Famous Stamps

CANADA 7½ d. of 1857
DEAR FRIENDS:—

Mr. Ramsay Strachan, well-known wholesale dealer from Brighton, England, visited us during the November 15th weekend. With him was his beautiful 19 year-old daughter, Jennifer, enjoying her first trip to America. Certainly if Ramsay needed any sales help he brought along the right attraction. We had a very nice time and naturally I bought a lot of stamps. On Sunday, November 17th. Mr. Strachan, Mrs. Martin and I flew to New York to attend the first American Stamp Dealers’ Association Bourse. This was held at the Vanderbilt Hotel on November 19th and 20th and over 80 dealers from many countries had tables. Attendance was only for dealers. I enjoyed meeting many friends from England, Sweden, Israel, South Africa and of course all parts of the United States. The A.S.D.A. held a cocktail party and dinner at the Vanderbilt for about 300 members and visiting dealers and their wives. It was really a delightful evening with lots of stories (some not about stamps) entertainment and good fun. Congratulations, Bob Siegel, President, and Pete Kellar, Executive Officer of the A.S.D.A.

During the whole week of November 17th to 24th the Vanderbilt Hotel was crowded with stamp collectors and dealers. In the elevators, lobbies, bars and private rooms there was so much wheeling and dealing in stamps that I’m sure all readers would have been in their glory, that is, if your pocket book could stand it. At the breakfast table I bought some stamps and on the way up to my room sold them on the elevator to another dealer. For the right type of stamps, dealers were paying tremendous prices. The stamp market sure looks good.

A second show was held later in the week. The 15th annual National Postage Stamp Show, under the sponsorship of the American Stamp Dealers Association. This was held November 22nd to 24th at the Armoury on 34th Street and Park Avenue, across the road from the Vanderbilt Hotel. I was inspecting the show on Friday, when the terrible and unbelievable news of President Kennedy’s assassination was announced. Never before have I seen stamp collectors and dealers speechless. There was hardly a murmur in the huge hall. About 4,000 people all silent, many with tears, everyone shocked and sad. The show remained open and the total attendance was 62,000.

On Monday night, November 25th I was guest speaker at the Grand River Association meeting, held in Brantford, Ontario. A large number of enthusiastic collectors were in attendance. Active buying and selling and also trading took place. They were very friendly, and made my visit most enjoyable.

On Thursday night, November 28th I gave a belated talk at the North Toronto Stamp Club. I knew most of the members and was glad of the opportunity to attend their meeting.

What have I bought recently?

The MacKenzie Naught accumulation, strong in Great Britain and old covers of the world.

A mixture of Ecuador from a mission in Quito.

A small 4 volume British Colony collection.

A large accumulation of mint Canada—many sheets and plate blocks, as well as a nice lot of older issues.

Some complete sheets of New Brunswick—these are not high priced but scarce now in full sheets.

A valuable stock of mint British Colonies with older Victoria and Edwards.

I would like to take this opportunity of wishing you a Very Happy, Healthy and Prosperous New Year.

Philatelically yours,

[Signature]

The Editor Speaks Out...

OUR READERS will find great interest in the article by Dr. Byam on another page on the origin of the CAMEL stamps of the Sudan. We noted this article at the time of its appearance in STAMP COLLECTING last February and, in the meantime, we got into touch with Henry Whittaker, F.R.P.S. L., one of our leading specialists in the stamps of that country, who kindly lent us the photos which are reproduced in the article in question.

In the meantime, the author of the article, Dr. William Byam, O.B.E., F.R.P.S. L., passed away and we were grieved to hear the sad news, as Dr. Byam was one of the foremost philatelists in Great Britain and his loss will be keenly felt there.

☆☆☆

Our own Club, the North Toronto S.C., held a donation auction recently, in aid of the Club funds and among the lots offered, there was an odd lot of ten or twelve copies of THE CANADIAN PHILATELIST of the past year or so. This lot fetched $2.25, pretty near the highest bid of the evening!

☆☆☆

The Western Regional Exhibition of the RPSC held in London on November 1 and 2 was a great success, although there did not seem to be much evidence that it was an RPSC affair.

The Postmaster General, the Hon. Azellus Denis, was commendably brief, but it would certainly seem that things are stirring in the POD and that some innovations are in being.

☆☆☆

It was pleasant to meet once again in London our good friend Mac Duncan, the PODPR officer in Windsor, accompanied by Mac Erb, the PODPR officer in Ottawa and also J. E. Scullion, who is PR officer in Saint John, N.B.

The Postmaster General was indeed well supported and we hope to see all these POD officials at Edmonton this year.

It is of course, easy to recognize them from their title, but we have been wondering at the number of medical men who are not only members of the Society and others, but also taking an active part in the club world. We have, of course, our own Dr. Geldert as our President, but we recall right away Dr. Gyorfi, as President of the Sydney Stamp Club, Dr. Welsh as President of the North Toronto S.C., Dr. Lipinski as Editor of the Edmonton Stamp Club Bulletin and Dr. Boyd in the Windsor Y Stamp Club. We are sure there are others also.

The hobby must be quite attractive to the medical profession, and we are not surprised!

☆☆☆

"We are extremely happy to be able to be planning for this event in May, and our optimism and enthusiasm knows no bounds!" Thus writes Mrs. Doris McKay, of Edmonton, who is the chairman of the Publicity Committee for CANPEX '64 in Edmonton next 14-16 May.

When Edmonton was first adumbrated as the locale for our 1964 Convention and Exhibition, we knew that the Edmonton S.C. would put up a good show and Mrs. McKay's words are a tremendous encouragement to all of us in the East who advocated holding the Convention there.

We hear from our President, Dr. G. M. Geldert, that plans are taking shape for a special coach or sleeper car via the CNR and that the final details will be announced in our March-April issue.

So we ask as many members of our Eastern members who can make the trip, to lay their plans right NOW so as to show our fellow collectors in Edmonton that our enthusiasm is just as boundless as theirs!

☆☆☆

We have been writing to a few clubs asking them to write a brief item on the problems they encounter in getting
up their programmes for the year. We had in mind, more especially, the “isolated” clubs across the country, where the nearest club is much too far away to contact and philatelists are far and few between. In the MAIL BAG will be found a letter from Dr. Gyorfi, of the Sydney Stamp Club, which, we think, will be of great interest to all clubs, isolated or not.

We shall be delighted to hear in similar vein from some of our smaller chapters. We have one letter already from John Millen, of the Columbia Philatelic Society, Trail, B.C. which we shall publish in the next issue, but we shall be glad to hear from any club that cares to write.

FROM THE PRESIDENT AND
DIRECTORS OF THE SOCIETY,
TO ALL OUR MEMBERS AT
HOME AND ABROAD

“A Very Happy and
Prosperous
New Year”

A Sheet of Map Imp. in G.B.

Mrs. R. B. Gillrie, of the Kitchener-Waterloo P.S. was good enough to send us a cutting from a Scarborough, England, newspaper featuring the Philatelic Congress of G.B., which was held there in June, and more especially, a member of the Scarborough P.S. who exhibited at the Congress a full sheet of Imperforate Map stamps of Canada.

The collector in question, J. E. Dodwell, had this sheet sent to him some years ago by a Canadian aunt, who acquired it after the death of Sir William Mulock, who had been Postmaster General many years ago.

It was known at the time that some sheets of these Imp. Maps had been found in Sir William’s basement after his passing, and no doubt, Mr. Dodwell’s came from this find.

---

Martin Apfelbaum:
Birth of a Column

January 1964 —

When the idea of my writing a column for the society journals was first suggested, I was reluctant to accept the task. Certainly, there is much about philately that I believe should be said. And there are many “forbidden” subjects that I would like to bring to light for discussion.

But I was apprehensive about writing critically on stamp collecting. It is too easy to drift into cynicism, to assume superficial superiority. And these are feelings I do not wish to convey. Philately is already overcrowded with self-appointed experts.

Perhaps my negative thoughts eventually convinced me to write this column. Whatever the motivation, I intend to discuss the topics that are vitally important to our hobby... those that I believe are essential to its existence, its acceptance and its growth.

These are some of the subjects that I will discuss in future columns: Is stamp collecting still growing or has it reached its peak? How do non-hobbyists view stamp collecting? Are they attracted or rebuffed by what they see and hear? Does government controversy help philatelic progress?

“Should stamp collectors adopt new buying practices? Should collectors fight speculation — or join in it? What should collectors learn about a dealer before they purchase or sell? Should collectors join stamp societies and clubs? Should collectors be interested and help in promoting their hobby? How?”

There are many other subjects that I haven’t space to list. Perhaps there are some that you think should be included in the scope of this column. Don’t hesitate to pass them on.

A final word: if at any time you disagree with anything I say, please let me know. Not everyone will see eye-to-eye with me, I’m sure. And I don’t mind being told about it. In fact, I would appreciate your interest.

Martin L. Apfelbaum

Executive Vice-President.

THE FACTS ABOUT ST-PIERRE & MIQUELON FREE FRENCH OVERPRINTS

By HENRI GAUTHIER, RPSC 6750

By order of Admiral Muselier, all other stamps on hand were then overprinted “France Libre, F.N.F.L.” and some necessary new values created by surcharge; amongst these were the following:

- 0.30 on 0.10—rate for postcard or open letters within the islands.
- 0.60 on 0.90—rate for letters within the islands.
- 1.50 on 0.90—rate for letters to Canada.
- 2.50 on 0.10—rate for letters to the United States.

As no 10 francs or 20 francs were in stock at the time, a certain number of them were made by overprinting the 0.75 franc and 1.25 franc of the 1932 series and the 0.10 and 0.90 of the 1938 series.

When I arrived at St-Pierre and Miquelon on the 17th of March, following orders received from the Free French Representative in Canada, I was told of the critical situation of the islands, viz., that with the occupation by the Free French, all existing sources of revenue and income had been completely cut off. The population was in a desperate condition and something had to be done immediately. The islands are barren and unproductive, and even in peace time were never able to raise nearly enough food to take care of the population. With the practically complete cessation of the chief industry—fishing—brought about by the war, and the practical cessation of normal imports, starvation was staring the population in the face.

A committee had been created under the name of Syndicat des Oeuvres Sociales, the purpose of which was to raise funds to get supplies of all kinds for the inhabitants. A certain number of stamps were sold at face value to the Syndicate which in turn disposed of them to certain stamp dealers; it is regrettable that, taking advantage of the...
ignorance of the authorities in philatelic matters and the difficult situation of the islands, these dealers managed to corner 90% of all the scarce varieties of overprinted St-Pierre and Miquelon stamps at a ridiculous price.

The situation when I reached the islands was as follows:

In stock were the balance of the Noël sets, black and red, of which 210 black sets (some complete, some lacking the 1 f. 75 value) and 600 red sets complete or in part, had been sold at face value. Approximately 10% of the scarce varieties and the balance of the other stamps were still on hand.

In view of the urgency of the situation, I suggested to the Committee that they buy a certain quantity of these stamps from the post office at face, to be sold at the best price possible through the Free France Agency at Ottawa. This was done; a fixed price being placed on all stamps to be sold at Ottawa, a certain number of all denominations, with the exception of the that expenditure of this money was under the most rigid official supervision at every stage of the proceedings.

The overprinted stamps of St-Pierre and Miquelon were offered to philatelists at fixed prices; no pressure was placed on anyone to buy them; dealers and individual collectors were on exactly the same footing; no special prices were granted to anyone and the $28,000 profit made on the total sale of these stamps was literally a lifesaver to the people of St-Pierre at a most critical time.

