also carried.

1931
20. Western Canada Airways Crash at Bagot, Manitoba 20 February, 1931 Air Mail.
A Western Canada Airways Fokker Aircraft F-14, Registration G-CAIE, piloted by Norman G. Forester, crashed at Bagot, Manitoba. The pilot survived the crash but his two passengers, Dr. Allyn and Mr. George Lewis, were killed. The aircraft was a mail plane and some of the envelopes were salvaged.
The Canadian Report on Civil Aviation for 1931 lists three accidents in scheduled air mail route flying, one of which was the above accident of Forester's.
The report states that this accident involved slight injury to the pilot and the death of two passengers through misadventure caused by unforeseen and suddenly changing weather conditions. During 1931 there were 10 pilots, 16 passengers, and 1 third party on the ground killed in aviation accidents in Canada.

1944
21. The war-time delivery of mail to the servicemen of the Canadian Armed Forces was on occasion interrupted by air crashes. Mail was salvaged from an air crash in March 1944. A two line cachet "Salvaged From/Air Crash" in purple appears on the front of each letter.
The war-time delivery of mail to Canadian military personnel overseas was unfortunately interrupted by tragic air crashes. Armed Forces Air Letters to Canadian personnel overseas, mailed from Canada in July 1944 were in a crash sometime prior to 10 August 1944. Salvaged from an air crash they were marked as such in a two line purple cachet. "SALVAGED FROM AIR CRASH".

23. 1945, January 25 - On January 25, 1945 the Canadian RCAF carrying Dakota 978 crashed and burned on take-off at Beggin Hill, England. The aircraft, enroute to Canada, was carrying Canadian Forces mail, much of which was destroyed or damaged. (Data from Director of Postal Service, Canadian Armed Forces, March 29, 1972.)

1954
24. Prestwick, Scotland December 25, 1954: British Overseas Airways Corporation. On Christmas Day, December 25, 1954 a B.O.A.C. Stratocruiser crashed at Prestwick, Scotland. All aboard were killed. There was also $60 million in diamonds on the aircraft and all were recovered by loading the earth for serveral feet around the crash into railway cars and shipping all to London. The earth was sifted and the diamonds recovered. Some of the mail aboard was recovered in a badly damaged condition and some was in good condition. All mail received an official violet rectangular cachet in three lines: "SALVAGED MAIL/ AIRCRAFT CRASH/ PRESTWICK 25-12-54" Most of the mail was destined for Canada and some to the U.S.A.

Postal History

VIII. Early and Late Ferry Postage

In the early 1800s, local letters were exchanged at various points across the water courses separating Upper Canada and the United States — Cornwall / Fort Covington, Prescott/Ogdensburgh, Brockville / Morristown, Kingston / Cape Vincent, Niagara / Youngstown and Queenston / Lewiston. In addition, the regular mails between the larger Canadian towns and New York normally passed through either Queenston or Kingston.

Shortly after the transborder postal service was re-established after the War of 1812, the postmasters at Queenston and Kingston, without official sanction, began collecting 2d. Cy. and 3d. Cy. respectively to cover the cost of ferrying the mail across the Niagara and St. Lawrence Rivers. The Kingston charge was higher because there were two ferries involved — one on either side of Wolfe Island.

An 1817 letter from New York via Queenston has "Ferry 2d." in manuscript in addition to the regular postage, while a contemporary one from Sangerfield, N.Y., which had 12½ cents postage prepaid to the border, has "AP N3" and "N5" for a total postage due of 8d. Cy., representing the 3d. ferry charge and 5d. inland postage from Kingston to Brockville, its destination. Most incoming letters had the ferry charge included in the total postage due without separate identification.

There are very few examples of early outgoing letters from Canada, which were mailed at points away from the border towns. However,

Letter from Perth, Scotland mailed on 6 November 1834 with 1/3 Stg. postage to Liverpool prepaid. Carried by an American sailing packet to New York, where struck with "NEW YORK/SHIP" on 5 December and rated 27 cents postage due. Datestamped at Queenston on 11 December, where the U.S. Postage was converted to 1/4½ Cy. and 2d. Cy. fermage added to make 1/6½ Cy. postage due.

one written at "Yonge St., Upper Canada towards Lake Simcoe" in January 1828 has "Pd. 7 & 2d." in manuscript, where 7d. Cy. was the inland postage to Queenston and 2d. Cy. the ferry charge. As there is no receiving office postmark, it is not known where it was mailed, but it seems likely that it was at York, where the postmaster would have been in the habit of collecting and remitting the ferry charge on incoming letters to the Queenston postmaster, and so would logically do the same on outgoing letters.

