ROYAL '88

WESTIN HOTEL - WINNIPEG, MANITOBA
JUNE 16, 17, 18, 1988

Headquarters for the 60th Annual Convention of the APSC will be the Westin Hotel, situated at the corner of Portage and Main — the gateway to the west and the heart of the continent. The Mezzanine Floor has been taken over for this occasion and most daily events will take place on this floor.

PLAN HOW TO ATTEND

Renew your philatelic friendships in our pre-convention HOSPITALITY SUITE, Wednesday 2:00 p.m. to 11:00 p.m. and enjoy our coffee/tea, snacks, etc.

PARTICIPATE IN

- National Exhibition
- Seminars
- Special Social Events
- Hospitality Galore
- Outstanding Bourse
- Banquet
- Annual Meeting

Make your plans now, and remember to forward your advance registration form to assist the committee, and eliminate long registration line ups.

For Information Write to:

P.O. Box 1425,
Winnipeg, Man.
R3C 2Z1
Don’t Miss Royal ’88
Westin Hotel - Winnipeg, Man. - June 16-18, 1988

ROYAL ’88 - Canada’s national philatelic event of the year and the 60th annual convention of the RPSC - has been especially planned as a full philatelic and sociable three-day affair for all our members and friends. Besides fulfilling your philatelic needs with a National Class Exhibition, dealers’ bourse, seminars, etc. you will thoroughly enjoy our special social events.

Enjoy the fresh sights and sounds of Manitoba’s captivating countryside aboard those wonderful British double-decker buses on the way to a barbecue fun night at the Hitch ‘N Post. Marvel at the styles of yesterday (ranging from 1830 to 1930) at a spectacular fashion show of turn-of-the-century fashions. Renew old acquaintances or meet new ones in our hospitality suite or at the receptions planned. Then top it all off with a banquet to remember.

During your visit you may wish to enjoy our two new revolving restaurants (only five minutes from the hotel) or the many other outstanding fine restaurants which Winnipeg is known for. The revolving restaurants are just around the corner from our historic old Fort Garry Gate, built in 1850 near the confluence of the Red and Assiniboine rivers. Stop and take a look at this bit of old Winnipeg, as portrayed on Scott’s No. 243.

If you have not decided to participate - do so now. You won’t want to miss this extraordinary three-day philatelic event. Remember to forward your pre-registration form to let us know you will be with us.

NOTICE OF THE ANNUAL GENERAL MEETING

TAKE NOTICE that the annual general meeting of the members of the ROYAL PHILATELIC SOCIETY OF CANADA will be held on the 18th day of June, 1988 at the hour of 10:00 o’clock in the forenoon (local time) at the Westin Hotel, 2 Lombard Place (Portage and Main Streets) Winnipeg, Manitoba, for the following purposes:

1. To receive and consider the financial statements of the Society for the year ended December 31, 1987 and the reports of the directors and officers thereof;
2. To elect directors;
3. To appoint auditors;
4. To approve changes to bylaws;
5. To transact such further or other business as may properly come before the meeting and any adjournment or adjournments thereof;

By order of the Board, (signed) James E. Kraemer
President

NOTE:

1. All nominations for Directors, duly signed by the nominee and seconded must be in the hands of the President by May 18, 1988.
2. If you are not able to be present at the meeting, would you please complete the attached form of proxy and send it to James E. Kraemer, 17 Commanche Drive, Ottawa, Ontario K2E 6E8.

TO BE DETACHED HERE

The undersigned member of the ROYAL PHILATELIC SOCIETY OF CANADA hereby appoints James E. Kraemer of Ottawa, Ontario, or him failing, Michael Madesker of Downsview, Ontario, or him failing, Harry Sutherland of Toronto, Ontario, as the proxy of the undersigned to attend and act for and on behalf and in the name of the undersigned at the annual general meeting of the Society to be held at 10:00 a.m. on Saturday June 18, 1988 upon any and all matters that may properly come before the said meeting, or any adjournments thereof, the undersigned hereby ratifying and all that the said proxy may do by virtue thereof; the proxy being directed to vote as follows,

To approve Bylaw changes as outlined in the March/April issue of the Canadian Philatelist for 1988.

EDITOR'S NOTES
by Jim Haskett

OLYMPIC MANIA
At the time this is being written, the XV Winter Olympics Games in Calgary are just a couple short weeks away. But collectors, especially those of the very popular Olympic and sport 'topicals', will have lots to talk about for months and years to come.

Canada, the host nation, the U.S., and many other countries (some of which have never seen snow) have issued a large number of stamps commemorating the Olympiad of the winter of 1988. Canada issued its final set of Olympic stamps on Friday, Feb. 12, the day before the Olympics began.

The four-stamp set, two 37-cent values, a 43-cent and a 74-cent, depicts curling, alpine skiing (slalom), figure skating and luge. The four were designed by Pierre-Yves Pelletier of Montreal again using a unique (and controversial) diagonal dot technique featured on Canada’s previous Olympic stamps. The designs are an interpretation of actual sports photographs using the dot technique.

The four stamps complete an 11-stamp series for the Olympics. In all, 10 Olympic or winter sports from bobsleigh to hockey were featured in series.

An Olympic souvenir edition, with all 11 Olympic stamps, has been prepared as well. At $5.25, it's available at Games' sites in Calgary, at post office philatelic counters or from the National Philatelic Centre, Antigonish, Nova Scotia, B2G 2R8.

The last set of Olympic stamps are being printed by Ashton-Potter Limited of Toronto in six-color lithography (37-cent values) and five color lithography (43 and 74-cent values). Quantities are 15 million for the 37-centers and 10 million each for the two higher values.

CANCELS, TOO
Nineteen special cancels, each bearing a different stylized Olympic sport logo, have been prepared by Canada Post were to be used in Calgary and at other Olympic sites (Nakiska, Canmore) for the duration of the games. They can also be obtained from the National Philatelic Centre.

In STAMPede, the publication of the Calgary Philatelic Society, it's been calculated that a complete set of matched plate blocks of the 11 Olympic stamps with a complete set of 19 Olympic venue cancels for each day of the Games totals a mere 5,060 covers! A plain set of each cancel for each day of the events adds up to 91 covers; for the more ambitious, 1012 covers bearing each of the Olympic stamps.

Happy collecting — and perhaps the postal deficit will go away if enough complete sets are purchased.

DUBE AWARD WINNERS
Three of Canada's best-known philatelists recently received Herbert Dube Awards of the Philatelic Specialists Society of Canada at the society's annual banquet.

Honored were Kenneth Rowe, Allan Steinhart and Michael Madesker. The Dube award is presented from time to time to the PSS member voted to have presented the best paper in a particular year, a paper that must also have been published in a leading philatelic journal. This year's awards were the first since 1981.

The 19 commemorative postmarks issued for the XV Winter Olympic Games in Calgary, Alberta.
Mr. Rowe, a former editor of The Canadian Philatelist, long active with the RPSC, and a key organizer of CAPEX *87, received his award for his papers and publications on the Postal History of the Canadian Contingents, Anglo-Boer War, 1899-1902 and The Postal History of the Forwarding Agents.

Mr. Steinhart, currently chairman of the board of governors of the British North America Philatelic Society and a contributor of articles to many philatelic publications, including The Canadian Philatelist, was honored for his works, the Admiral Era: A Rate Study, 1912-1928, and Civil Censorship in Canada During World War I.

Mr. Madesker, currently first vice-president of the RPSC and the man who ran CAPEX *87, was named a Dube award winner for his work on Canadian Booklets. His series on booklets won him the RPSC's Geldert Medal in 1985 as the best articles in The Canadian Philatelist the previous year.

The PSS is a group of mature and advanced philatelists with a wide-ranging interests in many aspects of stamp collecting and promotion of philately in Canada.

For information about the organization and its activities, contact the Secretary, P.S.S., PO Box 1082, Oakville, Ont. L6J 5E9.

NEW BOOKS

When philatelist talk about forwarding agents, Kenneth Rowe's masterpeice on that subject always is mentioned. A supplemental work on the subject, researched and written by Patrick Frost, is now available from Christie's Robson Lowe. Mr. Frost, by searching the Corsini and Venturini archives, has come up with 36 names of parties who forwarded letters in the 15th Century, only three of whom endorsed the outside of letters. The 17th and 18th Centuries yielded another 44 endorsements. Countries covered are Bavaria, Brabant, England, France, the Italian States, Netherlands, Spain, Venice, Cyprus and Malta.

Mr. Frost's research indicates there are still plenty of new discoveries that can be made in postal history areas of the early development of letter-carrying systems.

His 16-page work, The Development of European Forwarding Agents, is available from Christie's Robson Lowe, 39 Poole Hill, Bournemouth, BH2 5PX for £4 (plus 60p overseas postage).

Stefan Heijtz of Stockholm, Sweden has just published a new catalogue, Specialized Stamp Catalogue of The Falkland Islands. This 192-page work is the result of several years of intense study by 15 Falkland Island and dependencies specialists. In addition to listings of stamps and stationary (all issued stamps and major varities are illustrated), the catalogue contains a wealth of postal history information, including all known cancellations and postmarks, and postal rates from 1850.

It's available at $30 Cdn. postpaid from Mr. Heijtz, Box 26048, S-100 41 Stockholm, Sweden.

The British Library, home of some of the world's greatest stamp collections, has published a paperback volume that serves as a guide to those collections and as an introduction to the history of philately.

The 64-page book, Stamps, has 60 illustrations, 30 of them from 19th Century collections still intact today, as well as a number of other major collections acquired or loaned to the Library.

It's available at £5.95 from The British Library, Marketing and Publishing, 41 Russell Square, London WC1B 3DG.

THREE-COUNTRY ISSUE
The U.S., Sweden and Finland are producing a joint issue for March 29 to commemorate the founding of New Sweden colony in America 350 years ago. The stamps of all three nations will feature a common design by Sweden’s Goran Osterlund based on an illustration from a 1702 book, the first Swedish publication about America. It shows a European settler negotiating with two Indians, with a map focusing on New Sweden to the left and Sweden and Finland to the right. In between are the Kalmar Nyckel and the Fogel Grip, the Swedish ships that carried the settlers to what is now the Wilmington, Delaware area.

Co-sponsoring the first-day-of-issue ceremony in Wilmington are the Kalmar Nyckel Commemorative Committee and Delaware Heritage Commission. The organizations are producing two first day covers featuring cachets of Kalmar Nyckel Commemorative Committee logo and Queen Christina, the monarch of Sweden when the New Sweden was founded, and the 44-cent U.S. airmail stamp that’s being issued for the occasion. The covers, at $2.50 U.S. for one or $4.50 for the pair and postmarked in Wilmington on March 29, may be ordered from KNCC-Stamp, Executive Office, Radisson Hotel, Wilmington, DE 19801 U.S.A. Include a stamped, self-addressed No. 10 envelope for delivery of the covers.