Criticism of the method used in the disposal of these stamps has been forthcoming from time to time from persons not familiar with the situation at St-Pierre in the early months of 1942 and the stamp collector or philatelist who today possesses some of these stamps, can derive satisfaction from the fact that the money spent has served a dual purpose: enriched collections with worthwhile items and kept from hunger and cold a small but loyal group of people who, in the face of great difficulty and discouragement, never wavered in their loyalty to the cause of freedom.

The disposal of the remaining “Noël” sets presented some difficulties. The issue of these commemoratives had been severely limited in the first instance, while a considerable number of sets had been incomplete from the beginning, owing to a lack of certain values in the St-Pierre post office. It was early evident that these stamps were one of the chief goals of the speculators who ap-

The main “place” of St-Pierre

Noël sets, being left with the Postmistress at St-Pierre for use by the inhabitants and all orders of a philatelic nature being referred to Ottawa.

As a result of this procedure, in three months, more than $18,000 was placed at the disposal of the Syndicat des Oeuvres Sociales, and used to provide the supplies most urgently needed, pending the setting up of permanent machinery, to take care of the needs of the inhabitants. It might perhaps be emphasized...

W. E. LEA (PHILATELISTS) LTD.

466 Strand, London, W.C.2
peared so early on the scene. Various methods of disposal were considered, and it was finally decided that the fairest plan was to place a fixed value on the existing sets and offer the stamps, in sets only, with a limit on individual purchases, to collectors generally through the advertising pages of the philatelic press. This was done, and all the black sets were disposed of in a very short time, almost entirely direct to individual collectors. The red sets, which were more plentiful, were not in such great demand, but these were kept on sale until it seemed evident that all collectors desiring them were supplied. Then, and not till then, was a dealer permitted to take over the remaining sets en bloc—the sole instance of such a procedure in handling the overprints.

(We are very interested to learn from Mr. Gauthier that the 3 fes. (Scott 247), of which only two copies were overprinted—all there was in stock) was not placed on the market. One copy was kept by the new French Administrator, Mr. Savary, and the other was given to Henri Gauthier by the Administrator for his valuable services in the matter. As Henri says so well in a letter to us: “This is one of the things that are absolutely “without price”, as its sentimental value far outweighs any financial value it might have.” —Editor).

At Bypex, 1957—Looking at the Free French overprints of St-Pierre & Miquelon. L to R: The Mayor of Ottawa, Mr. Nelmes & Mrs. Nelmes, L. M. Lamouroux, then President of the Society and Henri Gauthier, now Sales Manager of the Society.

L. P. Davenport
230 Lonsmount Drive
Toronto 10, Ontario, Canada
Western Ontario Regional Exhibition

By A. H. CHRISTENSEN, F.R.P.S.C., F.R.P.S. L.

The first Regional Exhibition and Bourse of the Royal Philatelic Society of Canada took place at London, Ont. on Nov. 1 and 2 and was a great success. Staged by the London Philatelic Society, there was a most attractive exhibition of over 250 frames of competitive material from collectors in Western Ontario.

The Exhibition was held in the Wellington Square Mall, the exhibits being mounted in the R.P.S.C. frames. The Mall was very well lighted and heated and was an ideal place for such a show. It is in an enclosed shopping plaza in the heart of downtown London, somewhat reminiscent of the great arcades of London and Paris. It is used from time to time for car, art and other exhibitions. The well presented displays brought stamp collecting before many thousands of people and undoubtedly did much to promote public interest in philately.

There was a Post Office on the floor of the exhibition, as well as displays of material by the Department. A slogan cancellation was used to publicize the show reading in four lines:—"WESTERN ONTARIO / R.P.S.C. REGIONAL / STAMP EXHIBITION / NOV. 1-2."

The gathering was concluded by a dinner in Cronyn Hall, St. Paul's Cathedral, under the chairmanship of Stan Shantz, president of the London Philatelic Society.

Dr. G. M. Geldert of Ottawa, President of the Royal Philatelic Society of Canada, congratulated the local Chapters on putting on such a fine show, which should set a pattern for similar gatherings across the country. On behalf of the Society he welcomed the Postmaster General, the Hon. Azellus Denis, and expressed the hope that the pleasant and congenial relations which have existed between the Royal Philatelic Society of Canada and the Post Office Department will continue for the benefit of all concerned.

Dr. Geldert again suggested that a committee of members of the Society be formed by the Department whose advice might well be of value in deciding on the designs and issuance of new Canadian stamps.

The President also expressed the hope that Mr. Denis would be able to be present at the Society's national convention and exhibition which will take place in Edmonton next May.

Dr. Geldert spoke briefly on the plans being made by the society for the expansion of its services to the Chapters and appealed to all philatelists to get

MANY MAJOR RARITIES, FINE CLASSICS AND COVERS INCLUDING THE CANADA 12d. AND A UNIQUE M.S.S. MARTYNSIDE COVER OF NEWFOUNDLAND

ILLUSTRATED CATALOGUE $3 including second class airmail postage

ROBSON LOWE LTD.
50 PALL MALL
LONDON, S.W.1.

When replying to this advertisement please mention that you saw it in "The Canadian Philatelist".
solidly behind the Royal Philatelic Society of Canada to enable it to carry out such a programme and provide these additional services for the juniors and the local clubs throughout the country.

The Postmaster General, who was introduced by the Editor, L. M. Lamoureux, expressed his pleasure at being present and spoke of the plans of his Department for making available for display the U.P.U. collection that the Post Office has in Ottawa and then gave further details of the 1964 stamp issuing programme.

Mr. Denis gave particulars of the design of the new 7 cents stamp to appear in February to replace the blue goose stamp, in use since 1952. It shows an air plane in flight over the Ottawa Air Terminal. It was designed by the Canadian Bank Note Co. and will be printed in varying shades of light blue.

The Unity in Canada stamp will be issued in March. Using lithography in combination with the intaglio process it will be printed in three colors. The design by Bernard Reddie of Ottawa will show three maple leaves on a single branch in tones of yellow and red in the centre of the stamp. To the left, partially covered by the maple leaves, will be a red shield bearing three lions in yellow, emblematic of Great Britain's contribution to this country. To the right and equally obscured by the maple leaves is a blue shield on which three gold fleur-de-lis are depicted.

"In this way," declared the minister, "we are proud to recognize the contributions of Great Britain and France, but at the same time recognize that Canada is neither one nor the other, but herself."

An oak leaf pattern in tones of red, yellow and white, indicating the strength of Canada, is intertwined with the design.

The postmaster general then spoke of the world peace stamp scheduled to appear in June. The design, based on his

At the RPSC Western Regional Exhibition in London, Ont:
L to R: George Hicks, RPSC, of Listowel, Ont.; Grant Showers, RPSC, of Sarnia, Ont.; The Hon. Azellus Denis, Postmaster General of Canada; Stan Shantz, RPSC, President of the London Philatelic Society.
own suggestions, is being prepared by the Canadian Bank Note Co. Its purpose being to direct attention to the observance in 1964 of 150 years of Peace between Canada and the United States of America. The design being considered is of a globe showing the North and South American Continents with a banner bearing wording indicating world peace.

Commencing next year a series of stamps will be issued bearing the floral emblems of the provinces, which Mr. Denis felt would be the most striking and original ever produced in Canada. This also applied to the 1964 Christmas stamp, which it is planned to produce in three colors, possibly two in offset and one in steel line engraving.

New 3 cents stamped envelopes and post cards are being prepared in readiness for the April 1 increases in postal rates. The 3 cents stamp in coils and a 3 cents postage due stamp will also be issued.

Concluding, Mr. Denis said that the 1964 stamp issuing program promises to produce many outstanding new stamps in both colorful and exciting new designs.

The Royal Philatelic Society of Canada Awards were presented to the following exhibitors. A Silver Medal was awarded to George Hicks of Listowel, winner of the Grand Award, the John Labatt Trophy, for his collection of the Small Queens Issue of Canada. One other Silver Award was won by W. L. Millman of Sarnia for his showing of the Large Queens Issue.

R.P.S.C. Bronze Medals were awarded to Dr. N. O. Boyd, Windsor; G. Drew-Smith, Galt; Grant Showers, Sarnia; James Law, London; A. A. Springthorpe, Wheatly; J. E. Kraemer, Kitchener and J. S. Martin, Kitchener.

Besides the award of Certificates to some 24 exhibitors the following trophies were awarded. The R. Simpson Trophy for the best exhibit by a member of the London P.S. went to G. Drew-Smith of Galt, for his showing of Ad-

Here is a partial list of philatelic Canadiana that we can use for cash. (U.S.A. or Canadian funds as desired). Clip this advertisement and save for future reference. We would especially like to hear from dealers, collectors, trustees of estates, anyone at all who may secure any Canadian stamps in value of at least $10.00 per lot to any size available. In the case of larger bulky lots please advise what is for sale. Non-bulky lots may be sent by registered mail AT ANYTIME WITHOUT WRITING FIRST, either priced or for our offers. We have been in business for 42 years and are life members of the A.P.S., R.P.S. of Canada, members of S.P.A., Collectors Club, B.N.A.P.S., C.S.D.A., etc.

WANTED TO BUY

1. Canadian imperforates and part perforates, all years and issues listed and unlisted in any quantity.
2. Errors of all types, major and minor. For example we purchased and sold over 100 of the famous Seaway Invert. ALWAYS INTERESTED IN ANY DISCOVERIES which will handle either by outright purchase or on commission basis, whichever is desired.
3. Canadian plate blocks, collections and accumulations. Urgently needed all Elizabethan G. overprinted plate blocks from 1935 to date and all values 1c to $1.00.
4. Regular postage, everything from 1851 to date, mint and used. WE DO NOT REQUIRE ORDINARY PACKET STAMPS. 19 century Canada can be used in any condition from damaged to superb.
5. 19th Century covers FROM Canada addressed to any part of the world. 19th Century covers from any part of the world addressed TO Canada.
6. Revenues: All Canadian revenues, collections, stocks, accumulations.
7. What else would you have in Canadiana?

SELLING

We have for sale anything we can buy as above. Outside of the CANADA BASIC CATALOGUE, no price lists are ever issued. 99% of what is purchased is resold "on approval" and anyone who is not taking advantage of our approval service simply misses out on a very useful source. Philatelic treasures, that would delight any collector of Canadian stamps, come our way.

OFFERS

1. Canada Elizabethan postage, etc., major varieties complete mint to end of 1962—$12.00.
2. Same choice used—$10.00.
3. George VI Canada complete mint postage and Officials—$120.00.
4. Same choice used—$100.00.
5. Canada Basic Catalogue, 2nd edition $2.00.
7. Canada Album system for postage $30.00.
   (Investigate this as it's the finest album for Canadian stamps ever published).
Remittances in any convenient form.

We can use mint U.S.A., Canada and Newfoundland stamps suitable for postage at face value in payment for any of the above offers.

WINNIPEG CANADA
An Urgent Appeal From The President

Members are earnestly requested to remit promptly their membership dues for 1964, statements for which they received during December.

The Society's Year Book will be published in September and in order to avoid any members being left off the list, it is most important that the Secretary receive your dues early. The preparation of the Year Book entails a great deal of work on his part and he will greatly appreciate your close co-operation in this matter. So, don't forget to DO IT NOW!

G. M. GELDERT, M.D.

How Many For Edmonton?

