THE PRESIDENT'S MESSAGE

BY THE TIME this number of THE CANADIAN PHILATELIST is in the hands of our members, the New Year will be well on its way and, inevitably, our thoughts will turn to the Society's Annual Convention and Exhibition, to be held in Windsor on the 26-27-28 April, under the auspices of the Windsor Y Stamp Club.

The Windsor Club is out to make the Convention a great success and the Exhibition an outstanding one in the annals of Canadian philately. I would earnestly entreat all our members, from coast to coast, to support our Chapter No. 2 and to send along a fine exhibit. The Windsor Club is a small club as far as clubs go, but it has some of the most energetic and competent organizers that we know of and any exhibit sent to them will be competently taken care of, shown and safely returned. This issue of CP contains the prospectus and an entry form. Please read them, fill in the entry form and send it immediately, and then set to and prepare your exhibit. Let us see more of those outstanding collections from the West and the East, that we never see around here. And let us also have a few exhibits from our numerous friends from across the border. We do NOT want an Exhibition containing nothing but Ontario exhibits.

And incidentally, as many of our members know, a Windsor Convention means a good time for every one. So plan to-day to be there and we shall be looking forward to meeting a greater number than usual of our members. "TO WINDSOR IN APRIL" is our slogan to-day.

Lorsque nos membres recevront ce numéro de THE CANADIAN PHILATELIST, la nouvelle année sera bien avancée et, inévitablement, nous songerons au Congrès et à l'Exposition qui doivent avoir lieu à Windsor les 26-27-28 avril prochain, sous l'égide du Windsor Y Stamp Club.

Le club de Windsor tient à faire du Congrès un grand succès et de l'Exposition, une des plus remarquables que le Canada ait jamais eues. Je prie donc tous nos membres, d'un océan à l'autre, d'appuyer les efforts de notre "chapter n° 2" et de nous envoyer quelques belles pages. Le Windsor Y S.C. n'est pas des plus grands, mais il a l'avantage d'avoir un groupe d'organisateurs d'une énergie formidable et d'une très haute compétence. Vous trouverez dans ce numéro le prospectus de l'Exposition et le bulletin d'adhésion. Veuillez les lire, remplir le bulletin et l'envoyer sans retard. L'Exposition annuelle de la C.P.S. doit montrer des pages qui proviennent de tout le Canada et non pas de l'Ontario seulement.

Entre parenthèses, comme nombre de nos membres le savent déjà, un congrès organisé par le club de Windsor est fort agréable pour tous ceux qui y assistent. Projetez donc d'ores et déjà d'y assister. Nous nous attendons à y rencontrer un plus grand nombre que d'habitude de nos membres. A WINDSOR EN AVRIL! Voilà notre devise aujourd'hui.

L. M. LAMOURoux,
Président.
Make an Attractive Sideline Collection

By REG. HALDIMAND

IN THESE DAYS when sidelines are becoming increasingly popular with collectors the Swiss “Soldier Stamps” are gaining many adherants. They are colourful and of special interest to the thematic collector of military and other subjects, but it must be remembered, they are not postage stamps.

The first of the Swiss “Soldier Stamps” was issued during World War I in June 1915 to raise funds for welfare work. Military units took up the idea and altogether some 300 different stamps were issued during that period. They were issued by the Regimental Paymasters and the funds from their sale were devoted to provide recreational facilities in the unit as was carried out by the National Voluntary Service Organizations for the Canadian Forces, and to provide funds for helping the families of men in special need of assistance.

By Swiss Military Law, service is obligatory for all mentally and physically fit, and during the two Great Wars it was necessary for the Swiss to call up large numbers of men to guard their frontiers. Army pay was very small and many families were left practically destitute. Thus the need for providing funds for this purpose during World War I.

The stamps were sold by the Regimental Paymasters and could be used on soldiers’ letters which were carried free both to their families and other civilians and on mail sent to soldiers on active service which was also carried free. With a few exceptions Swiss “Soldier Stamps” do not carry any denomination, their selling price being fixed by the Regiment’s Commanding Officer.

The stamps were cancelled with the units’ cancellation and stamps used on cover are especially sought after by collectors.

During World War II, although special organizations were taking care of the families of soldiers in distress, there were many other demands for funds for providing recreational and other amenities for the troops and Military units again issued “Soldier Stamps” for this purpose. About 2750 different varieties were issued during World War II.