SPONSOR BONUS
The recent mailing through Canada Post has produced hundreds of new members for the Royal Philatelic Society of Canada. And, as of Jan. 1, a sponsor rebate program, available to dealers as well as chapters of the RPSC, could produce many more, it is hoped.

New membership application forms for The Royal have been printed. They include a space
for dealers to recommend membership for an applicant.

Chapters may also sponsor applications and will receive a $5 rebate for each member accepted. That's up from the $2 that was previously sent back to chapters.

Application forms are available from the R.P.S.C. National Office, PO Box 5320, Station 'F', Ottawa, Ont. K2C 3J1.

Among the benefits of Royal membership are a subscription to The Canadian Philatelist, availability of stamp insurance, the use of the Royal’s Sales Department, and the annual convention and exhibition of the RPSC.

Annual dues are just $18 ($20 Cdn. for residents of the U.S. and other foreign countries) plus a $5 admission fee for new members. Life memberships, at $300 (plus the $5 admission fee for new members) are also available.

ROYAL 88 REMINDER

Plans are just about set for Royal '88, the national level RPSC show to be held in Winnipeg, Man. June 16-18. Committees of the Winnipeg Philatelic Society, the host RPSC club, have been busy setting up seminars and special events for collectors to attend and learn more about their hobby. A round of social gatherings is also scheduled, along with the annual banquet on the Saturday night.

Saturday is also the day the Royal’s annual meeting will be held. In addition to the annual election of directors, the meeting will also include approval of several important bylaw changes. (See Page 104) in this issue for details. Members who are unable to attend are urged to fill out the proxy form on Page 84 and mail it in.

Members are also reminded the deadline for exhibit entries and for booking hotel rooms at Royal '88 ‘headquarters’, the Westin Hotel in Winnipeg, is drawing close — April 1. Entry forms etc., were published in the November-December 1987 issue of The Canadian Philatelist.

Letters to the Editor

'SINISTER' DESIGN

Canadian postage stamp designs are usually among the crudest and least inspiring in the world. The beautiful 37-cent Queen's photo, just released, is a welcome exception.

At first sight, the recent colorful out-sized 36-cent "Charter of Rights and Freedoms" also seemed a beautiful change. However, examination shows its design is flawed.

The heraldic tinctures on the torse, instead of being wreathed correctly from dexter to sinister in six twists of argent and gules, are incorrectly wreathed from sinister to dexter.

Surely, somebody in Canada Post or in government authority should be responsible to see that Canada does not announce to the world that it does not know how to depict its national armorial bearings properly.

Col. Strome Galloway, (Rtd.)
Heraldry in Canada
Ottawa, Ont.

B.N.A.P.S. BOOKS

In the Nov.-Dec. 1987 Canadian Philatelist, B.N.A.P.S. is pleased to see reviews of three of our new handbooks in the Literature Reviews — The Bickerdike Machine Papers, Northwest Territories Postal Cancellations 1907-1986, and The Postal History of Assiniboia 1882-1905.

Unfortunately, nowhere do your reviews give us credit as all three are publications of The British North America Philatelic Society. It is noted that one of these is available from the B.N.A.P.S. Book Department in the review. Please note all three are available from the B.N.A.P.S. Book Department along with many other publications.

Allan L. Steinhart
Chairman, Board of Governors
British North America Philatelic Society

SUGGESTIONS FOR JUNIORS

(Editor's note: The following letter was sent to Canada Post and made available for publication in The Canadian Philatelist.)

Dear Canada Post:

Thank you for the opportunity to comment on "The 3 Penny Beaver". The comments I have to make are based on the four years I have run the Junior Stamp Club here in Fort St. John, plus some time that I have spent with Juniors in Yellowknife and Whitehorse.

First of all, your publication is almost useless. The stamp illustrations are terrible. Why not enclose the stamp information bulletins put out by Ottawa (or Antigonish) instead of a poor photocopy. Secondly, it is not very regular in issue. I think I have had half a dozen Beavers since I got on your mailing list. To do it right, it must come out every month. Junior clubs usually only meet during the winter. At the rate you put the Beaver out, there are only perhaps three times a year it can be used. Your news is old. Make it more current. You know now what stamps are coming out in January and February 1988. Tell us about them.

You might also use the publication to be of assistance to club co-ordinators, with some "how-to-instruct" hints, things to do in a club, where to go for information, interviews with collectors about their collections or about special stamps, millions of things. Possibly you might write to the people at the Ben Franklin Clubs in the USA, the Stamp Bug Club at the British Post Office or the Australian postal authorities, all of whom have excellent publications for juniors. I know the Beaver is only a regional information sheet, but let's get off the pot and do something worthwhile. Collectors spend a lot of money on stamps which never get used for mail, thus going directly into your coffers. We used to have October as stamp collecting month in Canada, to coincide with stamp collecting month around the world. Some whiz has decided that Canada would have February as stamp collecting month now. Why must we be different? I only heard about the change because my local postmaster, Mr. Doug Gray, told me that he wouldn't be able to help with our exhibit in October in our local shopping mall because Canada Post was going to do big things in February.

Well gentlemen, it is mid-December. Our club is now shut down until our next meeting on January 9th, 1988, which is only 22 days
from February. So what is Canada Post going to do? That’s the kind of information I as an adult adviser to a junior club am looking for. Advance information that I can use in my program, not information that will come to me in February. I have enclosed for your information, our club schedule, with all the topics I try to cover in the year. As well as the basics of stamp collecting, I try to interest the children in branching into other areas, so that they learn something from their hobby. Unfortunately, I have to depend on material from overseas (see attached material from Australia Post) when I should be able to get information from Canada Post. Anything Canada Post spends on the hobby will come back to it ten-fold in new-collector purchases, in creating an awareness of the hobby and in good-will for Canada Post (and I am sure you want more of that!) I have been in this hobby for 37 years, I have a lot of mint Canadian stamps that will never be used on envelopes and I have a large pile of reference materials. I am however, just an average collector. There are many collectors in Canada who know far more than I do about our hobby, so it should not be difficult for Canada Post to get someone on a contract to set up a program that is truly worthwhile and beneficial. I wrote to the Royal Philatelic Society of Canada, of which I am a member for assistance in obtaining material for Juniors. What I received was material written for the Luxembourg national youth philatelic association! Now, I know the Association does not have much in the way of financial resources, but it too must be depending on junior collectors to grow up and join the RPSC. However, there isn’t much help available there.

Why can’t Canada Post and the RSPC sit down together and develop the 3 Penny Beaver into a worthwhile publication, with all the necessary backup from writers, illustrators, etc., instead of looking like something a file clerk with nothing to do for 10 minutes puts together.

You might also look at sending displays around to various post offices, instead of keeping them all in Vancouver or some other big city. There are a few million Canadians living in smaller communities like Fort St. John and Cambridge Bay, who might take up collecting if they were attracted to an enticing display in their local post office.

There have been a few times when I have wanted to write to you and tell you I would write the 3 Penny Beaver. I’m sure I could do better than what you have now, and if I can do better, I am sure that a few dollars spent in the right place will do even better and you could have something that is worthwhile.

Now I have that off my chest, it’s time to read my latest Scout Club Bug (Countrywide House, West Bar, Banbury, Oxon, England, OX16 9SH, £1.50 for 2 years) and my Australian Stamp Explorer (free from Australia Post, Bag 8, South Melbourne, Victoria, Australia, 3205). I would like to be able to read a Canada Post publication for Juniors.

Sincerely yours
Philip D. Cove
Adviser
Fort St. John Junior Stamp Club

LISTINGS SOUGHT

I have endeavoured to assemble a complete collection of stamps issued to commemorate Expo ’67, 1976 Summer Olympics, 1978 Commonwealth Games, and Expo ’86. I am also endeavouring to assemble a complete collection of stamps issued to commemorate the 1988 Winter Olympics.

I would be obliged if one of the Society’s members could provide me with a list of such issues or refer me to a published definitive listing.

Thank you for your assistance.
Paul Cannon
19 San Fernando Dr.
Hamilton, Ont. L9C 2C1

UNAUTHORIZED OVERPRINTS

A number of inquiries have been received relating to CAPEX ’87 overprints on Tuvalu Rotary/Chess souvenir sheets. These and the World Scout Jambooree overprints on the same stamps were produced by a U.K. stamp dealer without authority to do so. The overprints are not official. They were never on sale in Tuvalu post offices or at the Tuvalu Philatelic Bureau.

F. Hoy Mbe
Philatelic Bureau
Funafuti, Tuvalu

COLORFUL FALLS

Canada Post recently appointed four new people to its 10-member stamp advisory committee which advises on the selection of stamp subjects and designs. Members come from
varied backgrounds but not one is a photographer. Could this be the reason there is no colored night view of the Falls of Niagara on Canadian postage stamps?
Herbert C. Force
Niagara Falls, N.Y.

TRANSLATION AVAILABLE
An article in French about Sir Sanford Fleming appeared in The Canadian Philatelist of Nov.-Dec. 1986. It was entitled De la Rencontre de 3 Ecossaix, Naître le castor de 3-pence, le Premier Timbre-Post Canadien. With the approval of the author I have prepared an English translation. Copies are available at $4 each in Canada, $5 to the U.S. and $7 elsewhere.
Garnet G. Trivett
6 Elmhurst Ave.
Simoce, Ont. N3Y 3E9

MORE STAMP ERRORS
May I refer to page 432-33 of the Nov./Dec. issue of the Journal.
The article by Brian Cannon on the “$2.-Commonwealth Errors” will send many of us to our stockbooks and magnifiers.
Of ten copies of this stamp, I found one stamp showing a group of islands southeast of Tonga which includes Samoa. I am sending this copy to Brian Cannon for his opinion.
Many of us read the Journal and make mental notes of small discrepancies we find in stamps but fail to report our finds.
A recent error which has not been publicized concerns the stamp for the 50th Anniversary of the Montreal Symphony. Look at it closely. There are at least ten discrepancies:
1. The conductor is conducting at the left instead of in front of the orchestra;
2. The harp player has her arm under one harp string;
3. The string bass has three instead of four strings;
4. The two sides of the string bass are not symmetrical;
5. The trombone lacks a mouthpiece;
6. One violinist’s left hand has three fingers instead of four fingers and a thumb;
7-9. The three violins or violas have only one string each;
10. The trumpet player appears to be a one-armed musician.

Now, I feel better getting this matter off my chest! How does this stamp error rate as the most error plagued in recent Canadian philately?
Larry Connolly RPSC. 22109

Mountain Home, Arkansas
72653 U.S.A.