We reprint the following from the Edmonton S.C. Bulletin:

"Alberta vs. Ontario: When the convention is held in Ontario, nearly 80 percent of the society's 1600 members live within two or 300 miles of the site. When it is held in Alberta eighty percent live more than two thousand miles away. Ordinarily five percent can be expected to journey two thousand miles, be it east or west, to a convention. In round figures that adds up to five of the 100 members from Alberta attending in Ontario. With a campaign and publicity drive by the host club such as we have set in motion the figures should double. In cold statistics, it would add up to ten from Alberta which is hardly worth the effort. Of the nine hundred members that reside in Ontario and Quebec we can ordinarily expect about fifty to come here, that being the five percent, doubling this figure to a hundred or more should be well worth the effort. See where we have an advantage over the clubs situated in Ontario! One hundred smiling and happy members of the Royal Philatelic Society from Ontario and Quebec alone, all eager to make the acquaintance of the Alberta members, will arrive here next May. Are you one of these? If not now is the time to attend to that little matter. Don't be left standing on the outside."

How many of our members are right

Société Philatélique de Québec Exhibition

La Société Philatélique de Québec, Chapter No. 40 of the Society, held its 8th Exhibition on the 22-24 November in Québec. Over 40 frames were on show, from Bishop Marks to the latest Tonga "Coin" issue. The outstanding feature of the Exhibition was the showing, for the first time in Québec, of a magnificent copy of the Twelvepenny Black of Canada, with enormous margins all around. The Post Office Department in Ottawa also sent three beautiful frames.

Though the Exhibition was non-competitive, the publishers of TIMBRES-POSTE ET MONNAIES donated a fine trophy to the S.P.Q. to be awarded to the best exhibit in the show. The honour of being the first to be awarded this trophy fell to the President, Georges Filion, for his fine showing of Boy Scouts on Stamps.

The joyous atmosphere was dampened on the afternoon of the opening day when the news arrived of the tragic death of the President of the United States.

Veteran And Vintage Motor Cars

By W. H. KILROY

In these modern days when you can hurtle from one end of England to another (providing you have a month or two to spare, and can afford the petrol), or take the family for a day at the seaside simply by getting into the family car and joining the nearest queue of ardent motorists all going the same way as you, and when, after hours of traffic jams, bottlenecks, by-passes, and roads to by-pass the by-passes, you arrive at your destination, weary, worn and sad, choked with petrol and diesel fumes, shaking from the narrow escapes you have had from the other fools on the road, you can profitably spend the five minutes or so you will have to spare at the sea, before going through all the hellish business again in the reverse direction, by brooding on the bad old days when a motorist was a rarity, and horses were still man’s best friend; when to go anywhere in a motor-car was an adventure, 15 miles an hour positively dashing, and anything over 20 m.p.h. not only reckless, but also illegal.

If you happen to be a stamp collector as well as an ardent motorist, there is, fortunately, a number of interesting stamps which will give you a very good idea of what the early days must have been like.

The earliest example however, is not a petrol-driven vehicle, but a steam carriage dating from 1815, the times when many inventors and experimenters were trying to find the answer to faster travel. In that year, one Josef Bozeks, from the town of Prague, tried out his four-wheeled steam vehicle which had its first public run on 17th September, 1815, and successfully carried two passengers as well as the driver, the engine developing as much as 1/20th horse power! This odd carriage is shown on the 30 h. issued by Czechoslovakia in 1958.

Another, but much later type of steam-car, this time with a canopy, and with the steam-engine on the same level as the two passengers, can be seen on the Monaco postage-due 5fr. of 1953. With the coming of the petrol engine however, steam became less popular, although as late as 1903, White an American, produced a 10 h.p. steam car which had a compound engine in front, the radiator being a tubular condenser. This car had oil-separation filters to allow the water to be used again, and had a radius of 70 miles before it needed to stop for fresh water. It had a semi-flash boiler and used six gallons of water every 100 miles. This machine appears on the 30 lira of the San Marino set of 1962, with four up, including the driver.

The petrol era was ushered in, for all practical purposes, by Karl Benz of Mannheim (portrait on the 12pf. of Germany, 1936). From 1874 to 1884 he ran a small workshop designing and building gas-engines, before making his first internal combustion engine, with
POSTAGE STAMP AUCTIONS
HAMBURG  DUSSELDORF
(Germany)

Rarities and special collections will be handled in the most effective manner through our auctions, which are known throughout the world.

Our auction catalogues (circulation of 10,000 copies per auction) are forwarded to the most important philatelists in all countries.

DELIVERIES ARE ACCEPTED AT ANY TIME.
AUCTION COMMISSION 15%

A reserve price is fixed by mutual agreement. No difficulties with regard to import or foreign exchange. Free payment to all countries in every requested currency.

slide-valve and electric ignition, and thereafter he would not rest until he had also designed a vehicle which could be propelled by his engine.

Benz’s first vehicle was completed in 1885 and tried out on a cinder track around his workshop, and later the same year on a public road when he covered a distance of 1,000 metres at an average speed of 12 m.p.h. The next year, 1886 he drove the car twice around Mannheim non-stop, and this brought him bang into the public eye.

The first Benz car, which can be seen on the 20pf. of the 1961 issue of West Germany, in profile, and in solid shape on the 6+4pf. of 1939, was a tricycle with large wheels at the back and a smaller wheel in front. It had a 1 cylinder horizontal side-valve engine, with a maximum horse-power of $\frac{3}{4}$ at 450 r.p.m., and was chain driven. When pushed, it would do 10 m.p.h.

Benz’s great contemporary, Gottlieb Wilhelm Daimler, of Schorndorf, was born in 1835, and like Benz, was a gas-engine specialist from 1872 until 1882, when he started to experiment with internal-combustion motors. His main attempts were to increase the speed at which they ran, and to get a better ignition system than that then being used. He also tried out his first models in 1885, and the following year he tried out his four-wheeled car on the roads. This was not a specially designed car, but a normal horse-carriage, which Daimler had adapted to take his engine. It had a single cylinder 4 stroke engine giving a maximum h.p. of 1.5 at 800 r.p.m. and was fitted with a two-speed gear giving a speed of 11 m.p.h. It carried four including the driver, and like most of the early cars was steered by a lever, or tiller and not a wheel. A side view appears on the 10 pf. of 1961, and the car itself on the 6-4pf. of 1939, whilst a portrait of Daimler is on the 6pf. of 1936—all of Germany.

These two pioneers having shown the way, the next decade saw numerous competitors springing up all over Europe, and even in America, where Charles E. Duryea after experimenting for six years, produced the first American automobile in 1892. This was a four-wheel, two seater, commonly called a “Buggy”, with a single cylinder horizontal engine of 4 h.p. giving a speed of about 7 m.p.h. It can be seen on the 1 lire of the San Marino set, whilst another early car of 1894, the Rochet-Schneider four-seater with rear engine and sun-canopy represented some of the European competition. This is on the 25c. of the Monaco set of 1961.

The next year, 1895, saw two famous names in motoring come into the picture; Panhard and Levassor, and Peugeot. The first named had been making cars since 1890 and in 1895 they produced a two-seater car with a 2-cylinder Daimler engine of 4 b.h.p. at 800 r.p.m. which gave a speed of about 10 m.p.h. The car with Emile Levassor at the tiller, easily won the first ever road race from Paris to Bordeaux and back, a distance of 732 miles, which was held on June 11, 12, and 13, 1895. Starting from the Place d’Armes, the Panhard was fifth away, (the cars started at two minute intervals to save trouble), but took the lead at Vouvray, and finally finished an easy winner in a time of 48 hours 47 minutes, beating his nearest rival (a Peugeot), by
nearly six hours. His car, No. 5 can be seen during the race on the 2 lira of San Marino.

The same year, the Peugeot "Vis-a-vis" made its appearance on the roads and also on the San Marino 3 lira. (But not in 1895!). "Vis-a-vis" being literally interpreted means that two of the passengers couldn't see where they were going, but only where they had come from! (Could we not say they were tête-bêche? —Ed.) This was a car built on cycle lines with a Daimler 2 cylinder engine, tube ignition, and four forward and a reverse gear. It was rated as 4 b.h.p. and was designed to give a speed of some 10 m.p.h. but in practice they did better than this, as in the Paris-Bordeaux-Paris race several were entered and three of them finished in the first four places at an average speed of 14 m.p.h.

The year 1897 gives only one car, another Prague-built model called the President, a four seater, with engine at the rear. This can be seen with a sedate chauffeur taking two ladies for a ride on the 45h. of the 1958 Czech. set.

The next year 1898, sees the first of the famous Renault cars. Louis Renault was the pioneer of light-car design, and

E. S. JAMES

RUSTINGTON, SUSSEX, ENGLAND
his first two-seater had a De Dion-Boutron engine of 13⁄4 h.p. The next year two of his entries were first and second in the Paris-Trouville race, thus proving the superiority of his shaft-drive, which he installed in preference to the more usual chain belt drive. One of these attractive little cars is shown on the 15c. of the Monaco set.

Also from 1898 there is a Cabriolet from the Peugeot stable, all the preceding cars having either been open, or possessing a hood which sometimes worked. This was one of the first of what is now normal saloon type coachbuilding, though even here the unfortunate driver was still exposed to the elements. The model is on the 2c. of the Monaco set.

An improvement in driving conditions for the chauffeur is seen on a Panhard-Levassor of 1899. This looks like one of the more antiquated London taxis, and has completely covered accommodation for the two rear passengers, with a solid canopy for the front two seats. It has that new-fangled gadget, the steering-wheel instead of a tiller. This was a 4-cylinder 12 h.p. job, and is shown on the 10c. of the Monaco set.

The first model with the radiator and engine in front, is the 1899 Daimler, seen on the 4 lira of San Marino. It had a side-chain drive, a gate gear-box, and a 2-cylinder engine of 8 h.p. and is the first model which starts to look like a modern car.

1899 also sees the first Italian car in the shape of a two-seater F.I.A.T. (though there was a third seat facing the driver), still using the now outdated tiller steering, and with the engine at the back. This can be seen on the 5 lira of San Marino.

The turn of the century saw a host of new models appear on the market, and amongst them was a neat little De Dion Bouton (Monaco 45c.), which was remarkable as being the first car in this survey which had a completely enclosed body. It is very like a previous year's Renault "Doctor's Car" and had the engine in front, a single-cylinder 8 h.p. affair, and seated four people in a high tonneau body.

The year 1901 was a bumper one, there being no less than six models to choose from. The first of these was a revolutionary design in that it had an air-cooled engine. It was the 5 h.p. Decauville, a French car, which had its 2-cylinder air-cooled engine at the rear, and carried two, the passenger facing
the driver. It proved to be very noisy owing to the exposed gearing, and was not popular, and the following models reverted to more normal practice. (San Marino 10 lira).

Next is one of the last of the old tiller-steered cars, the Delahaye, which also had the front seat facing backwards and the engine in the rear. (Monaco 65c.). This year also saw most of the new models having their engines and radiators at the front, as witness the F.I.A.T. two-seater (occasional three, one seat being behind, outside the collapsible hood). (Monaco 3c.)

Another new innovation was the building of the passenger seats in a semi-circle a feature which is shown to good advantage on both the F.N.-Herstal (Monaco 30c.), and the Wolseley (San Marino 15 lira). This last is the first British Car to be included, and the artist has obviously got the idea that it was only for the wealthy classes, as he has, as passengers, a couple of high-ranking Officers with a lady! It was quite a good car however, with a 10 h.p. engine with two horizontal cylinders, four forward speeds and a reverse, electric coil ignition and a chain drive, and incidentally, leather mudguards!