A special catalogue of these colourful labels has been issued in Switzerland. As the letters on which they were used were carried free these stamps can perhaps be likened to semi-postals where the sur-tax is devoted to a particular charity.

Another interesting sideline are the Swiss Hotel Stamps which have a similar status to locals. They were used by some resort hotels on mail originating at the hotel and were intended to reimburse the hotelkeeper with the cost of conveying visitors’ letters down to the nearest post office for inclusion in the mails.
NOTES FROM WINDSOR STAMP CLUB

Our last meeting, held December 5, had present among our regular members a number of visitors including honorary member Don Heath, Director at large of A.P.S. and Mr. Bob Wolley from West Toronto Stamp Club. Mr. Heath favoured us with a talk on A.P.S. and at the close of his talk we made application to join A.P.S. as a society. Bob Wolley sent his regards from the West Toronto Club and presented a brief talk on the new “perfins” catalogue and captured the interest of all present.

Plans for the C.P.S. exhibition and convention to be held in Windsor in 1956 are progressing favourably and it has been announced that the Prospectus has gone to press and will be available in the near future for all those who might require the same.

SEAL COMMEMORATES 100 YEARS OF DALLAS, TEXAS GROWTH

A Gold Seal commemorating 100 years of growth in the City of Dallas, Texas has been originated and will be used on covers mailed from “Big D” during the anniversary in February.

The seal is gold and black. Super imposed over a sketch of John Neely Bryan’s Log Cabin and the present Dallas Skyline are the words “100 Years”. A circle around the outside of the seal reads “City of Dallas 1856-1956”.

Covers bearing the Gold Foil gummed seal will be mailed from Dallas, Texas on the anniversary date. Collectors wishing covers may receive them by sending their name and address and 15¢ in coin for each cover. Both types of seals will be enclosed with the cover if 10¢ additional in coin is sent.

Collectors should air mail their requests immediately to George H. Goldey, P.O. Drawer 577, Dept. CP, Canton, Texas. Extra covers will be processed for late comers.
Popularity Poll of Canada's 1955 Stamp Issues
by Stanley Shantz
Stamp Editor. The London FREE PRESS, London, Ontario

FREE Press readers of STAMPS have decided that Canada's Boy Scout stamp was the most attractive of Canada's eight 1955 stamps. Second place was given to the ICAO stamp but the Scout's margin over ICAO was a small one. Similarly the Whooping Crane and Eskimo stamps were placed in third and fourth positions with only a slight margin between them. The Saskatchewan-Alberta issue was an easy fifth with the Muskox in sixth spot and the Bennett and Tupper issues bringing up the rear in that order.

The Result
The actual poll, with one vote accorded for a first place vote, two for second and so on, resulted as follows:

The Winners
Now for the winners in the poll. Only one person out of more than 200 who submitted entries listed the stamps in the exact order as determined by readers' votes. He was C. Lorne Hessel, 53 Tecumseh Ave., east, London, who now has first choice of the three prizes offered, 2,000 different of the world, 200 different of Canada, or the complete Singapore Queen Elizabeth mint set.

Second prize goes to Marion Peacock, 48 Raywood Ave., London, who listed the first six stamps correctly and erred only by transposing the last two. So she has second choice of the prizes. And the third prize goes to Lois Clifton, 708 Elias St., London, who has also placed six correctly but had the positions of No. 6 and No. 8 switched.

Honorable Mention
Seven others also had six stamps in proper position but with positions nearer the top interchanged. The judges ruled that entries which had the top stamps in proper order should have preference over those who missed the higher placings.

The seven who thus earned honorable mention were Fred Burchell, 813 Cromwell St., London, No. 1 and 4 switched; A. O. McMurtrie and Wes Thompson, both of Sarnia, Helen M. Cole, 50 Bruce St., London, and Grant Showers, 309 Vansittart Ave., Woodstock, all with No. 1 and 2 switched, and Richard Holtof, 177 Park Ave., W., Chatham, and Dan Baxter, 396 King St., West, Chatham, both with No. 1 and 3 switched.

ADVERTISERS PLEASE SAY YOU SAW
IT IN THE
CANADIAN PHILATELIST
The Realm Of Stamps

By Montor

IT IS NOW some twenty years since Austria first honoured "The Day of the Postage Stamp" by the issue of a special postage stamp to mark the occasion. Stamp Day was designed not only to mark a philatelic event but also to initiate the layman to the cultural value and charm of stamp collecting.