COMPILER WANTED
With reference to the letter of H.E. Achilles (The Canadian Philatelist V. 38 No. 5, Oct. 87) and his request for help, I submit is the answer to his question, not what many of us members would like to know. I have seen many requests for articles in the past, and I think you have just overlooked one.
I have, in the recent past, tried to acquire the issue dates for the various plates in the 1953 era. After tracking people in the postal museum and philatelic centres I managed to purloin some documents that had some of the dates and plates. These documents were found by an employee of the National Philatelic Centre in Antigonish, from a collector who works here in Ottawa at Canada Post.
I have sent a copy to the postal museum and have retained a copy for myself. This pile of documents consists of some manual listings and many copies of Mail Order Product Catalogues from Canada Post. If you have anybody willing to compile this information, I would be more than willing to forward a copy of these documents. I am sure that if the compilation was completed and printed that you would have created a reference to last 100 years.

AUG. 24-SEPT. 2 — NEW ZEALAND 1990, a World Philatelic Exhibition under F.I.P. patronage to be held in Auckland, New Zealand. Canadian Commissioner to be appointed.

EXCHANGES WANTED

Since the Royal Philatelic Society of Canada is the national society of philatelists in Canada, many requests for exchange partners are referred to us. As a service to our members, we are pleased to present these names so that those who wish to do so can make overseas contacts. We have no way of checking the credentials of the individuals who write to us asking that their name be published, therefore we urge that caution be taken when answering these requests.

FRANCE

An 18-year old stamp collector from France interested in postal Mail-Arts wishes to exchange stamps with a Canadian girl. Writes in French but would prefer English.

Juan Alberto Morales Garcia
Jan Alvarez 545
Villahermosa, Tabasco
MEXICO

A stamp collector from Mexico interested in various topicals wishes to exchange stamps with Canadian stamp collector. Writes in English and French.

DEMANDES D’ÉCHANGE

La Royal Philatelic Society ne s’occupe pas normalement des échanges entre philatélistes, mais comme elle est la société philatélique nationale du Canada, on lui transmet de nombreuses demandes de philatélistes désireux de trouver des correspondants pour échanger des timbres. Ainsi a-t-elle décidé, pour rendre service à ses membres, de publier les noms des intéressés d’outre-mer, afin que ceux qui désirent établir des rapports avec eux puissent le faire. Je vous signale toutefois que nous ne savons rien des personnes qui nous demandent de publier leur nom, c’est pourquoi je vous conseille d’être prudent en répondant à ces demandes d’échange.

“PROPAGANDA FORGERIES”

Printed by the Germans during the 1940’s for Propaganda purposes - based on the designs of the King George VI ½d-3d British definitive, the 1935 ½d British Silver Jubilee stamp and the 1937 ½d British Coronation stamp - They show subtle changes in the design and are very popular with collectors. We have recently acquired a fine study of these interesting and inexpensive items and would be delighted to hear from interested collectors.

1. ½d Silver Jubilee, superb cancelled single (illustrated). £80.00
2. ½d Silver Jubilee, superb unused single. £75.00
3. 1½d Coronation, superb unused single (illustrated). £75.00
4. 1½d Coronation, superb cancelled single. £80.00
5. King George V1 ½d Green definitive (SG 462). Fine unused single. £20.00
6. King George V1 ½d Green definitive with “D-Day” cancel. £20.00
7. King George V1 2d Orange, fine unused single (illustrated). £20.00
8. Souvenir sheet comprising the 6 definitives and the commemorative forgeries, all used, cancelled with D-Day cancel. Scarce. £250.00
9. King George V1 ½d ovpt “Murder/Ruin”. Very scarce. £110.00
10. King George V1 2d ovpt “World Politics”. £130.00
11. LIQUIDATION OF EMPIRE FORGERIES
        ½d ovpt. “Hong Kong” used. £35.00
        ½d ovpt. “Bahamas” unused. £35.00
        ½d ovpt. “Trinidad” unused. £30.00
        ½d ovpt. “Bermuda” used. £30.00
        ½d ovpt. “Singapore” used. £30.00
        1d ovpt. “St. Lucia” unused. £30.00
Other countries overprinted were Rabaul, Borneo, Grenada, Rangoon, Bougainville and St. Vincent. All items offered subject unsold.
Overseas orders - please deduct U.K. VAT at 3/23%ds, payment in sterling please.

State College, PA 16803, U.S.A.

Information about other APS member services: 100 page monthly magazine, stamp collection insurance, sales circuits, other books, beginner correspondence courses, and much more is also available from the address above.

Over 1,500 Canadians are now members of APS!
As I sit down to type these few notes I wonder if our members are aware of the advance dates required to meet publication of each issue of The Canadian Philatelist? This President’s Page is being prepared a few days after the New Year in order to meet the editor’s deadline for the March/April issue. Deadlines for the rest of 1988 are as follows: May 20 for July/August, July 20 for September/October and September 20 for November/December.

ROYAL ’88
We trust that you are planning to attend our most important philatelic event of the year, ROYAL 88, our annual convention and exhibition to be held in Winnipeg, Manitoba, at the Westin Hotel June 16 - 18, 1988. Mrs. S.A. (Beverlie) Clark and her Committee have worked hard to make this the best convention ever. Winnipeg has long been noted for its memorable philatelic conventions. I am certain that ROYAL 88 will surpass all those held previously.

A reminder to exhibitors that this is the only national exhibition to be held in Canada at this time. (The F.I.P. regulations state, “Exhibits not shown previously in National exhibitions will not be allowed to participate in F.I.P. (World) exhibitions. All certification will be done only by the National federation”).

Enter now and qualify for International competition. We are looking forward to seeing you at ROYAL 88.

BY-LAW CHANGES
Important changes to our by-laws are being proposed. These concern the election of directors. Please read the Notice printed on page 84 in this issue and send in your proxy as soon as possible. We believe that more members will be exercising their voting rights in 1988 than ever before.

NEW MEMBERS
During the past few months more than 700 new members have joined our Society. I am pleased to extend a welcome to them on behalf. We trust that they will enjoy their membership in the ROYAL, Canada’s largest philatelic society. I am personally looking forward to meeting many of our new members at our convention and at various philatelic events around the country. At this time I wish to extend our Thanks to Canada Post Corporation for their assistance in our recent membership drive.

TRANSLATIONS
A number of our members have enquired about the probability of securing English translations of articles appearing in the The Canadian Philatelist in the French language. Unfortunately this is not possible. The costs of securing professional translations are prohibitive. We would be pleased if some of our members had the time and could volunteer to translate an article from French to English. We could then make copies available to our members. We would certainly acknowledge any assistance in a prelude to the translation.

We also have what appears to be an excellent thematic article submitted for publication in our journal. It is in the German language and needs to be translated into English. Do we have any members who could help us? In the past we have received similar articles in Spanish and in Italian. We should have volunteers available in the future in one of these languages. Please write to me or drop a line to the office.

40th ANNIVERSARY
This year the Lakehead Stamp Club of Thunder Bay, Ont. will celebrate its 40th anniversary with its annual exhibition scheduled
for March 31, April 1 & 2nd, 1988. It will be held at the Thunder Bay Art Gallery on the campus of Confederation College.

We have just received the Lakehead’s 1986-7 annual report. As usual it is one of the best and perhaps the most attractive of those received from our chapters. The 16-page report is housed inside a very attractive cover. The club reports that membership has increased capping a successful year of stamp collecting activities. For many years the Lakehead boasted that every member was a member of the Royal Philatelic Society of Canada. Whether this still applies or not we do not know but its nice to see R.P.S.C.

members names such as Burt Foster, David Pugh, Margaret Looney, John Suzick and Edith Dombrowsky still active in this energetic club. Our hearty Congratulations to another R.P.S.C. member Arthur Sparks, the 1986-7 president, and his executive officers.

(The Lakehead Stamp Club meets twice monthly on the second Wednesday and the last Friday at 7:30 p.m. (except July and August) at the E.M.O. Building, corner of Victoria and Waterloo Streets. Visitors are always welcome. Membership is about 100.)

SEE YOU AT ROYAL 88

NOTICE TO MEMBERS
RE: PROPOSED CHANGES TO THE BY-LAWS OF THE SOCIETY

ROYAL PHILATELIC SOCIETY
OF CANADA

BY-LAW 1
BE IT AND IT IS HEREBY ENACTED as a By-law of the Royal Philatelic Society of Canada (hereinafter called the “Corporation”) as follows:

1. By-law No. 1 of the laws of the Corporation be and the same is hereby amended by deleting the provisions of paragraphs 10, 12 and 13 and by substituting therefor the following:

10. The directors shall be elected and shall retire in rotation. Following the election of directors held in the calendar year 1988, the directors will draw lots and one half of them shall be deemed to have been elected for a two-year period from the date of their election or until the second annual meeting of the members following such date whichever is earlier and the remainder of the directors shall be deemed to have been elected for a one-year term from the date of their election, or until the first annual meeting of the members following such date, whichever is earlier. So long as a quorum of directors remains in office any vacancy occurring in the board of directors may be filled for the remainder of the term by such directors as remain in office.

12. For any person to be eligible for election as a director the following procedure must be complied with: There will be a call for nominations for directors at the forthcoming Annual Meeting in the November/December issue of the Canadian Philatelist or such earlier issue as is deemed appropriate by the President. Nominations must be in writing and be made by and seconded by the members in good standing of the Corporation. The person nominated must consent to his or her nomination and such nomination to be valid must be received by the office in Ottawa or by the President by January 1 of the year in which the election is to take place. All nominations will be placed before the Nomination Committee, who will prepare a slate of directors for those nominated to ensure national representation based on levels of membership. The proposed slate of directors will be published in the March/April issue of the Canadian Philatelist along with a short biography of each nominee.

13. A single ballot of the meeting will be cast for the election of those selected by the Nomination Committee. Any director is eligible for re-election if otherwise qualified. A director retiring at a general meeting shall retain office until the dissolution or adjournment of such meeting unless such meeting is called for the purpose of removing him from office as a director in which case the director so removed shall vacate office forthwith upon the passage of the resolution for his removal.

2. Paragraphs 12 and 13 as enacted by this By-law shall become effective for the election of directors in the years 1989 and following.

ENACTED this 19th day of March, 1988

James E. Kraemer C.S. H. Sutherland
President Secretary

The foregoing was approved in principle by the members of the board at a meeting of the Board of Directors held in Toronto, Ontario, on November 14, 1987. It was felt that the matter was too important not to have the benefit of the views of all the directors who accordingly were asked to make their views known to the President.