Lastly for 1901, there is the famous first model of the Mercedes, which had a number of revolutionary devices. The chassis was made of pressed steel, and the four-cylinder Maybach engine had its cylinders and cylinder head cast together and in pairs, the inlet valves were mechanically operated, and expanding brakes were fitted to the rear wheels. It proved in practice to be very much quieter than most cars, and was an immediate success, its 24 h.p. (nominal) rating, being actually more in the nature of 35 b.h.p. This elegant car can be seen on the 4c., of Monaco.

There is only one model of 1902, the little 8 h.p. Benz which had four seats, and the engine in front. The hood was fastened to the frame in front of the driver and must have been a perfect handicap with a head wind! (San Marino 20 lira).

The first of the 1903 types is a famous one, the 16 h.p. Napier, which had four cylinders, and twin chain drives to the rear wheels. It had a tonneau body with four passengers in the rear and one alongside the driver. (San Marino 25 lira).

The second type dated 1903, which is the 5c. of Monaco, is labelled ‘Rolls-Royce 1903’. This is somewhat of a mystery, for Henry Royce and the Hon. C. S. Rolls did not meet until 1904, as the result of a 10 h.p. car with two cylinders which Royce built that year, and it was not until 1906 that the first Rolls-Royce model was produced.
Renault comes into the picture again in 1904 with a neat little 7 h.p. cabriolet. (San Marino 70 lira). This had a totally enclosed body, and seated four people, although still in the Renault light-car tradition.

The second 1904 model is also the second from America, this time a 6 h.p. Oldsmobile, which is a throwback to the older days, with its rear engine, cycle type wheels, curved foot dashboard, and tiller steering. (San Marino 50 lira). It is, however remarkable for its peculiar springing which consisted of long side springs running from front to rear axles.

The 1906 model is also an American, an early Cadillac, and a much larger car altogether. Here, the engine was in the rear, although there was a bonnet in the front, which, when raised, revealed the petrol and water tanks! (Monaco 1fr.). The year 1908 saw the Ford Model ‘S’, a forerunner of, and not nearly so well-known as the Model ‘T’ or “Flivver”. (Monaco 20c.). This had four cylinders, engine in front, chain drive. It was a two-seater, with fabric hood, wheel steering.

By 1908 too, motoring was steadily becoming more popular, and we have passed out of the Veteran Car stage, to what are known as Vintage models. One of the remaining few designs on the stamp list is a racing car, the Targa Floria model by the famous Italian makers of early racing cars, Isotta-Fraschini; (San Marino 100 lira). Two others were light two seaters, the 1910 12 h.p. Bianchi, for either sports or racing, (San Marino 115 lira), and the 1912 Chevrolet, a typical American design of that period. (Monaco 1c.) and two more were touring cars of fairly large horse power, the Alfa-Romeo of 1910, an open tourer, (San Marino 150 lira), and the 1910 Buick from America, from both of which the shape of things to come was apparent. (Monaco 50c.).

There is, incidentally, another early automobile shown on the 4 cents of the U.S.A. Pan-American Exhibition issue, but beyond the fact that it is a cabriolet type with two seats outside and high up, and obviously driven by an engine at

NEW ISSUES OF THE EMPIRE

(PTS, London), (RPSC)
the rear, it is not possible to say what it is.

Other more or less unidentifiable cars, or on which details are not readily available are a 1905 motor postal-coach from Germany (20pf., 1955), which may possibly be an early effort from the Bussing works; a Csonka limousine from Czechoslovakia seen on the 60f. of 1959), which looks to me very like the old 4 h.p. Adam Opel from Germany. A Swiss stamp showing an early postal-coach appeared in 1956 (5c.) and this may well have been built by Saurer; and an Austrian postal-coach on the 1sch. of 1957 bears a strong resemblance to its counterpart on the German stamp mentioned above.

Another Austrian mail carrier is seen on the 50h. of the Bosnian issue of 1906, and finally there is yet another mail carrier shown on the 15c. of the U.S.A. Parcel. Post issue for 1912.

YOUR SALES DEPARTMENT

TO SELLERS:—

I need your cooperation: In the first three months of this year, I have returned to owners more new books which did not comply with regulations than in the last two years.

The back of each sales book shows the regulations for new books to be entered with the Sales Department; these are strictly enforced; WE HAVE TO, so please before making books read the regulations.

To NEW MEMBERS wishing to enter books for sale in the Circuit.

Let me suggest that before making books contact the Sales Department, let me know what you intend to put in the books. Of some British colonies, we are overloaded, of others we’re short. In foreign we’re short of everything, although some are poor sellers. WRITE US FIRST, WE’LL TELL YOU.

TO BUYERS:—

As in past years, there are always a few who seem to think that they can keep the books indefinitely, having no regard for the seller; and they return them when they feel like it. These are the exceptions, not the rule, but nevertheless the few are too many. Accompanying the books is an advice notice on which regulations are printed showing the time allowed for keeping the books. Some no doubt do not take the trouble to read these regulations; I am sorry, but unless these individual collectors (THE CLUBS ARE ALWAYS ON TIME), return the books within the specified time, they’ll be struck off the Sales Circuit.

WE HAVE DONE OUR UTMOST TO MAKE THE SALES CIRCUIT A GOING CONCERN, IT HASN’T BEEN EASY, AND EVERY DAY HAS ITS PROBLEMS, THE COOPERATION OF ALL IS NEEDED.

What we need is a Sales Circuit News Letter, to let you know if there is something special that can be of interest to MEMBERS.

Last year I had some requests for Nos. 1 and 2 of the Souvenir Cards, issued by the Post Office Department, (I managed to find two or three from one member). I understand they were only 20,000 of No. 1. He wants $10.00 for No. 1 and $2.00 for No. 2.

And please don’t write to tell me that prices are too high in such and such a book. I have no control over prices, each owner makes his own prices. All I can do—and it happens quite often—is that I write to a seller to let him know that in my estimation his prices are too high, and that it will be difficult for him to sell; but the final decision is his not mine to make.

This will be published in the January issue of the Canadian Philatelist, at a time when the Circuit will be in full operation, which means that to get the books to everybody on time, I need from a week to 10 days notice.

To sellers and buyers, my best wishes to all for a successful philatelic year, may you find the jewel you’re looking for.

—H. GAUTHIER.

B.N.A.P.S. GRAND AWARD

Dr. Robert V. C. Carr, also a member of the RPSC, was awarded the Grand Award at the BNAPS Annual Exhibition at Williamsburg, Va. His wonderful exhibit was composed of four frames of the stamps of New Brunswick, with grids. Congratulations Dr. Carr!

Haley’s Exchange
Box 205, Fryeburg, Maine
The collecting of Plate Blocks has gone through a number of phases over the last few years. It was not very long ago that many collectors did not even know what a plate block was. Collectors, when purchasing their stamps, tore off the margins and with it the plate inscriptions. Maj. K. Hamilton White gathered together one of the first and almost complete Canadian mint Plate Block collections and his material was the basis of the first Standard Canadian Plate Block Catalogue. This was actually the very first time that many collectors became aware of the possibilities and interest in this new field. The interest in Plate Block collecting has increased over the years, although a few incidents seemed to have taken some of the edge away. One of them was the announcement by the Post Office Dept. that no more plate inscriptions would be sold at post offices and we all know that plate material can only be obtained from the Philatelic Agency in Ottawa. Nevertheless there was one collector, a newcomer to this field, who was able to form within a few years the greatest and most complete Canadian Plate Block collection ever in existence. Not only was he instrumental in adding much hitherto unknown information, but he was also, we believe the first, who attempted to form a used plate block collection. He is Mr. George L. Lee, whose famous plate block collection will go on sale next month at H. R. Harmer Inc. We are certain that much of this material offered is unique and already expectations with regard to prices are high. It will set a new basis for the revision of the Plate Block catalogue.

Talking about rarities it will be of interest to you that another major find has recently been made here in Ottawa. A complete imperforate sheet was found of the 10¢ red showing the Memorial Chamber in the Parliament building. Its value must be in the four digits. It is amazing that such a complete sheet should survive because the majority of imperforate sheets were cut up into pairs and blocks and were given out to a few persons. We believe that the only intact sheets are still with the Post Office as reference material.

For the purpose of paying for the hunting permit, the USA issues every year a very attractive "Duck" stamp. These duck stamps are very popular and some of the older issues have become great rarities. We hear that the Canadian Government is considering the issue of duck stamps for permits. So all you "collector-hunters" watch out for them.

We have previously mentioned in this column that the Government will stop the issue of the G overprinted stamps and the Postage Dues. We understand that there will be no more G's after the end of this year and thus the new dollar will not be overprinted. By the time this has been published the details will be known. The Postage Dues should not be overlooked. Plate inscriptions, paper varieties, shades, constant plate varieties, can all be collected and now is the time to do so before it is too late.

The usual Christmas mail requires the printing of additional quantities of stamps. The 2 cents will be issued in Plates 3 and 4, the 4 cents in Plate 3, the 5 cents in Plate 3, the 20c. in Plate 4, the Cellophane Pack 2c. will be on sale and the 2c. coil. All these will of course be available (after many weeks of waiting) from the Philatelic Agency.

Having started the controversial question of hingeless albums (and I mean all, not just one type!!) here is (Continued on page 45)
Invitation From Edmonton

MEET US IN THE CONFEDERATION ROOM

When we say "Meet us in the Confederation Room" we really mean come to CANPEX '64 at the MACDONALD HOTEL in EDMONTON, Alberta, Canada, May 14, 15 and 16, to attend Canada's National Philatelic Exhibition and the 36th annual convention of the ROYAL PHILATELIC SOCIETY OF CANADA.

The MACDONALD HOTEL, high on the banks of the North Saskatchewan is almost as old as EDMONTON herself, since construction of the hotel began 50 years ago, when the HIGH LEVEL BRIDGE was begun to span the big river, and to bring the rail across to what is downtown Edmonton, today.

The CONFEDERATION ROOM is just inside the main door to the MacDonald Hotel, your convention site, and here is a good place to meet us and to bring that stock book out of your pocket before you make your way to the Mezzanine Convention Area.

The FATHERS OF CONFEDERATION look down at you from the large painting in the Confederation Room and you can compare this famous painting with that Confederation Stamp in your Canada Collection. The story of this painting is a strange one, for we are told that it was painted from the original painting, but that the original was damaged in the fire in the Parliament Buildings in Ottawa—was it the Parliament ary library? Did the artists then receive a commission to make a third painting from Edmonton's second painting? Is the painting in the CONFEDERATION ROOM then really Canada's oldest painting of our famous Founding Fathers?

Your LOCAL STAMP CLUB Executive has received a complete EDMONTON KIT, telling you of the many attractions to be enjoyed during your stay in EDMONTON. Did they pass the material around at your last meeting? If not—ask for it for next meeting!

Details regarding the Exhibits, Bourse, etc., will be in your hands as soon as you read this. Plan now to exhibit at CANPEX '64 and get your applications in as soon as possible. We expect a great deal of material.

Friends in the NORTHWEST FEDERATION of Stamp Clubs wish to re-

(Continued on page 45)

Helicopter view of the Macdonald Hotel in Edmonton, on the banks of the North Saskatchewan River. The Edmonton City Hall can be seen standing out in the upper right.
HARRIS FIRST 1964 EDITION — U.S. & B.N.A. Catalog contains hundreds of price changes and includes:

- All major U.S. Postage and Airmail issues . . .
- PLUS Special Delivery, Parcel Post, Envelope Squares, Postal Cards, Officials, Revenues, Postage Dues.
- Popular specialties such as mint position blocks, plate number blocks, mint sheets, perforated coils, booklet panes, first day covers, and other items.
- Big "Americana" section — postal tributes to the United States, on foreign stamps.
- U.S. Stamp Identifier — fully illustrated booklet. Use it to check your own collection for valuable hidden stamp treasures!