Many other countries have followed this lead and now commemorate with a special stamp "The Day of the Postage Stamp" year after year. An interesting collection could be formed of stamps honouring Philately in this way.

In Europe far greater appreciation is given Philately than in this country just as there is a far deeper appreciation there of the Arts. There are relatively far more stamp collectors in Europe than here and far more has been done to encourage interest in the subject than ever has been attempted in Canada.

However probably at no time has Philately been more popular than it is in Canada today. It is difficult to assess the number of collectors in this country as by far the greater proportion take no part at all in organised Philately and so thereby fail to derive a great deal of additional pleasure in their chosen hobby.

Today most countries accord Philately a fair measure of recognition either by issues of special stamps, arranging first days to coincide with Philatelic events or allowing the use of special cancellations for Philatelic conventions.

Canada is comparatively still a young country and as it matures so will the interest in Philately increase. The ranks of the new Canadians contain a high proportion of stamp collectors many of whom are experts in their own fields and these new citizens are bringing with them a wealth of knowledge and appreciation which is contributing largely to the raising of the standard of Philately in this country.

The demand for the early issues of Canada is so great that unfortunately the attention of the stamp repairer has been turned to these stamps and there is a fair amount of this doctored material in circulation. During recent years there has been a steady flow of Canadian material from Europe, much of which has been tampered with, either repaired, regummed, or reperforated and even proofs have been doctored up to appear as the issued stamps themselves. Lately this flow seems to have increased in volume and collectors are warned not to be taken in with this material.

Generally speaking these stamps would not deceive anyone really familiar with these issues but there are many new collectors, who, although they may be mature in years, have not the knowledge that is only acquired through years of study.

Quite naturally these dubious items are among the higher priced stamps so the junior or ordinary general collector is not likely to be affected.

This is written not with any intention of exaggerating the situation in any way but as a simple warning that there is quite a lot of this material about and that careful examination is essential unless the stamps are obtained from an absolutely reliable source.

It is unfortunate that these tampered with items should be in circulation as they can only be harmful to philately and might well be the means of disgust a new collector with stamps for life if he or she should be taken in by purchasing them.

More and more men in middle age have turned to stamps on the advice of their doctors and friends as an escape from the high
pressure of modern life and it is to these new collectors, many of whom make substantial investments in their collections, that these remarks are primarily directed.

One point worth remembering is that choice items of early Canada have a ready market at good prices so it would be as well to look askance at rare items offered at bargain prices. Expensive stamps should not be bought in any case except from a reliable dealer or without proper examination.

The early classics are often encountered with repairs which will defy detection by only a cursory inspection. The repairing of really valuable stamps is a subject of much controversy. The only point being made here is that collectors should not be taken in by buying a repaired item believing it to be a sound specimen.

As to the question of re gumming. Often stamps which have been pencilled have had the pen marks removed and have been re gummed and offered as mint. In many cases the gum is too bright and shiny to deceive the expert but can deceive one not familiar with the look of the original gum. After all only few have ever handled Canada’s classics with full original gum! The re gummed stamps generally look too fresh. In fact they look too good to be true.

One occasionally comes across copies of the Large Queens stamps which have been reperforated on one or more sides. They are generally easy to spot as they appear smaller than the normal stamps. Copies of the 3d. Beaver made to look like the scarcer perforated stamp are also to be found.

Proofs have been doctored up to simulate the issued stamps and either offered as unused or with faked cancellations.

Likewise there are quite a number of cork cancellations going the rounds, especially on the Small Queens, which are not authentic, many of which are undoubtedly just the figment of some practical jokers’ imagination.

The second edition of “British Colonial Stamps in Current Use” comprising historical, geographical, and general information obtained from official and other reliable sources and compiled by R. Courtney Cade, M.B.E., of the Colonial Office, has just been issued.

It has been considerably enlarged and improved since the first edition was published in October, 1950, and it should be in the hands of every collector of these issues.

The handbook consists of some 150 pages, profusely illustrated, describing the stamps in use and brought up to date to the end of October and contains details of population and currency and an excellent map of the world showing the location of the territories of the stamps described in the text.