The Board members have since indicated approval of the changes as outlined above. As a result the Board formally approved these changes at its meeting held in Aylmer, Quebec, on March 19, 1988. The necessary changes to the by-laws will then be submitted to the members of the Society for approval at the annual meeting to be held in Winnipeg, Manitoba, on June 18, 1988. Meanwhile a proxy in this issue of The Canadian Philatelist asks members to vote on the proposed by-law changes. Because of the importance of this matter an opportunity is hereby given for each member to vote for or against the proposal. The first election under the new rules would then take place in 1989.

Cancellations

(I) Three Unusual Toronto Cancellations

by Jay Edward

New technology and equipment at Canada Post mail processing plants has resulted in innovations designed to improve the flow of mail. One such development occurred in the 1975-1978 period, resulting in an unusual cancellation device which was developed at the South LPP (Letter Processing Plant) in Toronto.

The original idea was conceived by A.J. (Andy) Repol who operated an A/O (Autres Objets - Other Articles) (1) induction keying station as part of the automated postal plant. Due to odd sizes as well as irregular and oversize parcels being 'unmachineable', a need arose for a handy, readily available cancelling device. A hand-held canceller was developed consisting of a wrap-around 'Velcro' strap containing a cancelling device located on the other side of the palm. (2) Prior to the use of this canceller, uncancelled A/O’s were processed uncancelled although regulations required office identification and dates.

By mid-July 1978, ten of these special cancellers were in service and seven more were in stock. The canceller held a Porlon insert that could be replaced as wear occurred. In order to cancel an item, the processor would half turn his wrist and apply the cancellation. The device did not interfere with any of the other necessary operations in the A/O induction area such as keying and mail handling.

It was estimated that at the A/O stations out of a daily volume of over 71,000 A/O’s, 1,400 would require cancelling. The hand-held canceller was also used to cancel parcels and registers. Approximately two per cent of the mailing items arriving at the postal plants in Toronto required such cancelling.

Many studies were made and all seemed to go well in Toronto. Various time studies undertaken by the Industrial Engineering Branch of the South Central Postal Facility in Toronto looked promising. As a result the suggestion to officially approve the use of the hand-held canceller was forwarded to Headquarters in Ottawa. In the final analysis, it was felt that using the devise could prove ‘rather awkward’. It was pointed out that the table where the operator works is constantly moving and that there was no room for such equipment - the
operator needed to keep his fingers free to use the keyboard. Perhaps the problem was that people find it is not easy to change or adjust to new ideas. When the suggestion was rejected, the A/O section went back to using the antiquated roller canceller on the A/O's which were assembled for cancelling.

Three types of cancellations are known to have been used. It would be of interest to know how many examples are in collectors hands.

FOOTNOTES:
(1) A/O mail is described by Canada Post Corporation as articles or items other than letters, postcards or parcel post such as printed papers, small packets and literature for the blind in the international mail stream.
(2) National Postal Museum - File "Suggestion Awards", Suggestion #75-79.
(II) Montreal 21 Roller Cancellation
by Hans Reiche

The 21 Montreal roller cancel was used on early issues of Canada for two purposes. One main purpose was as a general postmark on mail, particularly parcels. Around 1890 and after, this cancellation device was used to precancel sheets of stamps prior to sale and use. Sheets of stamps were roller cancelled and sold to large mailing firms, saving the Post Office the time required to cancel individual piece of mail. The users believed that such mail moved through the system much faster since it did not require extra handling.

This postmark was initially used on the following stamps: 1 cent rose (No.14), 2 cent rose (No.20), 5 cent vermilion (No.15), 12½ cent green (No.18), 15 cent grey (No.30), 1 cent yellow (No.35), 2 cent green (No.36), 3 cent vermilion (No.41), 5 cent grey (No.42), 6 cent brown (No.43), and 10 cent brown red (No.45). The early issues, including the 5 cent Beaver, are not believed to have been precancelled. The Small Queen issue and the remainderers of the 15 cent Large Queen stamp have been found precancelled with the 21 roller, not only on genuine covers by on multiples of some of the Small Queens.

The 21 Montreal cancellation was a roller. The figure 21 is separated by five rows of variable length and a continuous row of dashes above and below the design. Details of the impressions on the 21 roller are discussed in the publication The Canada Precancel Handbook edited by the Precancel Committee and published by Unitrade Associates Inc., Toronto, Ont.

The Precancel Committee recorded all known stamps which are believed to have been precancelled with the 21 roller. These are found in the various overprint positions, such as normal, inverted, double, reading up or down, and triple. At the same time an attempt was made to determine valuations for these stamps using the quantities reported as a guide. No multiples are priced since these are scarce and few exist. The present market value was also taken into account. Since the new Standard Canada Precancel Catalogue (1986) lists only official issued precancels, the catalogue values listed below could not be included. Perhaps these retail prices will be of interest to collectors and will generate thoughts and comments.

(III) IPS 'Black Square' Cancellation
by Howard Tring

As a follow up to my letter on page 89 of the Mar.-Apr. 1987 issue of The Canadian Philatelist, (Vol. 38 No. 2), I now have more information on the "black square" cancellation reported then.

I spoke to a Canada Post employee at the Gateway Postal Facility in Mississauga Ont., and he told me the following.

The black square cancellation, with a white rectangle in the centre in which the date appears, is from one of eight MST Cancelling Machines now in use at Gateway. The square cancel is actually from a spare die for the machine. This die would not normally be used in production, only if all machines were needed to process mail and no normal dies were available. With the Christmas rush of mail this is what happened.

The MST Cancelling Machines are manufactured by International Peripheral Systems Inc., of Lewiston, Pennsylvania, U.S.A. I have seen trade classified ads recently referring to these cancels as IPS cancels.

My contact said that Canada Post has purchased approximately 100 of these machines to be used in Ontario. The normal circular dated cancellation is a larger circle than the older Pitney Bowes G machines. It appears the capacity of the IPS machine is higher than the Klussendorf machines. The Klussendorfs are used in the smaller town post offices with lower volumes of mail.

Mr. Alan Barnes, RPSC 23615, of Ottawa has also seen samples of the "black square" coming from Cornwall, Ont. and dated up to Dec. 24, 1986. Another member, Pierre Auger from Granby, Que., reports a copy mailed from Brampton dated Dec. 11, 1986. This is the earliest date known, and this was probably processed through Gateway in Mississauga. I thank them for their information.

If other collectors have come across examples of 'black square' cancellations, they may write: Howard Tring
82 Judith Cres.
Brampton, Ont.

German ‘horseshoe’ cancels can be found on covers or stamps from Prussia, North German Postal District and the first issue of Germany. The horseshoe cancel originated in Prussia but a forerunner of this cancel can be found on Turn and Taxis and to a greater extent on Wurtemberg stamps. This forerunner cancel is in the form of a stirrup. Wurtemberg took over the postal administration from Thurn and Taxis in 1851.

The stirrup cancel is actually a double ring which is cut off at the bottom and closed by a line. The lettering is always in Antiqua typeface in capital letters.

If one removes the bottom line of this cancel and rounds off the open ends, an early horseshoe cancel is formed which was used by the city of Cologne. The lettering of the horseshoe cancels is either in Antiqua or Grotesk faces.

The ornaments, usually located to the left and right of the city name, near the end of the cancels, can be found as stars, dots, circles, crosses, posthorns, triangles, leaves and rhombic designs.

In the centre of the cancel is a date and the time which often falls just outside, or below, the design.

The so-called ‘double carriage’ (Zweispanner) with one on the front and one on the back of a cover are items which collectors prize.

A total of 107 different cancels exist. These can be found on the following stamps within the time periods indicated:

- Prussia 1864 – 1867
- Lubeck, from 1866
- Saxony, 1867 – 1869
- North German Postal District, 1868 – 1874
- Alsace and Lorraine, 1870 – 1875
- Wurtemberg, 1874 – 1892
- Germany, 1871 – 1885

The usage period of each type is of interest and new early and late dates are still being found. It is also known that certain cancels, which were not used for a while, were brought back into use. The following cities made use of this cancel:

The size of the population of a city does not always indicate the cancel was used extensively. Other factors contributed to the use. Small cities with companies with extensive correspondence is one factor. The value of a cancel also depends on how clear the impression is. Partial impressions may be regarded as space fillers, but often stamps were mounted close to the cover corner and received only a part of the cancel.

DEALERS IN RARE STAMPS SINCE 1924

May we hear from you when you are ready?
Canada's First Airmail Stamps

by James E. Kraemer, F.R.P.S.C.

A peak into the older post office department files, most of which are now at the Postal Museum or at the Public Archives in Ottawa, makes interesting reading as well as giving us a deeper insight into the background associated with Canada's first official airmail stamps.

On the 28th of May 1928, Mr. L.J. Gaboury, the Deputy Postmaster General of Canada wrote to Peter R. Jack of Halifax, N.S. as follows "I am instructed by the Postmaster General to acknowledge your letter... in regard to aeroplane stamps... I have to say that the Department has not as yet issued any postage stamps for carriage of mails by aeroplane..." (1)

Two days earlier the Postmaster General was asked in the House of Commons as to whether certain "airways stamps" were issued by the Department. The Postmaster General replied that it was "a private issue and that the revenue went to the airways company". (2)

While questions from the public were answered along the lines noted above, the Canadian Bank Note Company in Ottawa was in fact working on an airmail stamp under orders from the Post Office Department. The General Manager of the Canadian Bank Note Company, Charles G. Cowan wrote to Mr. Gaboury on June 20, 1928 "Dear Sir - We wish to confirm having handed to you yesterday the model of the proposed bilingual Air Mail Stamp". (3)

---

The first four airmail stamps of Canada.
On July 4, 1928, the Department returned the proposed airmail stamp model to the company for "remodeling". The revised model was handed to Mr. Gaboury on July 11, 1928 for approval. The revised version was not approved until July 31, 1928. It was delivered by hand to the bank note company on the same day. (4)

Before Canada would issue an airmail stamp, an agreement had to be negotiated with the U.S. postal authorities so that each country would accept airmail stamps from the other country on the airmail routes in both countries. A new airmail rate of 5 cents for the first ounce and 10 cents for each subsequent ounce was scheduled to go into effect in the U.S.A. on August 1, 1929. The U.S. postal authorities had already issued a new airmail stamp. The Deputy Postmaster General of Canada reported to Mr. P.J. Veniot, the Postmaster General, under date of July 20, 1928 that - "satisfactory negotiations (with the U.S.A.) have just been concluded. — It is very urgent that we should proceed as rapidly as possible with the issuing of a Canadian airmail stamp".