HARRIS FIRST 1964 EDITION — U.S. & B.N.A. Catalog — containing hundreds of important price changes — is a must for every collector. Compiled by experts of the world's largest stamp firm. This new HARRIS FIRST 1964 Edition contains 160 large pages with nearly 2000 clear illustrations. You'll find all major U.S. Postage and Airmail issues fully illustrated and priced . . . plus Special Delivery, Parcel Post, Envelope Squares, Postal Cards, Officials, Revenues, Postage Dues . . .

AND a big specialty section featuring plate number blocks, first day covers, Americana, and others. Also illustrates and prices United Nations, British North America, and U.S. Possessions. EXTRA . . . Complete U.S. Stamp Identifier — a valuable section that quickly indicates the difference between rare and common look-alike stamps. ALL this and more in one BIG catalog for only 35¢! Mail handy order coupon below for your copy of the famous HARRIS U.S. Catalog — FIRST 1964 Edition. It's your best reference book, and most reliable source of supply for desirable issues at money-saving prices!
THE MAIL BAG

BOUQUETS

Sir:—During the short time that I have been a member of the Royal Society, there have been two things that have made me feel as though I belonged to a real Society. Firstly the opportunity to read your well-written and put together magazine, secondly the fine opportunity given the small collector to secure good stamps at reasonable prices from an excellent sales department and circuit. Then there is the added advantage for those who wish to sell their surplus material at a good return.

This is my first letter to the Editor in regard to Royal activities. For the past year I have been looking after the Royal Circuit at the meetings of The Edmonton Stamp Club. The service I have had from the sales department and Mr. Gauthier have been without a doubt the finest I have ever seen. What we ask for in material is supplied whenever possible. Members here look forward to the circuit books with great interest. These books are to many of them their only contact with the Royal Society. It is my honest opinion that the Sales Department does as much as any other media to further stamp collecting among the ordinary collector with a few dollars to spend each month. I have also seen collectors of unlimited funds going through the books with great interest and spending money to add material to fine and outstanding collections.

With the amount of work involved in just looking after one circuit such as those sent to us I can imagine the labor involved by Mr. Gauthier. Few members of the Royal, I feel, really appreciate what he does for stamp collecting in general and the Royal in particular. I for one think that more than a vote of thanks at each annual meeting and the small funds allotted this part of the Royal, are due to Henri Gauthier. How many of us would dare try to fill his shoes? Very few I am sure.

So I say to the Sales Department and Henri Gauthier in particular, please keep up the good work. We here in Edmonton appreciate it. We feel you do as much for the Royal Philatelic Society and stamp collecting as anyone else in Canada. Need I say more.

ROBERT L. STONE,
Edmonton, Alta.
RPSC 7948

BOOKLETS

Sir:—Just a line to follow up my last letter on the absence of the tissue backing in the 5c. Booklets. I am informed by the Post Office that it was done because of complaints that stamps were sticking to the tissue paper. It took place in Nov. 1962.

Also in last issue of Philatelist, on page 217, re GB phosphor stamps, it should be pointed out that the original Green phosphor lines do not show up under Ultra-violet (that is the regular
lamp) but can be seen by holding up to the light as with the blue phosphor. Also some lines were applied by Typography and others by photogravure. The difference is noticeable in the same manner, with type the Queen’s head appears clear but with photo it is invisible, when stamps are held at an angle to the light.

I have so far got 54 different stamps, with Phosphor lines, if one considers inverted and sideways watermarks. I have found sideways wmk typo only.

G. H. POTTS,
Half Moon Bay, B.C. RPSC 7325

ANOTHER ODDITY

Sir:—Owing to the prominent position you occupy in the philatelic world, your name came immediately to mind when I saw this rarity.

Enclosed you will find three photographs of a current block (of four) Canadian five-cent definitives purchased recently in Sault Ste. Marie, on September 24th, 1963, over the counter at the general Post Office, while buying several sheets of stamps.

Would you be so kind as to forward to me in the enclosed stamped self-addressed envelope your valued opinion as to the uniqueness of this item. In my experience, this is unique.

GEORGE W. GRIFFITH,

CLUB PROGRAMMES

Sir:—I am glad to hear that you intend to bring up in the CP the “Isolated Club Problems”. We have quite a few on hand, which are not only related to the geographical situation, but also to the collecting habits of our Club members.

Without generalizing, I have a feeling that not all collectors are following the existing trend of specialization in a restricted field, and that there are still many collectors collecting for the fun of it, completely disregarding the “investment” aspect of the hobby. It is most regretful that our hobby is getting over-commercialized and that the first question asked is invariably: “how much is it worth?” Perhaps we are a bit old fashioned from this point of view, but 96% of our Club members, including myself, still have general collections built of used stamps picked up here and there for absolutely nothing. We are still exchanging, (we dislike the word “trading”) our duplicates at meetings. The exchange is based on straight Scott values, (good old Scott still works marvelously well in spite the existing acute conditionitis) and the honesty of the partners is beyond imagination. We still appreciate design, colour, workmanship and presentation looking at a stamp and regard cancellations as a rough attempt to destroy all esthetic value of any stamp. Frankly we admit, that we are way behind our times from this respect, but this is precisely the way we like to collect. Briefly, we are more of a stamp accumulator than a philatelist in the strict sense of the word, and we reserve the right to “accumulate” instead of “speculate”, since it is a lot more fun and a lot less expensive.

Since (perhaps fortunately) there are no dealers in an area of a 270 miles radius, our main problem is how to get new material after exhausting our own duplicate books. In this respect the services of the R.P.S.C. Circuit Books are invaluable. I have a feeling that we must be choice customers, since we don’t want early BNA material in “superb” condition, but the “run of the mill” of British Colonies and Eur-
ope, still plentiful and inexpensive. This department should be encouraged and enlarged by all means. It is hardly believable that one man can handle all the business. Mr. Gauthier deserves all credit for his work in this respect. Incidentally this shouldn’t be a money making proposition for the RPSC, if the department breaks even, all concerned should be satisfied. If operating at a loss, it should be subsidized by the Society.

Next item: “philatelic ignorance”. We have quite a good little library, unfortunately nobody seems to have time to read text books. All our magazines appear to be written for the re-entry enthusiast or the cancellation addicts. Hardly anything for others. Any type of lecture program, stencilled text to be read and slides to show, circulated from Club to Club would be much appreciated. Mr. J. Law started the ball rolling with “Birds on Stamps”, and that presentation was the highlight of our past season.

Basic philatelic education is still much neglected. Most so-called “specialists” still have problems with paper varieties, perforations, watermarks, not to speak about: how to soak the stamp off the paper, without affecting the colour of many photogravure stamps. If I remember well, Mr. Apfelbaum from Philadelphia has a complete lecture-tour material prepared. It makes me smile meeting very young specialists discussing fancy cancellations. It would make me burst meeting medical students discussing neuro-surgery and I would flip if they would tell me how to hold a scalpel after using it for twenty years.

Our final problem is the total lack of contact at regional levels. As I mentioned to you, it would be very nice to bring together a Maritime Annual Gathering. It is very difficult for us to travel thousand of miles for a stamp meeting. On the other hand, we all have relatives, friends or business relations in the Maritimes, so attendance to a meeting in a central location such as Halifax probably would be excellent. Encouragement and advice from the experts is all that it is needed. I could find the right persons to supply the elbow grease.

Sydney, N.S. A. W. GYORFI, M.D.

CATALOGUE PRICES IN CANADA

Sir:—I would like to sound off on a matter of great importance to philatelists and would appreciate any mention of my beef you may wish to make in the next issue of the Philatelist. My complaint concerns the retail price of stamp catalogues in Canada and in particular those of Stanley Gibbons.

The Canadian wholesale agent for these publications has arbitrarily set the price for volumes 2 & 3 at $8.25. After a thorough study of the situation I completely fail to see the justification for this grossly inflated price tag. The advertised postpaid price of this publication mailed abroad from the UK is the equivalent of $6.00 in CDN FUNDS. That this price must include a healthy wholesaler’s discount is supported by the fact that various leading US firms advertise this item at the retail of $4.75 in US funds. In view of these figures

it would appear that the difficulty stems from the refusal by the Canadian wholesale agent to settle for a smaller margin of profit and simply boosting the suggested retail to a point where the retailer too will enjoy the 40% margin of profit.

Aside from a question of monopoly, it is of course purely a matter of business policy, but I would like to point out that an increased accessibility of a large variety of catalogues would undoubtedly stimulate interest in the hobby. Retailers should remember that their primary commodity is stamps and not catalogues or other accessories. An intelligent approach to the matter would therefore seem to be to treat such items more as loss leaders than as legitimate stock in trade, thereby engendering goodwill and adding stimulus to the primary business of selling stamps.

This pattern is repeated in respect of various other foreign catalogues which are popular and in great demand among Canadian philatelists. The comparison between Canadian prices and US prices reveals a disparity that cannot be explained away by the adverse exchange rate. As a collector of considerable experience who knows and values the benefits of an extensive philatelic library, and whose personal annual expenditures on philatelic literature of various types runs to more than $50.00, I cannot but envy the enlightened approach taken to this problem by the philatelic industry in the US while deploring the shortsightedness and lack of business acumen displayed on this side of the border. Recent surveys in the US have indicated that a surprisingly small proportion of collectors own stamp catalogues. In Canada the reason for such a situation would not require much search.

Bimbashie Stanton’s Stamps

By The Late DR. WILLIAM BYAM, A.B.E., F.R.P.S. L.

A chapter in “Doctor Byam in Harley Street”, by William Byam, published by Geoffrey Bles (16s.) is devoted to the late Dr. Byam’s interest in philately. In the course of the chapter there appears an entertaining account of the origin of Sudan’s famous Arab Postman stamps in which more personal detail is given than has hitherto appeared in the philatelic press. This portion of Dr. Byam’s book is reproduced below by permission of the author and the publishers.

My first effort at serious work was an attempt to build a picture of postal development in the Sudan. This collection began with stamps used in the days of Gordon Pasha, when only Egyptian stamps were available in the Sudan. These are recognised as having been used in the Sudan by the town names in the postmarks on them.

Then followed evidence of the posts organised for use by the Army during Kitchener’s campaign to reconquer the Sudan from the Dervishes. To illustrate this phase I acquired letters sent by members of the fighting force after the various battles. Some of these letters were marked “No stamps available”. Others provided evidence of railway development, being certified by postal officials as sent from rail-head. For a short time stamps of Egypt were in use overprinted SOUDAN, repeated in Arabic. The Sirdar (Kitchener) disapproved of this practice as he was determined to avoid anything of political significance.

Egyptian stamps in any form, Kitchener considered, would suggest the Sudan was being conquered to become a part of Egypt. He therefore told Colonel Jimmy Watson, a member of his per-
sonal staff, to obtain designs for a special stamp and gave instructions that his own portrait was not to be included. Neither was the design to have any propaganda value.

Watson approached one of the artist war correspondents with the force and obtained from him a sketch of the outside of Abu Simbul rock temple, showing the four colossal statues of Rameses II. The figure of value of the stamp was inserted in the entrance to the temple which is situated between the two central statues.

Watson presented this work of art for the approval of the Sirdar. Under it the artist had written: "My price for this sketch is 20 guineas." Kitchener, without looking at the sketch, added, "my price isn't."