As has been well documented, this informal practice was regularized by Departmental Circular No. 6 dated 12 January 1829 issued by T.A. Stayner, the Deputy Postmaster General for the Canadas, with effect from 5 February 1829. This began: "Several Post-Masters on the Frontier having opened Public communications with Post-Offices in the United-States, without the sanction of the Head of the Department at Quebec, and confusion in the Accounts, and inconvenience in other respects having been created thereby, it had become imperatively necessary to put a stop to so great an irregularity, and to form some plan that should place the Post intercourse between the two countries, upon a more respectable and efficient footing than had hitherto existed."

The circular then stated that in an arrangement with the U.S. Post Office, only five Canadian post offices were to exchange mail with their cross-border counterparts — Montreal and Stanstead in Lower Canada and Kingston, Niagara and Prescott in Upper Canada. It also formalized "ferriage postage" for the three Upper Canadian offices at 2d. Cy. per letter or packet via Niagara or Prescott and 3d. Cy. via Kingston. This was to be charged on the principle of the Ship Letter fee, which was that the same amount was applied to single, double and larger letters and packets. In December 1830, the Niagara River exchange office was moved from Niagara to Queenston.

The collection of ferriage was continued until 6 March 1837, when it was discontinued by a departmental order dated 22 February 1837, with the exception that it "will, in future, be confined to letters originating in or addressed to the Towns where these distributing Offices are situated." Thus the residents of the three towns were to be exempt from the minimum inland postage of 4½d. Cy. and instead to pay 2d. or 3d. Cy. to have the post office take their letters across the respective rivers to the opposite American post office.

On 18 January 1844, Stayner, who was still the Deputy Postmaster General, wrote to Lt.
Col. Maberly, the Secretary of the General Post Office, London, questioning the continuance of this reduced postage. As his comments on the long-standing practice are interesting, it is given in full:

"Supposing it to be the desire of His Lordship The P.Mr.Genl. to abolish as soon as may be convenient, all local or conventional rates which have grown into use in this Country, that are inconsistent with the exact application of the Laws & Regulations proceeding direct from Imperial Authority, and considering that the subject may not yet have attracted your notice, I think it my duty to invite your attention to the usage which obtains at several of the Frontier Offices in communication with the U. States of imposing an abated rate of postage on letters & papers, which originate in our Frontier Towns, addressed to the U. States, or which originate in the U. States & are addressed to people residing in such Frontier Towns. — It is, in the case of letters, the substitution of a charge of 2d. Currency (in one case 3d.) p packet — instead of 4½d. Cy. p letter — of ½d. Currency. p newspaper, or Sheet of Pamphlet instead of a penny p newspaper & a penny p oz upon Pamphlets.

"These reduced charges came into practice many years ago, and were intended to meet the circumstances of the Country at the time. — In most instances, the conveyance by our Mails is only halfway across a River, perhaps a distance of ½ a mile — it was considered that if the rate was not very low, the Inhabitants situated on the Frontier would not make use of the Post at all, but would send and receive their letters by clandestine means, for which they possess great facilities. — Whether such reasoning will be allowed to operate now, will be for His Lordship The P.Mr.Genl. to determine. — I cannot at this moment recollect that any other anomalies in our postage charges exist. — I have reformed many since I have been in office, but this respecting the "Ferry postage" (so called) I have not ventured to disturb materially, but have contented myself with putting it under Regulations (the January 1829 Departmental Circular) — making the charge uniform at Offices similarly situated, which was not the case before I was appointed — each Postmaster having made such charges as he thought sufficient to cover the expense of the ferriage.—"

No action was taken on this letter and it is
presumed that the reduced postage continued in effect until the 3d. Cy. on delivery.