On the morning of July 24, 1928 the Postmaster General gave instructions to issue the new airmail stamps. A copy of the announcement was prepared to be sent to the Ottawa Journal for publication that evening. Miss Mary Doyle, the Deputy P.M.G.'s secretary, sent a telegram just before lunch on the same day to Mr. Gaboury, who was in Montreal, asking him to call Mr. Veniot, the P.M.G. She asked if she should release the news that the Postmaster General had approved the new stamp and further advised that the P.M.G. wished the stamp released on Sept. 1, 1928. Mr. Gaboury sent a telegram shortly after lunch to Miss Doyle, to hold the announcement until his return the next day. Mr. Gaboury realized that it was impossible to have the stamp information released since it still had not been approved for printing. Although no date of issue or denomination was given, news of the P.M.G.'s approval of a new stamp soon appeared in the press. The result was a deluge of inquiries from philatelists asking for information on the new stamp. The Post Office Weekly Bulletin No. #388 dated Aug. 11, 1928 advised that a new 5 cent airmail stamp would be issued shortly and information as to which places (post offices) would have the new stamp on sale would be made known when the release date was announced.

The post office department was in a most embarrassing position due to the premature announcement. They could not give a date for issue of the new stamp since they had no date when it would be printed. It was also necessary to allow sufficient time, after a release date was determined for philatelists to arrange to secure the new stamp on the date of issue. The Department continued to advise inquirers that the stamps would be ready soon and due notice would be given to the public. The Canadian Bank Note Company was overloaded with work. The Department had ordered a regular issue of 12 values, a postage due issue of five values plus six more stamps for the Confederation and Historical issues.

The only Canadian paper on the European continent, Paris - Canada, in its Paris issue of Aug. 18, 1928 announced that "the Honourable Peter J. Veniot Postmaster General of Canada had authorized the issue of a stamp for a special airmail service to be used in connection with an inaugural airmail service Montreal—Schenectady—Albany".

Finally on Aug. 27, 1928, the die proof was approved and delivered to the Canadian Bank Note Company. Mr. Gaboury, on Sept. 4, 1928, sent the following letter to the Canadian Bank Note Company;

"Dear Sirs; Will you kindly deliver, to this department as soon as convenient, six mounted die-proofs of the new Air Mail stamp together with six die-proofs of the new King George Issue of 1928 and the Pictorial Issue of 1928".

On Sept. 8, the Department learned that the first consignment of approximately 200,000 airmail stamps would be delivered by the bank note company on Sept. 14 or 15. Circulars were prepared on Sept. 11 but were not despatched until Sept. 13. They read as follows:

"Announcement has been made by the Canadian Post Office Department to the effect that the new five-cent Canadian Air Mail Stamp will be available to the public at all City Post Offices in Canada on the 21st September. While no particulars have been given out regarding the design of this new stamp, its issuance at this time will doubtless be of considerable interest to philatelists throughout the world, particularly in view of the forthcoming inauguration of the first international airmail service between Canada and the
United States on the 1st October, on which date the initial flight will probably take place between Montreal and Albany, N.Y.

While actual dates are not definite, it is probable that a daily domestic air mail service between Montreal and Toronto will be inaugurated at the same time."

A second circular went to all city postmasters ordering that the new airmail stamps were not to be placed on sale before Friday Sept. 21, 1928. The Post Office Weekly Bulletin No. 393, Vol. 8 of Sept. 15, 1928 described the stamp and carried instructions as follows:

**Air Mail Stamp**

"Postmasters are informed that a 5 cent Canadian airmail postage stamp is now being printed and will be ready for issue at city post offices on the 21st September, 1928, and at other post offices as soon thereafter as possible. the stamp will be printed in sepia and will bear a design as follows: Map of Canada on a globe with two female figures joining hands over a panel bearing the word "air"; at the top an airplane; at the bottom figures 5 with the word "cents" between.

This special airmail stamp should be used to prepay all classes of airmail at the rate of 5 cents for the first ounce and 10 cents for each additional ounce for conveyance over the following airmail routes: Montreal - Toronto daily, except Sunday. Montreal - Albany, USA daily, except Sunday, and over any airmail route in the United States.

Ordinary Canadian postage stamps may also be used in Canada to prepay airmail for conveyance over any airmail route in Canada or the United States, but in all cases covers should be conspicuously endorsed "Via airmail"."
This airmail rate covers ordinary postage, but fees such as registration, etc., are additional.

Postmasters will please make requisition on the usual source for a supply of these stamps."

The Post Office Weekly Bulletin No. 394, Vol. 8 for Sept. 22, 1928 repeated the same message but added the following line:

"AIR MAIL STAMPS MAY BE USED ON AIR MAIL ONLY"

Since this was Canada’s first airmail stamp, there were bound to be questions. For example could the stamp be used for other postage purposes? Although general regulations had not been issued, the Department referred to the above line in the Weekly Bulletin and advised that the new airmail stamp was for airmail use only. Regular issue stamps were allowed on airmail letters. Critics started to write to the Department pointing out deficiencies in the design. A resident of Kamloops, B.C. pointed out that each of the angels had only one wing. The story was carried by the press across the country. Mr. H.E. Atwater, Financial Superintendent of the Department, asked the bank note company to check with their artist and report back to the Department. In reply the bank note company conceded that technically the comment was correct but pointed out that one wing was eliminated so as not to crowd and spoil the general effect. The penultimate paragraph in Mr. Cowans’ reply indicates that he found the remarks amusing. It reads as follows:

"I feel as you (Mr. Atwater) a certain modesty in discussing the habits of angels. It is possible that their powers are not cir-
Imperforate, horizontal sheet margin pair.

Imperforate vertically, horizontal pair.

Imperforate horizontally, vertical pair.

**Imperforate varieties of Scott C1 airmail**

cumslcribed and that they are able to fly with one wing better than most earthly winged creatures fly with two."

In a more serious note Mr. Cowan ends his letter as follows:

"I would respectfully urge that your correspondent use his imagination when regarding this stamp and that he should not check up too closely as to detail, a picture which to my mind conveys in a char-

C2 plate proof on card signed "L.J.G., 9th January 1930" and "C.G.C." (Photo: National Postal Museum, Ottawa).
Nevertheless, the new 5 cent airmail stamp had been released on September 21, 1928 in Canada's 36 cities. The cities were:

The Canadian Bank Note Company Ltd. of Ottawa produced 10 million of the 5 cent airmail stamps. Known to philatelists as Scott No. C-1, they were recess printed from two plates; Plate 1 and Plate 2 Serial No. 915A. The designer was Herman Schwartz (1885-1962), a designer-artist with the Canadian Bank Note Company. Perforated 12, the stamps were printed in sheets of 200 divided into two halves of 100 (10 x 10) in brown olive colour. By January 1929, 836,500 airmail stamps had been issued. (6) During 1929, 2,744,250 airmail stamps were distributed to 65 post offices of which 968,950 were returned as surplus, leaving 1,775,300 either sold or on hand in post offices. (7) Of the total number of stamps printed 2 million were later surcharged and the remainders numbering 2,950,000 were destroyed. (8) This would mean that in 1930, 1,328,200 of the stamps were sold, making the total number issued as 5,050,000.

There is one noted variety, position 4 on the U.R. Plate 2 showing a swollen right breast on the left figure. In addition to the plate proofs, large die proofs in sepia on India sunk on card exist. Of the plate proofs the Post Office

C3 essays: 12 different types of surcharge in black, red or blue exist overprinted 'Cancelled' in manuscript.
man Schwartz, Ottawa for Canadian Note Company. Canada Post personnel applied the cachets to the first flight covers. *The Philatelic Magazine Christmas Annual* published an article entitled, Canadian Air Mail Cachets, in which it extolled the designs of Canada’s airmail stamps and cachets. Concerning the Official First Flight cachets it stated “It is perhaps in the originality and excellence of design and workmanship of her Air Mail cachets that Canada may be said to lead the world”.

In 1930, the five-year contract for printing Canada’s postage stamps was awarded to the British American Bank Note Company in Ottawa. As a result, a complete new regular issue know as the Maple Leaf Issue was designed, including the 5 cent airmail. The new 5 cent airmail stamps, Scotts No. C-2, were recess printed in sheets of 200 (10 x 20) cut into 4 panes, (5 x 10). The design of the new airmail stamp, by Herman Schwartz, Ottawa, was described as follows “Hermes (Mercury) is shown speeding through space with a message in his left hand, the Caduceus in his right and wearing his winged cap, petaus, sandals and talaria. The globe in the background is surrounded by clouds.” The printing in brown was 900,000, all plate 1 and all were perforated 11.

In 1932, 500,000 of these stamps were surcharged leaving an issue of 400,000 as the total issue for C-2. The day of issue was Dec. 4, 1930. Essays are known in black and in olive. A small die essay in black, stamp size with the word “Post” at right instead of “Postage” is known (see illustration). Die proofs in the issued colour exist but are quite scarce. Imperforate plate proofs are rare. The airmail rate was raised to 6 cents effective July 1, 1931 but a 6 cent airmail stamp was not available.

On Nov. 27, 1931 the Department wrote to Donald C. Amos of Winnipeg who had complained that the airmail rate was 6 cents and a new 6 cent airmail was needed. In the letter, the Department advised that they would be overprinting “the present stock of airmail stamps in order to provide a temporary 6 cent denomination for airmail purposes.”

An airmail provisional stamp was not issued until Feb. 22, 1932. The British American Bank Note Company surcharged 2 million from Plate 1 and Plate 2 of the first airmail issue Scott’s C-1 by using an electrotype plate of 100 (10 x 10). This stamp became Scott No. C-3. Twelve essays of C-3 are known with different...

Surcharged varieties of Scott C3 airmail.

Inverted surcharge

types of surcharges in black, blue or red. They all have the word, “Cancelled”, in manuscript across the face. Four copies of each of the twelve different essays exist. Proofs are known of C-3 showing its selected type on white card. The swollen right breast of the left figure, position 4 on UR 2, is the basic variety found on this stamp.

A number of surcharge varieties of the overprinted stamp exist. The overprinting is known inverted, misplaced, doubled, tripled as well as in pairs with only one stamp showing the surcharge. Several authorities suggest that many of these varieties were released along with other stamps of a similar nature by a Canada Post Office official through a well known Ottawa

First official international flight in Canada, Montreal-Albany, N.Y., Oct. 1, 1930.
philatelist to a group of three wealthy collectors who financed the procurement and divided the loot amongst themselves. (9)

It is also known that a number of these overprinted varieties were exchanged with A.F. Brophy, a well known Montreal dealer, by a Canada Post Office official, A. Stanley Deville, for certain Canada classics required for the Post Office’s collection. (10)

When the Royal Family visited Canada in 1939, the Post Office Department intended to give King George the VI a complete collection of Canadian stamps, from the 3-pence Beaver stamp to date. The night before the presentation was to take place Mr. Deville examined the collection and noted that the pence stamps were defective but had been cleverly repaired. He withdrew the stamps of the Province of Canada including the pence stamps and King George VI received a complete set of stamps of the Dominion of Canada, 1867 to 1939. (11)

The stamps that were withdrawn became part of the Post Office’s collection and in 1971 were turned over to National Postal Museum for the Museum’s National Collection. Unfortunately it was found by Museum experts and the Museum Advisory Committee that only two values were of a satisfactory quality suitable for inclusion in the National collection.