Lord Kitchener, Sirdar and Governor-General of the Sudan. Was succeeded by Sir Reg Wingate.

Watson was then told to order Bimbashi Stanton to prepare designs for a Sudan stamp which the Sirdar would inspect in four days' time. Stanton, a British Officer serving with one of the Egyptian battalions, was acting as correspondent to the Illustrated London News. All he had with him, as artist's material, was a small supply of water colour paints and some sheets of very ordinary foolscap paper. This order from the Sirdar came as a most unpleasant surprise. Stanton had no experience or knowledge of designing stamps. He knew if he failed to satisfy the Sirdar he would nearly certainly be sent home to rejoin his British regiment. In depressed mood, and bemoaning his fate, he sat idly turning over the pages of the latest number of the Illustrated London News when his eye fell on an advertisement for Treloar's carpets. It was a full-page picture of a camel, laden with original rugs, being ridden up Ludgate Hill. Stanton, with relief, seized the idea that here was the design for his stamp. He at once went out from his tent, camera in hand, and persuaded a friendly Arab to allow photographs to be taken of him on his camel. The animal was made to trot, so that Stanton might record the proper movements of its legs. In the sketch that resulted, the camel was portrayed with an Arab postman on its back, trotting past a range of desert hills. By the sandy track lay the skeleton of a camel, one of the many which perished during the long trek to the South. Slung behind the rider were two spears. Treloar's rugs were replaced by saddle bags for the carriage of mail. On these bags were the names of Berber and Khartoum, two towns as yet unconquered; flattery intended to appease Kitchener's wrath if he rejected the design.

Thus was conceived one of the most famous stamps of all time—the Sudan Camel Postman—a design which remained in use for longer than almost any
other in the history of the Post of the World.

Under the main drawing Stanton sketched a series of miniatures of the stamp in colours which differed for the various denominations he believed would be required.

There I saw the set with Kitchener’s signature appended. Of the stamps themselves little could be seen, as the sheet on which they had been mounted had been framed and hung on the wall of Stanton’s bathroom where steam had dealt faithfully with De La Rue’s fugitive printing inks.

Kitchener approved the design without comment and equally without praise. Stanton was ordered to take it to England and be responsible for its correct reproduction by the world-famous stamp printers, Messrs De La Rue.

When Stanton returned to his place in the front line, up the Nile, he asked Jimmy Watson if he would approach the Sirdar with a request for a set of the new stamps certified as designed by him and bearing the signature of the Sirdar, in confirmation of the statement.

Watson agreed and made the request, to which he received the reply, “Yes, but see he pays for them”.

Watson himself paid for a set of the stamps. When mounted and certified as the work of Stanton, Kitchener deigned to append his autograph but left Watson to make the actual presentation.

This story was told me when I visited Stanton in his West Country home.

Col. E. A. Stanton, C.M.G., Formerly Governor of Khartoum.

Stanton wrote this story for my collection; he also gave me a number of envelopes addressed to his parents carrying the letters he had written after the battles in which he fought as the victorious army advanced on Khartoum.

SAY YOU SAW IT IN CP
#676—NEWFOUNDLAND REVENUES USED FOR POSTAGE

Colin Makepeace recently showed me two interesting covers bearing Newfoundland revenue stamps used to prepay postage. Neither cover showed any signs of postage due being assessed or collected.

The first cover was dated May 20th, 1901, and bore two copies of the large 5¢ Victoria Inland Revenue (NIR1) plus 2 copies of the 2¢ green Codfish postage issue. We believe this was a 2¢ overpayment of the postage and registration rate. From St. John, Newf. to Selkirk, P.E.I. We believe this cover to be philatelic in origin, as we have seen other covers of this same date, bearing various combinations of postage and revenue stamps, all from the same correspondence. However, it is a real beauty!

The second cover is most interesting. It is a Jan. 14, 1919 cover, with a copy of the 5¢ Money Order Tax stamp (NMO1) tied with the St. John’s machine cancel, and addressed for local delivery. Again an overpayment, but no signs of the revenue stamp not being accepted for full payment of postage.

* * *

#677—TRIPLE STRIKE ON NEW 4¢ ENVELOPE

Al Johnson recently showed us an unusual postal stationery variety in the current 4¢ purple small envelope. The stamp impression was struck THREE times, each one just slightly moved from the position of the other. This particular example was used, and definitely appears to be non-philatelic. It was used to a business firm in Toronto, and was cancelled with a machine cancel, Toronto March 25, 1963.

Never a week goes by but what we see something new and interesting in the field of Canadian philately!

* * *

#678—CANADIAN TRANSFER CO. PARCEL DELIVERY STAMP

Back in packet #527, we reported some ten varieties of “Parcel Delivery” stamps known to us. During the nearly three years which has elapsed since then we have come onto only one new variety.

Canadian Transfer Co., Limited — Green on white wove paper with a distinct vertical mesh. Issued apparently in strips or coils, as they are roulettred vertically only. This is a so-called “printed roulette” showing a series of green dashes. The stamp is rather large format being approx. 1¾ x 1½ in. Each stamp also bears a control number.

* * *

#679—“B.N.A. FANTASIES”—SPRINGER’S CATALOGUE

A little over a year ago, in packet #602, I called attention to a little booklet which had just been published, “Springer’s Catalogue of U.S. Taxpays and B.N.A. Fantasies”. Now a year later a new edition has appeared. The B.N.A. section has been expanded from 6 to 8 pages. It is really the only up-to-date catalogue of Canadian “Locals” available. This 1963 edition, like its predecessor, is priced at $1.00 and may be secured from Sherwood Springer,
6719 Seventh Ave., Los Angeles 43, California.

Just to give an idea as to its contents—it lists among others some 26 varieties of "Baldwin’s Railroad Postage", 43 varieties of "Bell’s Dispatch", 14 varieties of "Whitney's Express", and 11 varieties of "Winslow & Co. Express". The issues of some 17 other "expresses" and "colleges" are also included.

A "must".

#680—MORE "SPECIMEN"
ELECTION ENVELOPES

Only a few issues back, in packet #656, we reported the first example of a "SPECIMEN" overprint on Election Envelope, to be seen by us, or reported by anyone.

Already we are able to report now, not one, but six examples, including one with the overprint "MODELE" — the French equivalent. These are:

FORM 95—3-55-125M
FORMULE 95—3-55-50M
FORM 154—4-55-50M (Kraft)
FORMULE 154—4-55-17M (Kraft)
FORMULE 154—6-60-10M (Kraft)
"MODELE"
FORM 154—12-60-20M (Kraft)
All are of the 5¢ 1954 Elizabeth design.

* * *

#681—1908 TERCENTENARY
ESSAY

One of our great interests in regular postage has been the Quebec Tercentenary Issue of 1908, the only commemorative issued during the reign of Edward VII, another of our favorite issues.

Recently we were able to add to this collection a Die Proof in black of the ½¢ Die Essay depecting King George V in civilian clothes. It bears the imprint of the "American Bank Note Co., Ottawa" and die no. "F-192."

We also have had in this collection for some time the die proofs in black of the issue as issued, each also bearing the imprint and die number. However, the die proofs of the issue are approx. 2 x 1¾ in. in size, and are on thin card. The essay is on India, die sunk on soft card. The essay die sinkage measures approx. 3 x 2½ in., and the full card is quite large, measuring 6½ x 4 in. The two right hand corners are rounded, and the left margin bears two punch holes as if these were originally contained in a booklet of some sort. Who can tell us the story of this, and presumably other similar die proofs or essays?

* * *

#682—THE "VANCOUVER" FAKE
SURCHARGES

At least at the time this is being written, there has been very little in the philatelic press regarding the quantity of Canadian stamps with faked surcharges that was discovered about a year ago. The incident was well reported in the non-philatelic press. All we can do is to call attention to those varieties we have seen. We list these so that collectors will be aware of their existence. All of these listed herewith are in our own reference collection, some have been reported in previous packets, and all are handstamped on the reverse.

---

Certainly not if they are looking for the more exclusive items or large collections and accumulations! Certainly not if they are seeking the best world price when selling!

With subscribers — over 2,000 of them — in ‘57 Varieties’ of country, and with vendors from almost as large a field, we offer in our three-weekly sales variety of material and service to clients second to none. Why not write for a copy of the airmail edition of the catalogue of our current sale with the twin leaflets, ‘Up the Gavel Path’ (answering the desires of buyers) and ‘Salesmanship’ (settling the posers of disposers) to:

PLYMOUTH PHILATELIC AUCTIONS LTD.

Mermaid House, 34-35 New Street, Plymouth, Devon, U.K.
"FORGED / SURCH" in black. Except where noted, all examples are in Used condition.

All numbers are Scott’s and NX indicates that this particular overprint variety is not known in the genuine.

#87a—"2 Cents" on 3¢ Leaf,
INVERTED

#87 var, NX—"2 Cents" on 3¢ Leaf
—DOUBLE SURCHARGE

#88 var, NX—"2 Cents" on 3¢ Num.
—DOUBLE SURCHARGE
(There are at least two varieties of this one, showing quite different positions of the surcharge.)

#88a—"2 Cents" on 3¢ Num,
INVERTED

#88b—"1" on one-third 3¢ Num.—two copies beautifully tied to piece with strike of "Port Hood, Ja 5 99 N.S." cancel. EXTREMELY dangerous!

#88c—"2" on two-thirds 3¢ Num.—tied to piece as above.

#111 with WAR TAX o/p- 5¢ blue,
2nd provisional issue, not listed by Scott.

#111 with WAR TAX—as above, but
INVERTED (NX)

#119 with WAR TAX o/p- 20¢ Olive,
2nd provisional issue, not listed by Scott.

#140—2 line surcharge on 3¢ Admiral.

#140 var. NX—as above but
INVERTED.

#140a—2 line surcharge, DOUBLE SURCHARGE.

#140b—2 line surcharge, TRIPLE SURCHARGE. (There are at least THREE varieties of this, all showing different positions of the o/p)

#09—50¢ Forestry, with "O.H.M.S." overprint.

#010—$1 Ferry with "O.H.M.S." overprint.

#025—$1 Ferry with "G" overprint.

#C3—"6" on 5¢ airmail, DOUBLE SURCHARGE (Mint)

#C3c—"6" on 5¢ airmail, TRIPLE SURCHARGE (Mint)

In addition we have in our reference collection two other varieties, which do not bear the fore-mentioned "FORGED/ SURCH" handstamp. Both are mint, and are apparently from same source.

#C3 var. NX—"6" and bars on REVERSE (gummed) side of genuine copy of #C3. The surcharge on the reverse is INVERTED.

#C3d—"6" on 5¢ airmail, PAIR, one without surcharge.

We would appreciate letters from anyone who can add to our knowledge of these forgeries, and who can tell us of any additional varieties. If desired, all will be treated in confidence.

* * *

#683—SASKATOON INDUSTRIAL EXHIBITION FLAG CANCELS
OF 1918 AND 1919

On page 12 of the reprint edition of McCready’s handbook on Canadian Flag Cancells, he lists cancel #149—"Saskatoon, June 17, 1919" and "above since reported used for 1918".

Surprisingly enough in our study of this cancel, we have yet to find a collector who reports the 1919 cancel, but have several who confirm the 1918 one! In our own collection we have the earliest date known for the 1918, — June 10th. The latest date so far recorded is less than two weeks later—June 22nd.