(NOTE: The letters referred to in the text are illustrated in the Palmer Cross-border Mail Collection, published by Jim A. Hennok Ltd., Toronto.)

Espamer - 87

by Andrew Cronin

This international exhibition of Spain, Portugal and the Americans, traditionally held every two years, was staged this time Oct. 2-12, 1987, at La Corunna, the largest city of Galicia in Spain. Galicia is the autonomous bilingual area of four provinces in the northwestern corner of Spain, with its own language on an equal footing with standard Castillian.

La Corunna was, in fact, the big surprise and nicest bonus of the exhibition. Probably the most underrated city in the whole of Spain, with scarcely a mention in the guide books, it is a thriving and growing centre of 350,000 people, with a picturesque port on the gulf side and beaches on the Atlantic Ocean, distinctive architecture including a Tower of Hercules, the interior of which dates back to the third century A.D., extensive industry and commerce, festivals, concerts and visits by international thetic companies, distinctive and tasty Galician cuisine with superb seafood, large apartment buildings, a fine bus service and an efficient city administration headed by Mayor Sr. Francisco Vázquez. In short, La Corunna has everything.

Philately is well organized in Spain, with leading members of the federation of Spanish Philatelic Societies, including Sr. Angel Sánchez Arévalo Sanz and Sr. Pascual Domenech Ortiz Urbina rolling up their sleeves to receive the collections for the show. They were backed up by a hard-working team from the Philatelic Society of La Corunna, headed by its Vice-President and the Coordinator for ESPAMER-87, Sr. Angel Aparicio Martínez and with all the documentation computerized.

Special souvenir sheet of four values was issued for Espamer-87.
The Spanish Ministry of Communications went all out to ensure the success of the show with subsidies and receptions, providing a souvenir sheet with two distinct gummings, two de luxe proofs of the same sheet, a show card from the Spanish Mint, a distinctive postmark for each day, special folders and covers, additional office staff, etc. The security was thorough, the hospitality overpowering and there were several trips offered to other interesting places in Galicia including the historic capital of Santiago de Compostela.

Attendance was excellent at the 2000-frame show, especially on both weekends and the exhibition post office was always busy. Apart from the host country of Spain, there were judges from Argentina, Brazil, Colombia, France, Greece, Peru, Puerto Rico, Portugal, Uruguay and the United States. There were entries from all those countries, as well as from West Germany and including 15 entries from Canada, which this writer took over as Commissioner. There were three bulletins, a catalogue and a palmarès published, all of a very high printing standard and mostly multi-coloured.

The Canadian exhibitors did well and the results were as follows:

An interesting error exists in Scott's Specialized Catalogue of United States Stamps. It lists the 2c brown violet Columbian Exposition issue in two different plate layouts which were used for manufacturing this value.

Plates of 200 subjects were used which were cut apart after printing into two panes of 100 stamps each. Guide arrows indicated where the cuts were to be made. Each sheet shows half of the arrow.

In addition Scott lists plates of 100 subjects in two panes of 50 each for this value. In fact the plates of 100 did not have two panes and were never cut apart. These plates did not have a guide arrow in the margins for cutting because it was not needed. Full sheets of 100 coming from the 200 or the 100 subject plates can only be distinguished by the presence of or the lack of the arrow.

Canadian bank note companies continue to have problems in obtaining the special papers for printing stamps. This is rather amazing since Canada is one of the foremost paper producers.

Paper from England has been used for some time but certain types were not very satisfactory because of the tendency to curl. Papers from two specific companies have been used, one from Harrison and one from Rolland. The Rolland paper is no longer available, however, and all stamps printed previously on this paper are now being printed on the Harrison paper.

The 50-cent vending booklet has now been changed over to the Harrison paper using Plate No. 2. The back cover has an 'H' instead of the R, indicating the paper change. Another feature is that often a stamp printed by one bank note company will suddenly be printed by another one. Sometimes a change from one to another company will not produce a marked difference in the appearance of the stamp. In many cases, it is possible to note the difference when the printing company is changed. Such changes are seldom listed in the Scott catalogue but specialized literature will identify such printings.