Perhaps because the C-3 overprinted varieties came from the post office, forgers felt an opportunity existed to make up fake overprints on the genuine C-1 stamps. Comparisons with the genuine overprints reveal differences in ink and in the appearance of the faded overprints. A great many of these faked overprints are sold on the market as genuine. They are often referred to as the Frodel forgeries. The writer does not believe that Frodel, a Canadian forger and perhaps the world’s best forger of stamps, was responsible for these faked overprints. Andre Frodel was a paper expert, not a printer. Printed forgeries of the C-3 overprints originated in Vancouver, Winnipeg and Windsor. Guarantees of genuineness for faked C-3 overprinted stamps have also been forged. Philatelists are warned to tread carefully when acquiring these varieties.

In July 1932 an Imperial Economic Conference was held in Ottawa. Representatives of the United Kingdom, the Dominions and the colonies took part. To mark the occasion, Canada’s Post Office issued a set of three stamps. The values represented the domestic rate, 3 cents, the overseas rate, 5 cents, and the registration rate, 13 cents. In connection with the conference, a special airmail service was inaugurated between Ottawa and Belle Island, the last land fall for vessels going to Europe. This meant that ships that had left Quebec could pick up mail at Belle Island that was posted the next day in Ottawa. The British American Bank
Note Company surcharged 500,000 C-2 airmail stamps marked "Ottawa Conference 1932". They were surcharged by using an electrotyping plate of 100 subjects, (10 x 10). The first day of issue was July 12, 1932. This became Canada's fourth airmail stamp, Scott No. C-4. Proofs of the surcharge only, printed in black on white card are known. Two different essays are also known, one with surcharge only in black and the other with three bars instead of four, also in black.

On May 9, 1934 the Post Office Department announced that the following airmail stamps had been manufactured:

- 5c Airmail, Olive Brown 1928 5,500,000
- 5c Airmail, Brown 1930 400,000
- 6c Surcharged Airmail 1932 2,000,000
- 6c Surcharged Airmail 1932 500,000

Ottawa Conference

Although a need existed for an airmail stamp for use on letters weighing more than one ounce, the Post Office never issued a higher value airmail stamp. Many requests for a higher denomination airmail stamp had been received over the years. Finally on Wednesday, January 11, 1950 at a Regional Directors Conference the idea of issuing a 15 cent airmail stamp was turned down. The Regional Directors were of the opinion that for the most part, the only people interested in such a stamp were philatelists and there was no need for it. They failed to realize that the group with the most interest in having stamps equated to the proper rates were philatelists and that the general public, who also did not like the inconvenience, were apathetic or felt that there was little use in protesting to the Post Office Department.

IX. Freight Money

Frank Staff is generally credited with calling the attention of postal historians to Freight Money in 1956 with his book, *The Transatlantic Mail*. He discussed the carriage of letters by the pioneer steamers in Section E (pp. 155-7) and quoted the original announcements from the New York newspapers about the time that the *Great Western* was to make her second return trip to England in June 1838, that letters to be carried by her would be charged 25 cents per single sheet, and proportionally more for larger letters. He also gave the texts of the Canadian P.O. Notices of 26 December 1838, announc-
convenient arrangement had been a matter of speculation.

In the course of his research in the National Archives, Washington in early 1987, Richard Winter established unequivocally that the Philadelphia postmaster on 1 August 1838 was the first to propose the collection of this additional charge. The Postmaster General agreed to this on 9 August, and arranged for the New York postmaster to transmit the monies to the various companies. He stressed that this was to be a voluntary service as it was not followed suit, making his request of 11 August, and being sent approval on 6 September. The next few months had interesting further developments, which are described in some detail in his article in *The Chronicle of the U.S. Classic Postal Issues*, August 1987.

Winter also found that in parallel with the above, Thomas Stayner, Deputy Postmaster General for the Canadas, had written to his American counterpart, seeking some arrangement which would allow Canadians to pay the steamship charges so that they could also take advantage of the faster service. The New York postmaster was encouraged by his superior to work out a system with William Griffin, the Canadian P.O. agent at New York. On 17 September 1838, Griffin wrote to the USPMG to say that an arrangement had been made with the New York postmaster and the steamship agents. He reported that the Canadian postmasters at Montreal, Kingston and Queenston were to make up Mails for the steamships addressed to the care of their respective agents, and accompanied by special Letter Bills for the New York postmaster to check before transferring the Letter Bills for the New York postmaster to check before transferring the letter bags to the agents to be taken on board the designated vessel. At the same time, the American exchange offices at Lewiston and Cape Vincent were instructed “to pass unopened packets from Queenston and Kingston for New York, marked Steamship.”

The above arrangement was obviously overridden by Stayner, for in his 26 December 1838 circular he stated that “the Post Master in communication with the United States throu’ whom the letters are sent, will remit this Ship-money to me on the 1st of each month, in their usual way of remitting Post Office monies.” This is further confirmed in an article by Charles Hahn (*American Philatelist* September 1979), in
Letter mailed at Seymour East on 23 February 1839 with postage to New York and freight money prepaid, viz. ½ Cy. (Cdn. & U.S.), 12½ cents sailing packet freight money. Datestamped at Kingston, where “PAID” was struck beside the freight money and “PAID 183½” added to avoid any misunderstanding at New York. Carried to Liverpool by an American sailing packet and rated 1/7 Stg. postage due to London.

Letter mailed at Belleville on 22 May 1840 with charges paid, which are shown in both U.S. cents and Currency, viz. “U.S.P. 18¾ cents - 11½ - 7½; Prov. P. 7”, and totalled to 2/2 Cy. Datestamped at Kingston on the next day and “PAID” struck over the “U.S.P.” and “P.P.” to avoid ambiguity at New York. Carried to Liverpool by an American sailing packet and rated 8d Stg. postage due as a ship letter.
Letter dated 3 April 1840 mailed at Kingston with only U.S. charges paid, as Kingston was exchange office, viz. 12½ cents (freight money), and 18¾ cents (U.S.) Also a Liverpool Ship Letter with 8d Sg. postage due.

Letter mailed at Hamilton on 25 June 1840 with charges paid, viz. 25 cents ("Great Western paid 25"), and "PAID" 25 (U.S.) 4½ (Cdn.). Datestamped at New York on 30 June and carried by the Great Western on the same voyage as the Quebec cover on page 126.
which he quotes a letter from the Montreal postmaster dated 5 April 1830 to Abraham Bell & Co., the Transatlantic Steamship Co. agents, referring to one from Stayner to the company pointing out the reasons in favour of your allowing the proceeds (from the different Post Offices in the Canadas) to be concentrated in Quebec and remitted to you from thence as at first proposed. After maturely reflecting on the matter, I feel confident that you will continue the present plan as much more likely to insure satisfactory accounts and punctual remittances than any other."

Stayner had argued in his letter dated 30 March 1839 that the postmasters at the smaller frontier offices often cannot obtain the money to remit to New York; he did apparently direct the Montreal postmaster to remit the money directly to Bell & Co. This is considered to be the reason that Freight Money is never shown on letters mailed at Montreal, while it is from all other offices.

Allan Steinhart (American Philatelist, February 1984) has quoted another letter from Stayner to Bell & Co. in February 1840 acknowledging the agreement of the latter to a 12½ per-cent commission being allowed the Canadians on the Freight Money collected for them, instead of ten per-cent, which must have been the earlier commission. Stayner noted in passing that the sailing packet operators allowed a 20 per cent commission on their 12½ cent charge.

In a report outlining his sources of income, Stayner listed the "Commission allowed by the Proprietors of the American Steam and Sailing Packets, on their freight money collected in the Canadas, (5 per cent for the trouble and responsibility of keeping the accounts and remitting the money.)" The rest of the commission was retained by the receiving office postmaster.

The General Post Office in London only learned of the collection of Freight Money in the Canadas in July 1840 and immediately took steps to put a halt to it. However, because of some misunderstanding, either intentional or real, on Stayner's part, it took two directives from London to get him to issue the order of 4 December 1840 to stop its collection.

The different Canadian post offices showed Freight Money in a different way on the letters they handled and some examples are illustrated here. As noted above, letters from Montreal did not show Freight Money.

LE PAPIER ET LA PHILATELIE

par Richard Gratton, A.Q.E.P.

PARTIE #4
LES PAPIERS COMMUNS RENCONTRES EN PHILATELIE

Alors que nous avons étudié les papiers sécuritaires et les supports de fortune dans les parties 2 et 3 de cette série d’articles sur les papiers utilisés pour la fabrication des timbres-poste et des entiers postaux, nous traiterons aujourd’hui des papiers les plus souvent rencontrés en philatélie. Je tenterai de mettre l’emphasis sur des exemples de papiers qui furent utilisés par le Canada et les provinces pour illustrer cet article.

N’allez surtout pas croire que c’est un domaine plus simple que dans les deux dernières parties, bien au contraire! Il faudra encore plus que jamais, se servir de ses sens (vue et toucher) et même utiliser à l’occasion une lampe à rayons ultra-violets afin d’être en mesure de distinguer entre les différents types rencontrés.

Les différents types dont il sera question dans cette quatrième partie sont les suivants (le terme anglais le plus souvent utilisé est indiqué entre parenthèses):

- papier à base de fibres de chiffons (rag paper)
- papier vélin avec mailles apparentes (wove with mesh)
- papier vélin sans mailles apparentes (wove without mesh)
- papier gaufré (embossed paper)
- papier nervuré (ribbed paper)
- papier bible (India paper)
- papiers couchés (coated papers)
- papier glacé (glazed paper)
- papier bulle (Manila paper)
- papiers carton (carton papers)
- papiers lumineux (luminescent papers)
  a) fluorescents
  b) phosphorescents
  c) fluorogranités
- papiers pour enveloppes (envelope papers)
- papier à base de pâte Kraft semie-blanchie (semi-bleached Kraft pulp paper)
- papier pour aérogrammes (aerogramme paper)

PAPIER A BASE DE FIBRES DE CHIFFONS

Comme nous l’avons déjà vu dans la première partie de cette série (Volume 37 #2), les premiers papiers étaient fabriqués à partir de chiffons, car les procédés modernes n’étaient pas encore inventés. Lorsque l’on analyse les fibres constitutantes de vieux papiers on distingue habituellement entre ceux qui sont à base de fibres de coton et ceux à base de fibres de chiffons.