Oddly enough McCready also states that the unconfirmed 1918 cancel had "7 lines in flag box". All examples we have seen check approximately with its drawing of the supposed 1919 flag, and contain only 6 lines. Information requested.
#684—NEwFounLAND INLAND REVENUE — 1938

We'd like to bring up-to-date our previous listing in packet #528, of the 1938 Inland Revenue issue which occurs in the 14½ perforation.
5¢ Vermilion—Holmes' listed.
10¢ Black (new)
$1 Brown—Holmes' listed.
$2.50 Mustard—Holmes' listed.
$5.00 Blue-Green—reported in #528.
We would suspect that at least the 25¢ yellow green and the 50¢ blue might also occur in this perforation. Please report.

* * *

#685—HECHLER BOGUS "SERVICE" AND "OFFICIAL" OVERPRINTED POSTAL STATIONERY

Nearly three years have elapsed since we added anything substantial to our collection of this material. However, last year, the Burrus sale in London gave us an opportunity to obtain a nice lot of this material, and a number of items were added to our collection. Back in packet #491 we were able to report just twenty-two varieties. We now can report having thirty-one varieties, plus six examples in used condition.

"OFFICIAL"—Postal Bands .......... 2
—Envelopes .................. 3

"SERVICE"—Postal Bands .......... 3
—Envelopes .................. 14
  (note 1)
—Post Cards ............... 9
  (note 2)

Note 1:—Includes 4 varieties of double overprints.
Note 2:—Includes 4 varieties of double overprints.
Note too that all the additional material has been in the "SERVICE" group. Nothing new has come along in the "OFFICIAL" group.

OBITUARY

It is with great sadness that we have to record the passing of Professor Vernon McKenzie on November 11. Prof. McKenzie called in on the Editor at the beginning of September for a brief chat, while on his way to spend a couple of semesters with the University of the Seven Seas, and while the “University Ship” was moored off Civita Vecchia, he visited Rome where he passed away.

He was a prolific writer on philatelic subjects and Specialist on the stamps of Germany.

He married the former Mrs. Lloyd Chapman just before the start of the cruise (while in Toronto, we have heard!) and she accompanied him on the journey.

He was a retired professor at the University of Washington in Seattle, but still delivered occasional lectures there.

Our deepest sympathy to Mrs. McKenzie in her grievous loss.
MIPEX—the Melbourne International Exhibition was one of the most enjoyable I have visited. It was situated in two buildings about 400 yards apart which had nothing but advantage to me although the additional stewards needed may have presented the organising committee with a problem which was not apparent to the visitor. The frames were spaciously arranged, the lighting excellent and in spite of the lovely weather, the excellent ventilation made for comfort.

After all the exhibitions that I have visited, here was one with two innovations that pleased every one with whom I discussed the matter. Firstly, all the judging was complete before the exhibition and each visitor was given an awards list on arrival. Secondly, the size of the 300 exhibits was limited and in all there were about 600 frames. In consequence, the visitor who was there for a week had a chance of at least seeing everything and I do not doubt that many adopted my plan, a quick look round the lot while marking the catalogue with those exhibits which one wanted to study at leisure.

SMALLER AND BETTER

Let me dwell on this subject of size for a few minutes. If you are going to spend 30 seconds a frame for a brief survey then you need five hours for 600 frames and bang goes the first day. You mark up forty exhibits housed in about a hundred frames and you start again. Mrs. Louise Dale's classic Mauritius were mounted on twelve pages housed in one frame. It took me nearly an hour before I was satisfied that I had secured the maximum pleasure from this one. Bear in mind that I had accumulated 36 Court of Honour exhibits in Europe which had already been studied before the exhibition so the eleven Australian and sixteen North American displays in this section took me two more days to digest. This you may understand readily when you know that Canada was shown by P. G. Gardiner (pence), Clare Jephcott (1859) and Vinnie Greene (1868). The latter also showed New Brunswick and Nova Scotia while Gerry Wellburn's British Columbia and Vancouver Islands are still an irresistible attraction although I had played with this incomparable collection for hours a few months ago. The truth of the matter is that given 600 frames of exhibits, the least valuable of which shows that the owner is an intelligent philatelist who knows his stamps and how to present them, and you have all the philatelic brain can absorb in two weeks. Why then the 400 frames favoured by many organising committees? It means more unnecessary work, more expense (say $15.00 a frame), more in-
surance, and LESS PLEASURE. Probably the bar sales are greatly increased as the brain and foot weary seek consolation or oblivion!

Another feature of the Melbourne exhibition which I greatly admired was their new frames which had cost around $15 each unit of four to manufacture—glazing was extra. The design and stability were excellent and when folded they took so little room that storage for the next exhibition was a minor problem.

The percentage of stamp collectors and philatelists in Australia is lower than in North America and in Europe for the lovely climate encourages more outdoor activity than elsewhere. MIPEX did not include a thematic section because it was felt that such exhibits got their constant opportunity at national and local exhibitions. A survey of the competitive exhibits from Australian collectors demonstrated the high standard of research achieved.

On my journey round the world I met philatelists in BOMBAY (where serious collecting is declining but thematics are booming) and SYDNEY (where all types of collecting find favour). The striking feature in New South Wales is the large number of prosperous members of the trade which the hobby obviously needs.

Obviously they are not pro-exhibition as only nine Australian dealers advertised in the MIPEX catalogue and only four had booths, a lack of support I failed to understand and no one could satisfactorily explain.

In SAN FRANCISCO, my friends allowed me to indulge in my personal interest in Wells Fargo and Western Franks. Anyone sharing my tastes should spend a day at least at the Wells Fargo Museum. In CHICAGO I spent a happy day browsing through the collection left by the late Doc Hennan who I last met at CAPEX in 1951 when he was one of the judges at the Canadian Centenary exhibition. Hennan had a catholic taste in philately and in his last years formed incredible collections of those countries which he classified as "banana republics". If you could see his Guatemala and Salvador you would understand.

Many of you will know of the warm reception given me in TORONTO and every minute of my four day stay was crammed with pleasure of old friendships renewed and pen friends who became real. I found several treasures for my "Independent Males" (they were too), mostly through the generosity of Kenneth Rowe. Further, I collected a very reasonable lot of B.N.A. of which a large proportion will find its way home again next February.

Do not be surprised if I drop in again before long.

Back in London I note the new volumes are starting to come off the press—"The Postal History and Postage Stamps of Hamburg" and "Numeral Cancellations of N.S.W." are already published. "The Abbreviated Handstamps" and "Boyd's Local Posts" will follow early in the New Year and the Spring will be enlivened by "Franco Heads" and "Greek Maritime Mail". The real gem of the season will be Joseph Schatzkes "Cancellations of Mexico"—a lovely volume with twelve colour plates and over 2,200 illustrations.

The Continental "Uncommon Market" grows apace with the Anglo-Dutch sale of Netherlands in December, Anglo-French sale of French Colonies in February, Anglo-German sale of Austria and Franco-German sale of Switzerland in April. This last sale will be held in Basel. I bet old Burrrus would have been amused.
CHAPTER NEWS

- EAST TORONTO

The 25th Anniversary Exhibition of the East Toronto S.C. was held on the 28th September and was a great success from all points of view. 216 frames, from 32 entries were on show, plus a fine Court of Honour. Awards were: Grand Award to Ralph Tipper (Brooke period of Sarawak). Gold: R. Tipper and J. W. Snowball (Illustrated Flowers in Botanical Order); Silver: F. G. (2) (Early Canadian Postmarks and First 50 Years of Canadian Postage); A. W. Blakely (Ceylon); D. Kuehner (Baden); Bronze: E. Turner (Admirals); J. W. Holmes (Surface-printed G.B.); M. D. Sturgeon (Jamaica); R. B. Mason (Canadian commemoratives). The Maurice Apfelbaum Gold Medal, for best "printed pages" exhibit, went to R. Oyagi (Japan).

- QUEBEC

For the first time, the Société Philatélique de Québec has sent us some news of the Club and a photo of its officers which we reproduce below. Mlle Marguerite Fortin is bringing out a fine Bulletin. Accompanying a recent bulletin was a splendid item on the cancellations of the New Hebrides, something which is of great interest to us!

Now that the ice is broken, we hope to hear often from Jacques Charron and Québec!

- MONTREAL

Mr. E. R. Fawcus has been elected President of the Westmount S.C. for 1963-64, Wayne Bungay remaining as Secretary.

We are glad to learn that in spite of the serious increase in the rental of the Victoria Hall in Westmount, the Club has been able to continue its meetings there, as in the past.

The South Shore Stamp Club (Rivie-Sud) held a very successful Exhibition recently, at which Miss Audrey Allin won the Best In The Show award for her exhibit of African countries.

Roger Trudeau has been elected President and Wayne Curtis remains as Secretary.

- WOODSTOCK

The Oxford P.S. advises us that Doug Carr, of Ingersoll, has been elected President for the forthcoming year. Art Williams, of Embro, Ont., is Secretary.

We learn from the Club's Bulletin that the London P.S. is giving a "Course in Philately" early in the New Year. This sounds, and should be, quite interesting and we hope to hear more about it in due course.

- BARRIE

Congratulations to the Barrie District S.C. on attaining their fourth anniversary recently. The first five years are the toughest in the life of any Club and we hope we shall hear, and see Barrie, for many more years to come.

Congratulations, George!

We heard in September that George L. Lee, so well-known to many of us, was married on the 16 September to Mrs. Virginia Jones Celce, at Biddeford, Me.

Mr. and Mrs. George Lee were at home at Mine Mount, Bernardsville, N.J. as from December 15th.

Our warmest congratulations, George, and best wishes to you and Virginia, for your happiness in the future.
The Cover

A SHOWPIECE OF THE HIGHEST ORDER

"Superb in every respect," says the Harmer, Rooke catalogue of this Canada 7½-pence from the Dec. 10-13 auction at their 560 Fifth Avenue salesrooms. This stamp has brilliant color and impression, full o.g.

"The finest copy we have ever seen," comments Gordon Harmer, "and probably the finest in existence."
The showpiece is from the worldwide collection of Porfirio Gongora of San Jose, Costa Rica, of which the first part will be offered in this sale.
(Courtesy Harmer, Rooke & Co., Inc.)

TRADE NOTES

ROBSON LOWE, LTD.

It is interesting to note that the firm of Robson Lowe, Ltd., did a record £476,842 of business during the 1962-63 season, £194,700 of which came from the sale of parts of the Burrell collection. The highest price paid was £11,000 for a Bermuda Perot on letter.

HARRIS' NEW EDITION OF 1964 CATALOGUE OF US AND BNA

This new 1964 edition of Harris’ well-known catalogue of U.S.A. and B.N.A. is now ready.

This edition comprises a special “Americana” section, United Nations complete and a U.S. stamp identifier, with 160 pages and nearly 2000 illustrations.

To be obtained from H. E. Harris & Co., Catalog Dept., Boston 17, Mass., U.S.A. Price 35 cents, postage-free.

H. J. HOLLANDS

We learn that the firm of HOLLANDS & KEARSLEY is now under the name of its sole proprietor, HEDLEY J. HOLLANDS, at the same address, 501 Yonge St., Ste 201, Toronto 5, Ont.

CANADA OHMS OFFICIALS

NEW CATALOG, listing, illustrating, and pricing the 732 varieties, major and minor for the first time. 7 pages of editorial show how to recognize the rare positions. Invaluable to collectors and dealers. $2.00 NEW 60 ALBUM PAGES, 694 illustrations $3.00. BASIC COLLEC-

TION 75 varieties (limit 1) $10.00.

WRITE-UP describing scope of OHMS free.

I buy OHMS. I offer approval selections, or would appreciate your wantlist.