Besides illustrating the designs of the stamps there is a wealth of information in the description of the subjects depicted on the pictorial stamps and for those interested in postal markings there is in many cases a list of post offices in the various territories. This excellent handbook cannot be too highly recommended and is especially of value to the Junior providing as it does a great deal of information in concise and interesting form about the British Colonial territories.

It would be a valuable addition to every Public Library and School Library in the country.

Priced at $1 post free copies may be obtained from the Crown Agents Representative, 1800 “K” Street, N.W., Washington, 6 D.C., U.S.A.

The United States Post Office Department publication entitled “Postage Stamps of the United States” is being revised and brought up to date. The new edition will contain all issues of postage stamps from July 1, 1847 to December 31, 1955. It is expected that the new edition will be ready for distribution early in 1956.

STAMP DEALING FOR PLEASURE OR PROFIT

We have quite a few fellow collectors planning to set themselves up in business as stamp dealers, generally "when they retire". Here is a book they should obtain, read and digest before taking any steps to implement their desires.

They will learn therein what are the fundamental requirements for success in the stamp business. A deep knowledge of stamps generally, a fairly hefty capital, plenty of merchandising ability.

The book examines exhaustively the numerous problems which beset the man who sets himself up as a stamp dealer and endeavours to indicate to the neophyte just how he can try to solve them.

However, we are much afraid that in spite of all the good counsel in this book, many will still try to start up in business on the assumption that no capital is required and that knowledge as to what plate blocks are scarce or not is all that they need. Numerous will be those who will fall by the wayside.

NOTE—This is in the C.P.S. Library and may be obtained from Mr. Herbert Buckland, Box 252, Port Perry, Ont. on the usual conditions.

U.S. GRAF ZEPPELIN STAMPS

For a quarter century now the 1930 Graf Zeppelin air mail series of the U.S. has been considered a "money" issue by most collectors. It's a series the collector shows with pride if he has it in his album and if he doesn't have the set he dreams of owning it some day. If the collector happens to need money his "Zeppelins" are usually the first stamps he tries to turn into cash because the Graf Zeppelins enjoy a consistent demand.

The 65c, $1.30 and $2.60 air mail stamps were issued by the P.S. Post Office Department April 19, 1930 to provide air mail denominations needed for mail carried by the Graf Zeppelin on flights between Germany and the United States via South America.

Not Popular

It can't be said, however, that the collectors of 1930 liked the Graf Zeppelin series. There was plenty of criticism of the stamps in the philatelic press. Their issue was considered completely unnecessary in many quarters and it was freely said that their issue was a raid on collectors' pocketbooks.

When the series was placed on sale postal authorities announced the stamps would remain on sale until after the Graf Zeppelin left on its return flight to Europe. After that, it was announced, unsold supplies of the stamps would be returned to Washington and destroyed.

Sale of the three stamps of the 1930 Graf Zeppelin series was halted June 30. Shortly after that postal authorities reported the unsold stamps had been destroyed and announced that the total numbers issued for each denomination were as follows:

- 65c - - 93,536
- $1.30 - - 72,428
- $2.60 - - 61,296

What Have You Got?

1. We can possibly help you in filling up some C.P.S. Sales Books. If you can let us know what you have and may be we can arrange for a service charge. In most cases the member has good intentions but hasn’t the time.

2. We could use a good Canada and Br. Empire collection for filling up some books. Have you anything to offer? No common material is wanted. Please give particulars.

3. We have the most popular Sales Books going the rounds. So they say! Our sales prove this point and we must keep the pot boiling.

4. Since I have retired from business I find the job still more interesting and getting still better results. If you glance at another page in this "Philatelist" you will see this year’s results for the first 8 months.

5. Well have a happy New Year of stamp hunting and buying.

1. We note an increase over the corresponding months one year ago of $3,776.00.

2. The excitement, no doubt, is due to continued enthusiastic stamp collecting and the demand for good material.

3. We have such material in our "Popular Sales Books" and many sales are made in the higher category from $1.00 to $50.00 items.

4. We are continuously crying for more books to replace the quickly sold books.

5. Your Sales Manager is retired from business and giving the Dept. 100% of his time.

6. We must keep hundreds of members happy in addition to 46 Chapters.

7. How does he do it?

8. If you are one of the many new members recently joined up with us don't hesitate to write to me.

9. It's up to you. Do it to-day!

10. Blank Books $1.00 per doz. including postage.