Les papiers à base de fibres de chiffons sont constitués d’un mélange de fibres de lin, de jute, de coton, de chanvre etc... Tandis que les papiers à base de fibres de coton contiennent uniquement des fibres de coton et sont rencontrés à l’occasion en philatélie, dans les timbres-poste plus récents.

Fig. 63

Le papier utilisé pour l’impression de la série de la Nouvelle – Écosse de 1860 est sur du papier chiffon (figure 63). Nous avons fait analyser les timbres-poste sur papier blanc et sur papier jaune et les résultats microscopiques confirment qu’il s’agit du même type de fibres dans les deux cas. Il s’agit cependant de deux papiers de couleurs différentes (un grisâtre et l’autre jaunatre) et cette différence n’est pas causée par la gomme, comme certains auteurs
l'ont prétendu, mais bien par un mélange fibreux de base de couleur différente.

Les papiers à base de chiffons furent donc très largement utilisés il y a un siècle pour la fabrication des timbres-poste et des entiers postaux, cependant aujourd'hui ils ne sont presque plus utilisés car ils sont trop dispendieux et ne se prêtent pas facilement à la fabrication sur les machines modernes.

**PAPIERS VELINS AVEC MAILLES APPARENTES**

Les papiers de type velin sont les plus rencontrés en philatélie, c'est aussi le type de papier dont la majorité des gens se sert à tous les jours. On distingue cependant deux types de papiers velins en philatélie: un type avec et un autre sans mailles apparentes. Le papier velin est généralement doux et possède une surface très égale et de texture uniforme. Sur les machines à papier anciennes, la toile sur laquelle était formé le papier, était constituée de mailles métalliques. Il en résultait que le papier formé sur ces toiles possédaient des petits points (losanges) opaques et clairs côte à côte: on peut observer ce fait lorsque l'on regarde de vieux timbres par transparence (figure 64 a, b).

Il existe deux types de papier velin avec mailles apparentes, soit le velin avec mailles horizontales et le velin avec mailles verticales, selon la direction des losanges, ce qui peut dépendre du sens où la feuille fut imprimée (sens longueur ou sens largeur de la machine à papier).

**PAPIER VELIN SANS MAILLES APPARENTES**

C'est actuellement le papier non couché le plus utilisé en philatélie. Ce type représente la très grande part de la production de papiers fins dans le monde, le meilleur exemple est sans aucun doute le papier à dactylographier. Il s'agit d'un papier possédant une texture et une surface très uniformes, cependant par transparence on ne voit pas de mailles apparentes. Les papiers velins viennent dans toutes les teintes de couleur possibles et sont généralement à base de fibres de bois dur et de bois mou, cuites selon les procédés sulfite ou sulfate et sont normalement blanchies à une biance de 85 et plus. Nous avons fait analysé la composition fibreuse de certains timbres-poste du Canada et les résultats furent les suivants:

Au Canada, en connaissant la composition fibreuse on peut généralement connaître le moulin à papier qui a fabriqué le papier à timbres, s'il s'agit d'un moulin à papiers fins canadien.

PAPIER GAUFRE

Les papiers à gaufrer possèdent une formule fibreuse particulière, à base de longues fibres de bois mou et contiennent dans leur formulation des agents de force interne tels amidons spéciaux ou résines. Ces produits empêchent le papier de se déchirer ou de se fendre lorsqu'il passera entre les plaques de métal de la gaufruse.

Il existe deux types: le premier c'est le cas où un dessin complet est gaufré dans le papier (figure 66 a, b). Le second, c'est où la surface complète passe entre un ou deux rouleaux gaufreurs et toute la surface est bosselée (figure 67).

PAPIERS NERVURES

Ce type de papier est aussi connu sous le nom de papier côtelé (repp paper). Ces papiers se reconnaissent par les nervures à leur surface. Ce côteillage est effectué lors de la fabrication du papier par une calandre à la section sèche de la machine à papier. (figure 68).

L'endos du timbre peut cependant posséder une surface lisse et il est intéressant de noter que le papier est plus épais dans les stries et plus mince dans les sillons.

PAPIER BIBLE

Ces papiers furent très utilisés pour la fabrication d'épreuves de planche ou de couleur, car il permettait de bien évaluer le travail de l'imprimeur. Il s'agit d'un papier relativement mince (généralement entre .0023 et .0027 pouce). Il fut utilisé entre Autres pour l'impression des bibles, d'où son nom. Il est mieux connu des philatélistes par son nom anglais d'India paper.

A l'origine il était fait à partir de fibres de coton et de lin, ce qui lui donnait une certaine force et rigidité, aujourd'hui il n'est presque plus utilisé en philatélie et il est fabriqué à partir de pâtes chimiques à base de sulfate et de bisulfite. L'opacité était souvent améliorée par l'addition d'un pigment blanc, soit cinq pour cent de bioxide de titane. (figure 69).

PAPIERS COUCHES

Les papiers couchés sont de plus en plus utilisés en philatélie canadienne. Le couchage est un processus par lequel le papier de base
Fig. 71

(papier vélin par exemple) est passé dans une presse qui contient une sauce de couchage, le papier absorbe une partie de cette suspension aqueuse d’un ou des deux cotés, dépendamment de l’équipement utilisé. Le papier de base reçoit donc une couche en sa surface et celle-ci est composée de produits tels: stéarate de calcium, amidon de blé ou de maïs, glaise de couchage, bipsyde de titane, résines diverses, colorants etc....

Pourquoi couche-t-on le papier? Tout simplement pour lui donner une surface lisse et réceptive aux encre d’imprimante, ou pour changer la couleur du papier de base, ou afin de lui donner une certaine opacité.

Le meilleur exemple d’un papier couché des deux coté pour un philatéliste canadien est sans aucun doute le PS 14 des Postes canadiennes (le dépliant annonçant les nouvelles émissions).

Tous les timbres-postes récents du Canada imprimés par le procédé de la litho-offset sont sur papier couché d’un coté (figure 70).

Jusqu’à dernièrement au Canada, le papier de base pour les timbres était fabriqué par la compagnie de papiers Rolland à son usine de Saint-Jérôme au Québec (figure 71). Ce papier était ensuite envoyé à une seconde usine de Rolland située à Scarborough en Ontario (figure 72) pour y être collé d’un coté et couché de l’autre. Malheureusement, cette dernière fut fermée en 1987.

PAPIER GLACE

Il s’agit d’un papier qui fut très hautement calandré et qui ne possède aucun produit chimique en surface. Il en résulte une surface très brillante et ce papier possède un très haut fini, sa surface est très lisse. (figure 73).

Ce type de papier est aussi connu sous le nom de papier satiné.

PAPIER BULLE

Ce type de papier est plus connu par son nom anglais “Manila paper”, il est fait à partir de fibres de plantes rencontrées dans les régions chaudes des Philippines, le chanvre de Manille. Le chanvre est une plante textile, à tige droite,
à feuilles en palmes, cultivée dans les régions tempérées et subtropicales. C’est un papier surtout utilisé dans la fabrication des enverroux postaux tels que les enveloppes et les cartes postales.

Ses fibres constituent des très robustes et résistantes à la déchirure et au pliage et sont donc idéales pour la fabrication des enveloppes (figure 74).

On le reconnaît facilement car il possède généralement un côté beaucoup plus lisse que l’autre. Ce papier se rencontre dans diverses teintes, les plus communes sont le brun pâle ou le blanc.

PAPIERS CARTON

Un papier carton se distingue principalement par son épaisseur, il peut être blanc ou de couleur, il fut surtout utilisé en philatélie pour l’impression des entiers postaux, notamment les cartes-postales. (figure 75) Il fut aussi utilisé par certaines administrations postales lors de pénurie de papiers ordinaires. Il existe aussi, un cas hors du commun où le papier carton fut utilisé: la Russie émit en 1915, des figurines dentelées destinées à être utilisées comme papier monnaie. Cependant, contrairement aux règlements postaux, celles-ci furent souvent utilisées pour affranchir le courrier. Ces timbres ne possèdent pas de colle au verso et furent imprimés sur un carton mince (figure 76 et figure 77 endos). L’inscription au verso signifie...
LES PAPIERS LUMINESCENTS

Depuis le début des années 1950, on utilise des azureurs optiques dans la fabrication du papier, dans le but principal de le faire paraître plus blanc.

Les papiers luminescents se divisent en trois grandes catégories, et on nécessite une lampe à rayons ultra-violets pour les analyser et les distinguer.

a) les papiers fluorescents:

Ce sont les papiers dont les fibres ou la surface réagissent complètement lorsqu’ils sont exposés aux rayons ultra-violets: ils deviennent plus brillants, cependant dès que l’on cesse l’exposition aux rayons de la lampe, ce type de papier redevient aussitôt à son état premier. Les niveaux de fluorescence sont variables en intensité et peuvent se classer en quatre groupes:

- faible fluorescence (figure 78)
- moyenne fluorescence (figure 79)
- haute fluorescence (figure 80)
- très haute fluorescence (hibrite) (figure 81, le 6 cents noir).

b) les papiers phosphorescents:

Ce sont des papiers réagissant aussi aux rayons de la lampe, mais qui continuent quelques instants à être luminescents une fois que l’on ait éteint la lampe. la Grande-Bretagne (figue 82) utilise ce type de papier ainsi que la Nouvelle-Zélande à l’occasion.

Les produits phosphorescents sont habituellement présents dans la sauce de couchage dont est revêtue le papier à timbre lors de sa fabrication.

c) les papiers fluorogranités:

Ce sont des papiers qui contiennent seulement une partie de fibres luminescentes dans la masse fibreuse et qui réagissent aux rayons de la lampe. On peut généralement distinguer 3 principaux groupes de ce type de papier:

- faiblement fluorogranité: de 1% à 10% de fibres luminescentes
- moyennement fluorogranité: de 10% à 50% de fibres luminescentes
- hautement fluorogranité: de 50% à 90% de fibres luminescentes

Lorsqu’un papier contient plus de 90% de fibres luminescentes, on dira qu’il s’agit soit d’un papier fluorescent ou d’un papier phosphorescent, selon sa réaction à la lampe U.V.

On rencontre très souvent ce type de papier
dans les timbres-poste de la série du centenaire de 1967. (figure 83).

PAPIERS BLANCS POUR ENVELOPPES

Ces papiers sont principalement fabriqués à partir de fibres de bois mou Kraft, blanchies. Ce type de fibres permet que l'on puisse plier le papier sans que celui-ci se déchire ou se fende, car il s'agit de très longues fibres de résineux qui sont très robustes. On ajoute en plus, lors de la fabrication de ce type de papier, un fort dosage d'agent d'encollage qui empêchera la pénétration des liquides à travers la feuille, donc même si l'enveloppe est mouillée un peu, la lettre à l'intérieur sera protégée. (figure 84).