ROY WRIGLEY
2288 Bellevue Ave., West Vancouver, B.C.

NEW LIBERTY ALBUM

Harris & Co., of Boston are marketing a new album, the LIBERTY and claim that this new album has more illustrations and contains more outstanding features than any other U.S. album anywhere near its price range.
The album is 100% illustrated and has 2804 clear illustrations. It is vinyl-covered and is of the loose-leaf variety.
The album is retailed at $7.95 in Canada. Published by H. E. Harris & Co., 108 Massachusetts Ave., Boston 17, Mass.

NEW CANADIAN OMHS CATALOG

We have received copy of the new Canadian OHMS Officials Catalog, the first since 1956. This lists the 284 major, and 498 minor varieties. Seven pages of editorial covers all phases of the OHMS, and outlines the method of recognizing the difficult from the common positions, in the perforating of the 4 and 5-Hole Perforated OHMS. These can readily vary in value from 3¢ to $10.00. In addition prices are listed of both major and minor varieties, which can be of great value to dealers and collectors. Published by Roy Wrigley, 2288 Bellevue Ave., West Vancouver, B.C., Canada.

PARLIAMENT . . . from page 25
a quote from a German auction cata-
logue: “Falzloses Album. Leichter Far-
babklatsch, Marken aber nicht beschaed-
digt” and if you do not understand this:
hingeless album, light ink offset but
stamps undamaged. A few months
ago in New York we noticed a Japanese
made album with individual plastic pock-
et for each stamp very similar to one
already on the market from Germany.
An interesting new game seems to be
played by many auction houses. In the
last six months a number of stamp auc-
tions have been postponed to later dates.
We suspect that the reason for doing so
is to get more bids and more time for
publicity.

EDMONTON . . . . from page 26
mind you that your exhibit could, if you
wish, go on to SPOKANE for showing
two weeks after CANPEX. Further de-
tails on this are available with our
Edmonton Committee.
When it’s Springtime in the Rockies
—there’s CANPEX ’64.
Then motor down to SPOKANE
—enjoy a few days more.
We expect a whole trainload of you
to come with Dr. Geldert from Ontario.
Remember now . . . . “Meet us in the
Confederation Room”.

Printing and Advertising ............. S. S. Kenyon, Chairman
Covers and Souvenir Labels .......... R. L. Stone, Chairman

The General Chairman will be an ex-officio member of all
Committees. Committees may be enlarged as required.

GENERAL INFORMATION

CANPEX '64 will be the first International Exhibition to be
held in Edmonton and the first exhibition sponsored by the
Royal Philatelic Society of Canada to be held in Alberta. We
feel the locale is particularly suitable as it provides an arena
where the "giants" from the east can battle on a neutral field
with the eager contenders from the great Pacific North West.
Watching and participating in this contest will be the hordes
of prairie Philatelists who have waited a lifetime for the
opportunity of seeing an International Exhibition close to
home.

We have already been assured that many prize winning ex-
hibits will be shown and exhibitors can be sure that they will
meet and be proud to compete with much that is fine in the
Philatelic world. We have arranged for a spacious well lighted
exhibition area and no effort will be spared to make the setting
ideal for a wonderful show.

We believe visitors to Edmonton will be interested and in-
trigued with this frontier metropolis where history is still being
made — with the big busy International Airport where planes
fly over the pole to Europe or via Alaska to the Orient carry-
ing on in the tradition of the "bush pilots" who flew from
Edmonton to open up the north — the "Gateway to the North"
where you start up the Alaska Highway and the Mackenzie
Highway following the trails shoved through the wilderness
by the early explorers and fur traders — with the night sky line
bright with oil well and refinery flares graphically displaying why Edmonton is called the "Oil Capital of Canada." Be assured a western welcome is awaiting you.

**POST OFFICE EXHIBIT**

The Postmaster-General of Canada has offered the fullest co-operation and on the basis of present plans, the Canadian Post Office participation at CANPEX '64 will be in keeping with the high standards set in the past.

**BOURSE**

An attractive, convenient area has been arranged for Dealer Booths. Details of rates and available equipment may be obtained from E. J. Christensen, Box 399, Edmonton, Alta.

**COURT OF HONOR**

As this is the first time that the R.P.S.C. has held a convention in what was once the territories, every effort is being made to feature in the invited exhibits, not for competition, material showing the postal development of the west. The Hudsons Bay Company incorporated by royal charter in 1670 is sending a special historic exhibit dealing with its early days in western Canada.

**HOTEL AND MOTEL ACCOMMODATION**

Accommodation should be arranged directly with the Hotels and Motels of your choice. The Macdonald Hotel will be making special arrangements to accommodate guests for Canpex. Any assistance required in obtaining accommodation is available by writing to CANPEX '64, BOX 399, Edmonton, Alta.

**EXHIBITION HALL**

The Macdonald Hotel is a very suitable setting for this fine western exhibition. Located high on the bank of the North Saskatchewan River, this turreted edifice dominates the scene like a medieval castle. There is an old world beauty and charm in the spacious rooms and halls combined with the comfort and luxury of a modern hotel. Spacious parking lots are available. The magnificent view from the rooms includes the wide river valley with the river which until 60 years ago was the main highway from the east and the parliament buildings, with the lighted dome up river on the promontory where the original Hudson's Bay Fort stood. The Hotel is within easy walking distance of downtown shopping, entertainment, and first class restaurants.
EXHIBITS

There will be 450 frames available for competition. A frame will consist of eight standard album pages, four horizontally by two vertically. Fee for each frame will be $2.00. Competitive Exhibits will be limited to eight frames (64 pages). These frames are available to anyone regardless of society affiliation. Entries will be accepted, subject to available space, up to 31 March 1964.

OFFICIAL CATALOGUE

The official Catalogue will be available at the Exhibition and by mail from CANPEX '64, BOX 399, Edmonton, Alta., at a price of 50¢ each. Advertising rates for the Catalogue are available from the same address.

SOCIETY MEETINGS

Special meetings of societies are being arranged for CANPEX and others are invited. Please address correspondence for meetings to the General Chairman.

PUBLICITY LABELS AND COVERS

Designed by E. J. Christensen, miniature sheets of gummed labels have been prepared for use on philatelic mail or as souvenirs of the show. Supplies are available in sets of three colors from R. L. Stone, BOX 399, Edmonton, Alta., at a price of 25¢ per set. Arrangements are being made to supply special illustrated covers mailed with commemorative stamps and cancelled with our special slogan. Available from Mr. R. L. Stone, Box 399, Edmonton, Alta. at a price of 20¢ each or 50¢ per set of three.

CORRESPONDENCE — There is only one address. All communication concerning CANPEX '64 should be addressed in the first instance as below. Direct communication will be arranged thereafter by the Committee chairman involved.

CANPEX '64,
BOX 399,
EDMONTON, ALTA., CANADA.

MOUNTING OF EXHIBITS

Experienced members of the Edmonton Stamp Club will be formed into a committee to provide for mounting and dismounting the exhibits. It is permissible for an exhibitor to mount his own exhibit but all mounting must be completed before the opening of the exhibition and no exhibit may be removed before the close of the exhibition.
RULES AND REGULATIONS FOR ENTRY OF EXHIBITS FOR COMPETITION

Eligible Entries
1. In the competitive section the whole of each exhibit must be the bona fide property of the exhibitor and the making of an entry is to be deemed an implied declaration of the exhibitor to this effect.
2. Each exhibit shall be entered in its correct class or group. An exhibit incorrectly entered may be transferred by the Jury to its proper class or group.
3. Exhibits may be entered “not for competition.” All exhibits of the Jury must be so entered.

Form of Mounting
4. Exhibits of stamps for display in frames must be mounted on loose leaf album pages. No exhibits for display in frames will be accepted in any other form.
5. Stamps or covers may be exhibited in cellophane or other transparent containers, but exhibitors are requested not to do so unless essential for the protection of the items.

Allotment of Frames
6. No exhibit accepted for display in frames shall be allotted less than one frame.
7. The Exhibition Committee reserves the right to reject any exhibit without assigning any reason for such rejection.
8. No displayed exhibit may be removed prior to the official closing of the Exhibition on Saturday, May 16th, 1964.

Constitution and Powers of the Jury
9. The Jury, consisting of a group of judges appointed by the Exhibition Committee, will effect their own organization, and their decision will in all cases be final. They shall have power to consult independent opinion, amateur or professional, should they so desire.
10. General Awards shall be made on the standard attained by the exhibit, without consideration of Group or Society Awards which may have been awarded to that exhibit.
11. The Jury will be requested to base awards on the following considerations:
   a. Philatelic Knowledge
   b. Coverage
   c. Condition
   d. Presentation

Awards
12. Society Trophies will be awarded to eligible exhibitors, regardless of General Awards which also have been awarded.
13. The competitive trophies of the various societies and any Special Awards available will be listed in the Exhibition Catalogue.

14. All exhibitors will receive a Certificate of Participation and will be eligible for General Awards.

15. General Awards will consist of Gold, Silver, and Bronze Awards. No specific number will be assigned to each class or group. It will be left to the discretion of the Jury to determine the number to be awarded.

**Fees for Exhibits**

16. A frame shall consist of eight standard album pages and each exhibitor will be required to pay the fee for each frame or part thereof used. The fee per frame will be $2.00.

17. No exhibit will be accepted unless the prescribed fee has been paid in full at the time of submission of the entry form.

18. Where an exhibit is rejected at the discretion of the Exhibition Committee, the fee will be refunded.

**General**

19. The Official Entry Form must be sent to the Exhibits Committee, BOX 399, Edmonton, Alta., Canada, not later than March 31st, 1964.

20. Exhibits must be forwarded prepaid to CANPEX '64, Attention Mr. J. Goodall, % Canada Permanent Trust Company 10038 Jasper Avenue, Edmonton, Alta.

If an exhibitor is planning on bringing his exhibit with him to the convention, he is requested to so advise the Exhibits Chairman. Exhibits other than those being delivered in person must be received between April 20th and May 7th, 1964.

21. Exhibits will be returned at the expense of the owner, as soon as possible after the close of the Exhibition, in the manner directed by the owner if prepayment is enclosed. Unless other instructions are given they will be returned Express Collect, insured for $50.00.

22. Exhibitors are required to send descriptions of their exhibits in some detail with their entry form for inclusion in the Exhibition Catalogue. Such descriptions are subject to omission or alteration at the discretion of the Exhibits Committee.

**Insurance**

23. Exhibitors must make their own arrangements for insurance. Exhibits entered in the Exhibition will be received, held, exhibited and returned at the risk of the owner.
Security
24. Special arrangements for security have been made. Exhibits will be received and stored in the vaults of The Canada Permanent Trust Company Edmonton, Alta. Canada. They will remain in the vaults until mounting time when they will be transferred under guard to the Exhibition and mounted under the continuous direct supervision of a team of three members of the Exhibits Committee. The exhibits will be protected by guards on a twenty-four hour basis while on display.

Liability
25. Although all reasonable care will be taken of the exhibits, no responsibility shall attach to the Royal Philatelic Society of Canada, the Edmonton Stamp Club, nor the members thereof, nor to the members of the Exhibition Committee, nor to its voluntary assistants or employees, nor the Macdonald Hotel, Edmonton, for any loss or damage to an exhibit arising from any cause or reason whatsoever.

26. The signature of the exhibitor on the Entry Form shall be deemed to imply acceptance of these Rules and Regulations.

Exhibition Committee
27. The decision of the Exhibition Committee on all questions that may arise concerning the Exhibition shall be final.