Certainly the number of changes made to recent issues equals if not surpasses the many changes to the Centennial issues. Some of these changes are documented by special announcements from Canada Post but not all changes are noted. For anyone who likes to keep his/her collection of these modern issues updated, a continuous lookout and search for such new material is required.

While visiting a dealer recently, we noted a complete wall full of bid sheets in his store with stamps mounted on small cards and a space for anyone to enter a bid. Each card had a deadline when the card would be taken off the wall and the highest bidder would then get the lot. Cards
are left up for about two weeks. This idea apparently has attracted many to this store.

The new Commonwealth Catalogue of Stanley Gibbons once again shows a decrease in prices of almost 60% of all stamps listed. My prediction is that this may be the last major decrease. It's interesting that some of the newer issues of GB with tagging have increased in price.

**Literature Reviews**

**CATALOGUE OF CANADIAN DUPLEX CANCELLATIONS**, by Robert A. Lee, 1987, published by and available only from the author, PO Box 937, Vernon, B.C. V1T 6M8, 21 1/2 cm by 28 cm, (standard 8 1/2 by 11 in., 152 pages, black and white illustrations, looseleaf three-ring punched $15.95 (with gold-stamped three-ring binder $24.95; deluxe library bound edition $25.95).

Here's a catalogue that should set the philatelic world abuzz with research. The result of several years work by the author with the help of a who's who of Canadian cancellation collectors, this catalogue is an in-depth study of all known official and unofficial duplex hammers from 1860 to date. In all, 6,000 are listed each with a catalogue number, identification code, proof date, earliest and latest known useages, as well as time marks.

The catalogue begins with an explanation of its, by necessity, complicated identification code, which describes the type of postmark and killer of these widely-used cancellations.

Each province and territory has its own section. There are separate sections for armed forces, Berri, transportation and unofficial types.

The many varieties of postmarks and killers are accurately illustrated.

The catalogue will be a boon to collectors of this type of cancellation which is still in use in some small post offices. It's sure to spark a new round of research among collectors looking for those elusive early and late dates, unlisted time mark variations and so on. It could do for duplex cancellations what Moffat and Hansen did for squared circles through their work.

The loose-leaf format will be a godsend for duplex collectors. With annual updates planned by the author and research sure to turn up plenty of new dates and other information a catalogue that can grow over time is a necessity. And through desk-top publishing techniques, it's available at a price most can easily afford.

The author is to be congratulated for his diligent (and loving) work so far. His work should prove a springboard for much research by many collectors of Canadian postmarks. It increases the interest in Canadian philately in general.

These Gibbon catalogues detail these three popular collecting areas in a semi-specialized way the issues of King George VI and Queen Elizabeth II.

The Australia catalogue also includes Australian Antarctic Territory, Christmas Island, Cocos (Keeling) Island and Norfolk Island. Elizabethan listings include first day covers and presentation packs.

The New Zealand catalogue also includes Cook Islands, Niue, Ross Dependency and Tokelau.

These catalogues are useful for the intermediate collector who is beginning to specialize but not yet ready for intense specialization that is possible with the stamps of these Pacific nations and dependencies, even among modern issues.

SLIDE PROGRAMS

35MM Slide Library Regulations
1. Slide programs are available to R.P.S.C. Chapters on request. Programs are also available to individual members of The Society under the same terms outlined hereunder, but with the understanding that Chapter requests are given preferential treatment.
2. Slide programs should be requested at least 30 days in advance of the meeting for which they are required. Many Chapters book their requirements a year in advance.
3. Always list one or two alternate programs just in case the one you choose is not available for your particular date.
4. Always give the date of the meeting for which you require the program.
5. Rental fee of $6.00 effective from 1 April 1985 should accompany the request.
6. Slide programs must be returned to me within three (3) days of your meeting so that they are available to other Chapters. They must be returned either via Registered Mail or via First Class Mail Insured for at least $100. In the event that a slide program being returned goes missing in the mails and the Chapter concerned has not complied with the above instructions, the Chapter will be held responsible for the replacement cost of the program.
7. Each program is forwarded postpaid by the R.P.S.C. to the Chapters. Return postage is to be paid by the Chapters. INDIVIDUALS PAY POSTAGE BOTH WAYS.
8. Care should be taken in handling the slides. Never handle them except by the border since finger marks destroy the film.
9. Report any lost or damaged slides when you return the program.
10. Please return the program in the standard container in which it is sent to you.
11. Any correspondence regarding the R.P.S.C. slide programs is to be directed to the address following:

Ed Beaubien
Box 441, RR #2
ORLEANS, Ontario
K1C 1T1
Telephone: (613) 824-1534

12. A request for a slide program from a Chapter or Individual Member will indicate acceptance and understanding of the foregoing regulations.