PAPIER A BASE DE PÂTE KRAFT SEMIE BLANCHE

Ce type de papier fut utilisé entre autres par le gouvernement du Québec pour l'impression des entiers postaux du Ministère des affaires sociales. Il s'agit d'un papier de couleur jaune-brun et qui est à base de pâte Kraft qui n'est que partiellement blanchie. (figure 85).

Lors de sa fabrication, la pâte passe à travers un stage de chlorination, puis d'extraction à l'hydroxyde de soude puis enfin par un stage
de dioxyde de chlore, dans le but principal de lui extraire une partie de la lignine qui donne à la pâte sa couleur brune. On ajoute par la suite des colorants afin de rendre le papier de couleur jaunâtre, ce type de papier est très résistant et est moins coûteux que le papier à base de pâte Kraft blanchie à 100%.

**PAPIER POUR AEROGRAFME**

Ce type de papier, bien connu des collectionneurs d’entiers postaux, possède un poids de base très faible, est très mince et très opaque. On le retrouve habituellement dans une teinte de bleu (figure 86) mais aussi dans d’autres couleurs (figure 87). Le papier de ce dernier exemple fut fabriqué par la compagnie de papiers Rolland à son usine de Mont-Rolland au Québec (figure 88), en effet, le filigrane se lit comme suit: ROLLAND/CROYDON/AIR MAIL CANADA, sur 3 lignes.

On utilise une pâte spécialement raffinée, des colorants ainsi que du dioxyde de titane lors de sa fabrication.

**CONCLUSION**

Nous avons vu que les papiers ne se différencient non seulement par leur "composition interne" (i.e. la nature des fibres constituantes), mais aussi par la proportion de leur pigment de charge ou leur pigment opacifiant, par le traitement réservé à leur constituants cellullosiques (notamment leur degré de raffinage et leur blanchiment), mais encore par leur "état de surface" qui peut être différent selon qu’on a pratiqué une enduction superficielle (un emballage à l’amidon ou un véritable couchage), ou que l’on ait appliqué mécaniquement un apprêt physique (calandrage, lissage).

Dans la cinquième et dernière partie de cette série d’articles sur les différents papiers rencontrés en philatélie, nous parlerons des curiosités rencontrées dans le domaine des papiers ainsi que des propriétés des différents papiers et nous terminerons avec les erreurs et les variétés qui dépendent du papier et qui se retrouvent sur nos timbres-poste.

J’invite tous ceux qui ont des commentaires ou des questions à m’écrire au Casier postal 2078, Sainte Adèle, Québec Canada J0R 1L0. Prière d’inclure une enveloppe pré-adressée et pré-affranchie, si une réponse personnelle est demandée.

**REFERENCES**

- Autres références déjà citées dans les 3 premières parties.
A spectacular cover from the Neville Clifford-Jones Collection to be offered in our May 3, 1988 auction in Melbourne, Australia.

Our April 11-12, 1988 Great Britain sale in London will include an important collection of King Edward VII and King George V rarities including 1929 P.U.C. ½d to £1 imperforate presentation blocks of four.

British North American collections are regularly featured in sales held in New York, London and Bournemouth. Information about catalogs and consignment procedures may be obtained from each of the offices listed below. Our appointed philatelic representative in Canada, Mr. George S. Wegg, may be contacted locally for appraisals and sale information (Box 68, Station “Q,” Toronto, M5T 2L7).

OTTAWA ... HANS REICHE

A large number of dealers and collectors have recently complained that Scott has started to re-number countries such as Belgium and Greenland. They feel that all the work which they have done to identify and mount stamps has been wasted. They call these changes ridiculous.

Well, why cannot Scott re-number some countries to improve the listing which is often not very logical at all? Take, for example, the Scott Canada numbers. A mised alphamical listing is evident especially in the earlier issues and no logic is applied here. For the purpose of automating any such listing it becomes a nightmare. Sometimes main numbers are made into sub-numbers and sub-numbers into main numbers. Why? It is welcome news that Scott has started to re-number some countries and bring a little better order into the system.

One of the most extensive airmail collections ever recently came on the market in Germany. It contained 2,000 lots with stamps, covers, and related material. The earliest was from England dated 1784 for a cover which was carried by balloon and its suggested price was DM 2400. A second one from the same year came from Austria announcing air travel as safe on a balloon.

An interesting little booklet was noted recently with the title Niemals Wieder Kristallnacht (Never again a crystal night). This booklet shows all the stamps which depict synagogues, many of which were destroyed November 10, 1938 by the Nazis - 28 of them are illustrated. The booklet is a reminder of the Holocaust.

The 3-cent issue coil in purple has been found with what appears to be a doubling of the top. The 'doubling' shows up in the top margin in form of a row small dots above the design. It is the first time this has been noted.

Practically every auction catalogue contains some of the modern Canadian errors. The high value stamps are known with missing inscriptions, $1, 2 and 5 values as well as the $1.50 stamp.

On the $1 stamp, the press has reported a total of four sheets which have been found intact or with most of the stamps containing the error. This would make a total of 200 stamps. One more part sheet resides with a non-collector who gave the top ten stamps to one of his friends. Who knows when this one will come on the market?

Have you ever heard of a die proof with a watermark?

The auction of R. Maresch and Son in January contained a large die proof of the 6 cent Small Queen. It shows a watermark with two letters, 'AS'. This must be the first time that such an item has been reported. And this brings up one point. There are a large number of very well illustrated auction catalogues which are being issued by many auction houses here in Canada, the U.S.A. and Europe. It is impossible to subscribe to all of them, even though most of them are low-priced. The European catalogues are usually produced in excellent colour. The Canadian catalogues are well illustrated and most make use of a fine screen which allows good and clear reproductions. A review of these catalogues can be very rewarding as much information is contained in them which is normally not available in any other philatelic literature.

Many of the lovely specialized collections which are auctioned off contain new interesting materials. These catalogues contain a wealth of information and many are worth keeping as references. In addition, they give a much better picture of the stamp market than, for example, the Scott catalogues which are badly out of touch with reality when it comes to pricing.

Licensed & Bonded Auctioneers Established 1947

This, the 20th anniversary edition of Gibbon's very popular checklist edition, appeared in November and contains all U.K. issues through 1987. Prices have been reviewed and contain several updates since publication of the Concise edition in May and the Part 1 catalogue in August.

Of note are a number of Machins including obsolete high values such as the £1.30, £1.33 and £1.41.

Included, too are the basic 32-value Framaset which catalogues for £2.22 mint and £2.52 used.

We can't think of a collector of G.B. stamps who would be without the Collect British Stamps at a show or bourse as he/she visits dealers for those elusive Machin phosphors or Victorian plates and checks them off as they are purchased. Though designed mainly as a checklist, Collect British Stamps could also serve as an introductory listing for those just embarking on a collection of fascinating Great Britain.

JPH

Specialized, yes, but catalogue is really a misnomer. This, like most Gibbons specialized catalogues (we use the North American spelling of 'specialized') is really a handbook.

G.B. Elizabeth II pre-decimal issues provide collectors with a wealth of opportunity for philatelic study and the Gibbons catalogue has recorded much of what has been found.

Of particular note is a new separate section for Wilding booklet panes with separate numbering for white and cream paper printings. Imprimatours for National Postal Museum sales are listed but not priced. An appendix gives postal rates.

This Gibbons catalogue sets the standard for English-language works. Its comprehensiveness is something to behold, a tribute both to the abilities of its editors and the tremendous study of British stamps that's encouraged from the British Post Office, stamp collector organizations in the U.K. and by individual collectors. While British stamp-printing methods do tend to produce more varieties than in Canada or the U.S., there are no catalogues in North America that compare in the breadth of intense detail that's available in the Gibbons series. We note that several Canadian catalogue publishers have attempted to become more specialized in recent years but their efforts thus far pale by comparison to these definitive Gibbons works. A look at this and similar Gibbons volumes shows how far they've yet to go, even in properly listing such well-studied stamp series as the 1967 Canadian Centennial series. As for collectors of G.B., we envy them the tremendous resource they have at their fingertips through the Gibbons series.

JPH

CANADIAN MILITARY POST OFFICES TO 1986 by W.J. Bailey and E.R. Toop, published by The Unitrade Press, 127 Cartwright Ave., Toronto, Ontario, M6A 1V4, 15.1 cm x 22.8 cm (6" x 9" approx.), 96 pages, 70 black and white illustrations, softbound, $14.95 from your favourite dealer, bookstore or can be ordered from the publisher. All orders directed to the publisher should include $1.50 to cover postage and handling.

This is the first handbook and checklist of Canadian Military post offices. The work is basically divided into two parts, the first part being a complete listing of Canadian Military
post offices in Canada and throughout the world while the second part, Appendix Three, is a checklist of Canadian Military cancellations.

The illustrations are sharp and clear. The content itself covers the period from 1886 when Canada's first military camp postmark appeared, to 1986, 100 years in all. This reviewer sample checked the chronological listing for completeness and accuracy. One of the large military establishments that I checked was Newmarket which of course was not listed since only a civil post office was used. The listing appears to be complete. Opening and closing dates are given for each post office, if known.

Prisoner of War and Internment Camp cancellations are included.

While there is some debate concerning the location of one or two of these camps, further research generated by the publication of this book will likely resolve these questions.

If you collect Canadian Military postmarks or are interested in Canadian postal history you will want to have a copy of this handbook in your philatelic library.

The Royal Philatelic Society of Canada lapel pins are available from the R.P.S.C. National Office, P.O. Box 5320, Station F, Ottawa, Ontario K2C 3J1.

Price is $5.00 each and includes mailing.
WANTED TO BUY

2. Canadian Revenues: collections, accumulations.

3. Early Canada Covers: Scott #1 to #103.

4. Any newly discovered Canada postage errors and varieties; colors missing, imperfs., part perfs., misplaced perfs., etc. In the past 30 years have purchased over $2,000,000.00 net worth. See my booklet, "Some Canadian Errors". Price $6.00.

All above to any amount for prompt cash. Write first stating what is for sale. Selections of above for sale. Yes, even a nice 12d on cover is available.

* * *

Memo: 1985, 50¢ booklets. What varieties found in these, would you have for sale? Wanted; any flaws, untagged booklets, etc. If not for sale describe what you have. I'll be publishing a catalogue of these fascinating booklets.

Memo: Canada fine used 1951 onwards. Am interested in small or large used supplies, especially of the odd and better values. This includes used booklet panes, coils, etc. Not particularly interested in buying such for cash as a great deal of work is involved in sorting and grading the stamps for the market. Will take small or large lots on an agreed net basis, the proceeds to be used in purchasing whatever is needed for your collection from my selections. Write first with some sort of an outline of what you may have.