Youth Education Programs
The following slide sets were designed for Youth Work and are available free to schools and youth groups. The only requisite is the return postage be paid. They should be ordered when possible by the Chapter Representative who will be responsible to the Society for their safe return.
Y-A/1 Québec City, 10 slides
Y-A/2 Québec City, 10 slides
Y-B Perforations, 26 slides
Y-C Canadian Indians, Tape
Y-D Story of Printing, 49 slides and write-up

Y-E Seven wonders of the world, 23 slides and write-up
Y-F Printing of Stamps, 30 slides and write-up
Y-G Miniature sheets of Canada, 25 slides and commentary

The R.P.S.C. is always interested in acquiring new programs for the Slide Library. The policy of The Society is not to buy new programs outright, except in special circumstances. Rather we will pay for the photography for two sets, one set for The Society, and one for the Donor. In this way the donor has some compensation for the use of his material and The Society has a spare set that can be borrowed for duplication purposes if anything should happen to The Society set. If you work in a field of Philately that you think might make a good subject for a slide program, or if you know of someone else who does, drop me a line. If you cannot get the photography done, we can get this done for you. Programs should be kept to 75 slides or less (30 minutes), if possible, and texts should be kept as simple as possible.

THE SALES CIRCUIT - - -

The Sales Department is a vehicle for members to buy and sell stamps. If you wish to sell your surplus stock, write this department. Blank sales books are available for 50 cents each. These books have 16 pages and spaces for 12 stamps on each page. These books may be used for blocks and covers as well.

You identify and price your own stamps, bearing in mind that the Sales Department charges a 15% commission on sales and one percent of the book value for insurance. Your stamps are insured by the R.P.S.C. as soon as we receive them.

We keep your books for 12 months, sending them out to clubs and individuals and then return them to you along with a cheque for the sales. When putting stamps in these books, be sure to identify them correctly and either hinge them well (no half hinges) or put them in stamp mounts. Also, price them to sell!

Right now we need stamp books and more stamp books as the sales are increasing. We need stamps from the following countries:
Canada - mint and used, back of book, revenues, precancels, perfins, covers and blocks;
Newfoundland - mint and used, covers, blocks etc.
Great Britain - mint, used, covers, whatever
Br. Europe and Channel Islands - mint and used
Br. W. Indies, Br. Asia, Br. Africa, Br. Oceanian - mint and used
Australia and States, New Zealand
East and West Germany – mint and used, covers etc.
Scandinavia – Greenland, Iceland and the Faroe Islands
France and Colonies
Switzerland – anything!
Netherland, Belgium, Italy and their colonies
Topicals – Birds, flowers, ships, maps, stamp
on stamp etc.
South and Central America
Spain and Portugal
Worldwide
Try as much as possible to stick to one country or one geographical area when you make up sales books.
To buy stamps through this department, write and let me know what countries you want and as much information as possible as to mint and/or used, old, current etc. We send out large parcels to clubs, smaller ones (six-10 books) to individuals.
As an individual, you can choose from two formats – direct or multiple. Direct circuits go
to you and you send it back to me; if you are on a multiple circuit, I send it to one person and that person sends it on to the second person on the circuit and so on with the books eventually being returned to me.
At present we have openings on the following multiple circuits: Australia and New Zealand; Austria; Br. Colonies mint; Br. Colonies used; Canada mint; Canada used; Germany; Great Britain; Channel Islands; Br. Europe; Br. Africa; Topicals; Switzerland; Netherland and Colonies; Scandinavia; Newfoundland; U.S.A. mixed; worldwide; Western Europe; France and Colonies.
Make your R.P.S.C. membership work for you – use your Sales Department. For buying or selling stamps, please write:
